However, a certificate or order may not be issued under this section if the name was assumed to conceal a crime or to avoid its consequences. (Aug. 10, 1956, ch. 1041, 70A Stat. 116.)

HISTORICAL AND REVISION NOTES

The word "shall" is substituted for the words "is authorized and required". The word "separated" is substituted for the word "discharged", since the revised section covers acceptances of resignations as well as certificates of discharge. The words "enlisted or" and "while minors or otherwise" are omitted as surplusage. The words "the War of the Rebellion" are omitted as obsolete. The word "with" is substituted for the words "between the United States and". The words "honorably or under honorable conditions" are substituted for the word "honorably".

§ 1552. Correction of military records: claims incident thereto.

(a) The Secretary of a military department, under procedures established by him and approved by the Secretary of Defense, and acting through boards of civilians of the executive part of that military department, may correct any military record of that department when he considers it necessary to correct an error or remove an injustice. Under procedures prescribed by him, the Secretary of the Treasury may in the same manner correct any military record of the Coast Guard. Except when procured by fraud, a correction under this section is final and conclusive on all officers of the United States.

(b) No correction may be made under subsection (a) unless the claimant or his heir or legal representative files a request therefor before October 26, 1961, or within three years after he discovers the error or injustice, whichever is later. However, a board established under subsection (a) may excuse a failure to file within three years after discovery if it finds it to be in the interest of justice.

(c) The department concerned may pay, from applicable current appropriations, a claim for the loss of pay, allowances, compensation, emoluments, or other pecuniary benefits, or for the repayment of a fine or forfeiture, if, as a result of correcting a record under this section, the amount is found to be due the claimant on account of his or another's service in the Army, Navy, Air Force, Marine Corps, or Coast Guard, as the case may be. If the claimant is dead, the money shall be paid, upon demand, to his legal representative. However, if no demand for payment is made by a legal representative, the money shall be paid—

(1) to the surviving spouse, heir, or beneficiaries, in the order prescribed by the law applicable to that kind of payment;

(2) if there is no such law covering order of payment, in the order set forth in section 2771 of this title; or

(3) as otherwise prescribed by the law applicable to that kind of payment.

A claimant's acceptance of a settlement under this section fully satisfies the claim concerned. This section does not authorize the payment of any claim compensated by private law before October 25, 1951.

(d) Applicable current appropriations are available to continue the pay, allowances, compensation, emoluments, and other pecuniary benefits of any person who was paid under subsection (c), and who, because of the correction of his military record, is entitled to those benefits, but for not longer than one year after the date when his record is corrected under this section if he is not reenlisted in, or appointed or reappointed to, the grade to which those payments relate. Without regard to qualifications for reenlistment, or appointment or reappointment, the Secretary concerned may reenlist a person in, or appoint or reappoint him to, the grade to which payments under this section relate.

(e) No payment may be made under this section for a benefit to which the claimant might later become entitled under the laws and regulations administered by the Administrator of Veterans' Affairs. (Aug. 10, 1956, ch. 1041, 70A Stat. 116; June 29, 1960, Pub. L. 86–533, § 1(4), 74 Stat. 246.)

The Secretary of the department concerned may provide by regulation for the waiver of the provisions of paragraphs (2) and (3) of this subsection, or of either of such paragraphs, in those cases in which the application of such paragraphs, or either of them, would be against equity and good conscience or against the public interest.

(c) The right to return to a position in the United States granted under this section shall be without reduction in the seniority, status, and tenure held by the employee immediately before his assignment to duty outside the United States and the employee shall be placed, not later than thirty days after the date on which he is determined to be immediately available to exercise such right, in accordance with the following provisions:

employee cannot be placed in a position under such paragraph (4), he shall be reassigned or separated under the regulations prescribed by the United States Civil Service Commission to carry out sections 3501–3503 of title 5.

(6) If there is a termination of or material change in the activity in which the former position of the employee (referred to in paragraph (1) of this subsection) was located, he shall be placed, in the manner provided by paragraphs (2), (3), and (4), as applicable, of this subsection, in a position in the department concerned in a geographical area other than the geographical area in which such former position was located.

(d) Each employee who is placed in a position under paragraph (1), (2), (3), (4), or (6) of subsection (c) of this section shall be paid at a rate of basic compensation which is not less than the rate of basic compensation to which he would have been entitled if he had not been assigned to duty outside the United States.

(2) If the employee cannot be placed in a position under paragraph (1) of this subsection, he shall be reassigned to a position other than the position from which he is displaced, or separated, under the regulations prescribed by the United States Civil Service Commission to carry out sections 3501–3503 of title 5.

The words "or equipment" are omitted as covered by the definition of "supplies" in section 101 (26) of this title.

§ 2203. Budget estimates.

To account for, and report, the cost of performance of readily identifiable functional programs and activities, with segregation of operating and capital programs, budget estimates of the Department of Defense shall be prepared, presented, and justified, where practicable, and authorized programs shall be administered, in such form and manner as the Secretary of Defense, subject to the authority and direction of the President, may prescribe. As far as practicable, budget estimates and authorized programs of the military departments shall be uniform and in readily comparable form. (Added Pub. L. 87-651, title II, § 207(a), Sept. 7, 1962, 76 Stat. 520.)

§ 2204. Obligation of appropriations.

To prevent overdrafts and deficiencies in the fiscal year for which appropriations are made, appropriations made to the Department of Defense or to a military department, and reimbursements thereto, are available for obligation and expenditure only under scheduled rates of obligation, or changes thereto, that have been approved by the Secretary of Defense. This section does not prohibit the Department of Defense from incurring a deficiency that it has been authorized by law to incur. (Added Pub. L. 87-651, title II, § 207(a), Sept. 7, 1962, 76 Stat. 520.)

§ 2205. Availability of reimbursements.

Reimbursements made to appropriations of the Department of Defense or a department or agency therof under section 686 of title 31, or other amounts paid by or on behalf of a department or agency of the Department of Defense to another department or agency of the Department of Defense, or by or on behalf of personnel of any department or organization, for services rendered or supplies furnished, may be credited to authorized accounts. Funds so credited are available for obligation for the same period as the funds in the account so credited. Such an account shall be accounted for as one fund on the books of the Department of the Treasury. (Added Pub. L. 87-651, title II, § 207(a), Sept. 7, 1962, 76 Stat. 520.)

§ 2206. Disbursement of funds of military department to cover obligation of another agency of Department of Defense.

As far as authorized by the Secretary of Defense, a disbursing officer of a military department may, out of available advances, make disbursements to

cover obligations in connection with any function, power, or duty of another department or agency of the Department of Defense and charge those disbursements on vouchers, to the appropriate appropriation of that department or agency. Disbursements so made shall be adjusted in settling the accounts of the disbursing officer. (Added Pub. L. 87-651, title II, § 207(a), Sept. 7, 1962, 76 Stat. 520.)

§ 2207. Expenditure of appropriations: limitation.

Money appropriated to the Department of Defense may not be spent under a contract other than a contract for personal services unless that contract provides that—

(1) the United States may, by written notice to the contractor, terminate the right of the contractor to proceed under the contract if the Secretary concerned or his designee finds, after notice and hearing, that the contractor, or his agent or other representative, offered or gave any gratuity, such as entertainment or a gift, to an officer, official, or employee of the United States to obtain a contract or favorable treatment in the awarding, amending, or making of determinations concerning the performance, of a contract; and

(2) if a contract is terminated under clause (1), the United States has the same remedies against the contractor that it would have had if the contractor had breached the contract and, in addition to other damages, is entitled to exemplary damages in an amount at least three, but not more than 10, as determined by the Secretary or his designee, times the cost incurred by the contractor in giving gratuities to the officer, official, or employee concerned.

The existence of facts upon which the Secretary makes findings under clause (1) may be reviewed by any competent court. (Added Pub. L. 87-651, title II, § 207(a), Sept. 7, 1962, 76 Stat. 520.)

§ 2208. Working-capital funds.

(a) To control and account more effectively for the cost of programs and work performed in the Department of Defense, the Secretary of Defense may require the establishment of working-capital funds in the Department of Defense to—

(1) finance inventories of such supplies as he may designate; and

(2) provide working capital for such industrial-type activities, and such commercial-type activities that provide common services within or among departments and agencies of the Department of Defense, as he may designate.

(b) Upon the request of the Secretary of Defense, the Secretary of the Treasury shall establish working-capital funds established under this section on the books of the Department of the Treasury.

(c) Working-capital funds shall be charged, when appropriate, with the cost of—

(1) supplies that are procured or otherwise acquired, manufactured, repaired, issued, or used; and

(2) services or work performed;

including applicable administrative expenses, and be reimbursed from available appropriations or otherwise credited for those costs, including applicable administrative expenses and costs of using equipment.

(d) The Secretary of Defense may provide capital for working-capital funds by capitalizing inventories. If this method does not, in the determination of the Secretary of Defense, provide adequate amounts of working capital, such amounts as may be necessary may be appropriated for that purpose.

(e) Subject to the authority and direction of the Secretary of Defense, the Secretary of each military department shall allocate responsibility for its functions, powers, and duties to accomplish the most economical and efficient organization and operation of the activities, and the most economical and efficient use of the inventories, for which working-capital funds are authorized by this section.

(f) The requisitioning agency may not incur a cost for supplies drawn from inventories, or services or work performed by industrial-type or commercial-type activities for which working-capital funds may be established under this section, that is more than the amount of appropriations or other funds available for those purposes.

(g) The appraised value of supplies returned to working-capital funds by a department, activity, or agency may be charged to that fund. The proceeds thereof shall be credited to current applicable appropriations and are available for expenditure for the same purposes that those appropriations are so available. Credits may not be made to appropriations under this subsection as the result of capitalization of inventories under subsection (d).

(h) The Secretary of Defense shall prescribe regulations governing the operation of activities and use of inventories authorized by this section. The regulations may, if the needs of the Department of Defense require it and it is otherwise authorized by law, authorize supplies to be sold to, or services to be rendered or work performed for, persons outside the Department of Defense. Working-capital funds shall be reimbursed for supplies so sold, services so rendered, or work so performed by charges to applicable appropriations or payments received in cash.

(i) Reports annually shall be made to the President and to Congress on the condition and operation of working-capital funds established under this section. (Added Pub. L. 87-651, title II § 207(a), Sept. 7, 1962, 76 Stat. 521.)

The fund shall be promptly reimbursed from those funds for expenditures made from it.

As adequate data becomes available, the estimated cost shall be revised and necessary adjustments made. Final adjustment shall be made with the appropriate funds for the fiscal year in which the advances or reimbursements are made. Except as otherwise provided by law, amounts advanced to management funds are available for obligation only during the fiscal year in which they are advanced. (Added Pub. L. 87-651, title II, § 207(a), Sept. 7, 1962, 76 Stat. 522.)

(Added Pub. L. 87-651, title II, § 207(a), Sept. 7, 1962, 76 Stat. 522.)

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 2233 of this title.

§ 2236. Contributions to States; other use permitted by States.

(a) Contributions under section 2233 of this title are subject to such terms as the Secretary of Defense, after consulting the Committees on Armed Services of the Senate and the House of Representatives, considers necessary for the purposes of this chapter. Except as otherwise agreed when the contribution is made, a facility provided by a contribution under section 2233 (a) (3) or (4) of this title may be used jointly by units of two or more reserve components of the armed forces only to the extent that the State or Territory, Puerto Rico, or the District of Columbia, whichever is concerned, considers practicable.

(b) A contribution made for an armory under section 2233 (a) (4) of this title may not be more than 75 percent of the cost of the construction to which it is applied. For the purpose of computing the cost of construction under this subsection, the amount contributed by the State or Territory, Puerto Rico, or the District of Columbia, whichever is concerned, may not include the cost or market value of any real property that it has contributed.

(c) If a State or Territory, Puerto Rico, or the District of Columbia acquires, constructs, expands, rehabilitates, or converts a facility with amounts contributed under section 2233 of this title, it may—

(1) permit persons or organizations other than members and units of the armed forces to use the facility under such leases or other agreements as it considers appropriate; and

(2) apply amounts received under those leases or agreements to the cost of maintaining the facility.

(d) Except as otherwise agreed when the contribution is made, and except as the agreement is later changed, a State or Territory, Puerto Rico, or the District of Columbia may not permit any use or disposition of the facility that would interfere with its use—

(1) for administering and training the reserve components of the armed forces; or

(2) in time of war or national emergency, by other units of the armed forces or by the United States for any other purpose.

Sec.
2271. Design competitions: advertisement; selection of winner.
2272. Design competitions: rejection or purchase of designs; contracts; conditions.
2273. Right of United States to design; right of designer to patent; right to sue United States.
2274. Procurement for experimental purposes.
2275. Contracts; review of decisions.
2276. Inspection and audit of plant and books of contractor; criminal provisions.
2277. Appropriations; availability.
2278. Purchase of sample aircraft.
2279. Aircraft: restrictions on alien employees of contractor.

§ 2271. Design competitions: advertisement; selection of winner.

(a) To encourage the development of aviation and to improve the efficiency of aeronautical war material for the Army, Navy, Air Force, and Marine Corps, the Secretary of each military department, before procuring new designs of aircraft, aircraft parts, or aeronautical accessories, shall invite the submission of new designs thereof in competition, as follows.

(b) An invitation for the submission of a design shall be made by advertisement in not less than three leading aeronautical journals for a period of 30 days, and in such other manner as the Secretary of the military department concerned considers advisable. Such an advertisement shall specify a time within which designs and prices may be submitted. This time may not be less than 60 days after the expiration of the 30-day advertising period. Each submission shall be sealed and shall contain the design submitted, a statement of the price for which the design or any part of it would be sold to the United States, and a graduated scale of prices for which the designer is willing to construct all or any part of a designed item. The submission shall be kept sealed until the expiration of the specified time. No design mailed after that time may be considered.

(c) Each advertisement under subsection (b) shall state in general terms the kind of aircraft, aircraft parts, or aeronautical accessories to be developed and the approximate quantity required. The department concerned shall furnish to each applicant identical detailed information as to the conditions of the competition and the features and characteristics to be developed in the design, listing specifically the measures of merit, expressed in percentages, that are to be applied in determining the merits of the design. These measures of merit apply throughout the competition.

(d) Each design submitted under subsection (b) shall be referred to a board appointed by the Secretary of the military department concerned. The board shall appraise each design as soon as practicable and report the winners to the Secretary. If the Secretary approves the board's report, he shall fix the time and place of a public announcement of the results and notify each competitor. If the Secretary does not approve it, the papers may be returned to the board for revision, or he may choose the winners, as he elects. The decision of the Secretary is final and conclusive. The announcement of the results of the competition shall state the percentages awarded to each feature or characteristic of each of the designs submitted and the price named for each design and each feature thereof, if separable.

(e) If, within 10 days after the announcement of the results of a competition under subsection (d), a competitor makes a reasonable showing in writing to the Secretary of the military department concerned that an error was made in determining the merits of designs submitted and that he was thereby deprived of an award, the Secretary shall at once refer the matter to a board of arbitration for determination. The board of arbitration shall be composed of three skilled aeronautical engineers, one of whom shall be selected by the Secretary, one by the claimant, and

the third by the other members. No person may be a member of a board of arbitration if he served on the board of appraisal that judged the competition out of which the arbitration arose. The findings of the board are conclusive if approved by the Secretary. In a competition, three competitors, or less, who have the highest figures of merit may be selected as winners. SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 2274 of this title.

§ 2272. Design competitions: rejection or purchase of designs; contracts; conditions.

(a) If the Secretary of the military department concerned determines that a winner of a design competition under section 2271 of this title is, or can become within a reasonable time, able and equipped to furnish or construct all or part of any designed item, he may contract with that winner for furnishing or constructing it at a reasonable price, but not more than the price submitted with the design, on terms that he considers most advantageous to the United States. However, if the Secretary determines that the winner will not be able to furnish all or part of any designed item, he may buy the design, or a separable part of it, at a fair and reasonable price, but not more than the price submitted with the design.

(b) If the Secretary of the military department concerned determines that none of the designs submitted in a competition is of sufficient merit to justify procurement of a designed item, he need not accept or pay for them.

(c) If the Secretary of the military department concerned determines that the designs submitted by two or more competitors are of equal merit, or that features in the designs of one competitor are superior to the corresponding features in the designs of another competitor and that the superior features of one design may be substituted for the inferior features of another, he may divide the contracts for furnishing the item equitably among those competitors that submitted designs of equal merit, or he may combine features of superior excellence of different designs in such manner as he determines to be in the best interest of the United States. Payment may be made accordingly to the several competitors at fair and reasonable prices and the contract for the item may be awarded to the competitor or competitors having the highest figures of merit in the competition.

(d) If the Secretary of the military department concerned cannot contract with a winner in a design competition for furnishing or constructing all or part of a designed item, or if he cannot agree with a winner for the purchase of a design at a reasonable price, he may retain the design and advertise according to law for proposals for furnishing or constructing the item. After all proposals are submitted the Secretary may contract with the lowest responsible bidder for furnishing the item, on terms that he considers in the best interest of the United States. However, the Secretary may reject all bids and advertise for other bids with the same or different specifications.

(e) Each seller of designs and each contractor furnishing or constructing aircraft, aircraft parts, or aeronautical accessories under this section shall, if the Secretary of the military department concerned requests it, release claims against the United States arising out of the sale or contract. The release shall be in the form, and shall contain the terms, prescribed by the Secretary.

(f) No contract may be awarded under this section—

(1) to an individual who is not a citizen of the United States;

(2) to a corporation unless 75 percent of its capital stock is owned by, and all its directors are, citizens of the United States; or

(3) to an individual or a corporation that does not have a manufacturing plant within the United States.

However, the Secretary of the military department concerned may contract with any domestic corporation whose stock is listed on a stock exchange, unless he knows that a majority of its stock is owned or controlled by aliens. (Aug. 10, 1956, ch. 1041, 70A Stat. 124.)

The words "under this chapter" are substituted for the words "for supplies and services for the Government". The words "declared" and "total" are omitted as surplusage.

§ 2302. Definitions.

In this chapter—

(1) "Head of an agency" means the Secretary, the Under Secretary, or any Assistant Secretary, of the Army, Navy, or Air Force; the Secretary of the Treasury; or the Administrator of the National Aeronautics and Space Administration.

(2) "Negotiate" means make without formal advertising.

(3) "Formal advertising" means advertising as prescribed by section 2305 of this title.

(Aug. 10, 1956, ch. 1041, 70A Stat. 127; July 29, 1958, Pub. L. 85-568, title III, § 301 (b), 72 Stat. 432; Sept. 2, 1958, Pub. L. 85-861, § 1 (43A), 72 Stat. 1457.)

In clause (1), the words "(if any)" are omitted as surplusage. The words "Secretary of the Treasury" are substituted for the words "Commandant, United States Coast Guard, Treasury Department", since the functions of the Coast Guard and its officers, while operating under the Department of the Treasury, were vested in the Secretary of the Treasury by 1950 Reorganization Plan No. 26, effective July 31, 1950, 64 Stat. 1280. Under that plan the Secretary of the Treasury was authorized to delegate any of those functions to the agencies and employees of the Department of the Treasury.

Clauses (2) and (3) are inserted for clarity, and are based on the usage of those terms throughout the revised chapter.

AMENDMENTS

1958—Pub. L. 85-861 substituted "section 2305 of this title" for "section 2305 (a) and (b) of this title", in cl (3).

Pub. L. 85-568 substituted "Administrator of the National Aeronautics and Space Administration" for "Executive Secretary of the National Advisory Committee for Aeronautics", in cl. (1).

EFFECTIVE DATE OF 1958 AMENDMENT

Section 301 (e) of Pub. L. 85-568 provided that: "This section [amending this section and section 2303 (a) (5) of this title, former section 22-1 of Title 5, and sections 511-513 and 515 of Title 50, War and National Defense, and enacting note set out under section 2472 of Title 42, The Public Health and Welfare] shall take effect ninety days after the date of the enactment of this Act [July 29, 1958], or on any earlier date on which the Administrator [of the National Aeronautics and Space Administration] shall determine, and announce by proclamation published in the Federal Register, that the Administration has been organized and is prepared to discharge the duties and exercise the powers conferred upon it by this Act."

TRANSFER OF FUNCTIONS

The Coast Guard was transferred to the Department of Transportation and all functions, powers, and duties,

relating to the Coast Guard, of the Secretary of the Treasury and of other offices and officers of the Department of the Treasury were transferred to the Secretary of Transportation by Pub. L. 89-670, Oct. 15, 1966, 80 Stat. 931, which created the Department of Transportation. See section 1655(b) of Title 49, Transportation.

§ 2303. Applicability of chapter.

(a) This chapter applies to the purchase, and contract to purchase, by any of the following agencies, for its use or otherwise, of all property named in subsection (b), and all services, for which payment is to be made from appropriated funds:

(1) The Department of the Army.

(2) The Department of the Navy.

(3) The Department of the Air Force.

(4) The Coast Guard.

(5) The National Aeronautics and Space Administration.

(b) This chapter does not cover land. It covers all other property including—

(1) public works;

(2) buildings;

(3) facilities;

(4) vessels;

(5) floating equipment;

(6) aircraft;

(7) parts;

(8) accessories;

(9) equipment; and

(10) machine tools.

(c) The provisions of this chapter that apply to the procurement of property apply also to contracts for its installation or alteration. (Aug. 10, 1956, ch. 1041, 70A Stat. 128; July 29, 1958, Pub. L. 85-568, title III, § 301 (b), 72 Stat. 432.)

HISTORICAL AND REVISION NOTES

2303 (a)	41: 151 (a).	Feb. 19, 1948, ch. 65, §§ 2 (a), 9 (clause (b)), 62 Stat. 21, 24.
2303 (b)	41: 158 (clause (b), less last 5 words).	
2303 (c)	41: 158 (last 5 words of clause (b)).	

In subsection (a), the words "all property named in subsection (b), and all services" are substituted for the words "for supplies or services". The words "(each being hereinafter called the agency)", are omitted, since the revised sections of this chapter make specific reference to the agencies named in this revised section. The words "United States" before the words "Coast Guard" are omitted, since they are not a part of the official name of the Coast Guard under section 1 of title 14.

In subsection (b), the introductory clause is substituted for the word "supplies". Throughout the revised chapter reference is made to "property or services covered by this chapter", instead of "supplies", since the word "supplies" is defined in section 101 (26) of this title in its usual and narrower sense, rather than the sense of the source statute for this revised chapter. It is desirable to avoid a usage which conflicts with the definition in section 101 (26) of this title. The word "ships" and the words "of every character, type, and description", after the word "vessels", are omitted as covered by the definition of "vessel" in section 1 of title 1.

AMENDMENTS

1958—Subsec. (a)(5). Pub. L. 85-568 substituted "The National Aeronautics and Space Administration" for "The National Advisory Committee for Aeronautics".

EFFECTIVE DATE OF 1958 AMENDMENT

Amendment of section by Pub. L. 85-568 effective 90 days after July 29, 1958, or on any earlier date on which the Administrator of the National Aeronautics and Space Administration determines, and announces by proclamation, that the Administration has been organized and is prepared to discharge the duties and exercise the powers conferred upon it, see note set out under section 2302 of this title.

ACQUISITION, LEASE, OR RENTAL FOR USE BY THE ARMED FORCES OF MOTOR BUSES MANUFACTURED OUTSIDE THE UNITED STATES

Pub. L. 90-500, title IV, § 404, Sept. 20, 1968, 82 Stat. 851, provided that: "No funds authorized for appropriation for the use of the Armed Forces of the United States under the provisions of this Act or the provisions of any other law shall be available for the purchase, lease, rental, or other acquisition of multipassenger motor vehicles (buses) other than multipassenger motor vehicles (buses) manufactured in the United States, except as may be authorized by regulations promulgated by the Secretary of Defense solely to insure that compliance with this prohibition will not result in either an uneconomical procurement action or one which would adversely affect the national interest of the United States."

SECTION REFERRED TO IN OTHER SECTIONS

§ 2304. Purchases and contracts: formal advertising; exceptions.[1]

(a) Purchases of and contracts for property or services covered by this chapter shall be made by formal advertising in all cases in which the use of such method is feasible and practicable under the existing conditions and circumstances. If use of such method is not feasible and practicable, the head of an agency, subject to the requirements for determinations and findings in section 2310, may negotiate such a purchase or contract, if—

(1) it is determined that such action is necessary in the public interest during a national emergency declared by Congress or the President;

(2) the public exigency will not permit the delay incident to advertising;

(3) the aggregate amount involved is not more than $2,500;

(4) the purchase or contract is for personal or professional services;

(5) the purchase or contract is for any service by a university, college, or other educational institution;

(6) the purchase or contract is for property or services to be procured and used outside the United States and the Territories, Commonwealths, and possessions;

(7) the purchase or contract is for medicine or medical supplies;

(8) the purchase or contract is for property for authorized resale;

(9) the purchase or contract is for perishable or nonperishable subsistence supplies;

[1] Section catchline does not conform to catchline in scheme.

(10) the purchase or contract is for property or services for which it is impracticable to obtain competition;

(11) the purchase or contract is for property or services that he determines to be for experimental, developmental, or research work, or for making or furnishing property for experiment, test, development, or research;

(12) the purchase or contract is for property or services whose procurement he determines should not be publicly disclosed because of their character, ingredients, or components;

(13) the purchase or contract is for equipment that he determines to be technical equipment whose standardization and the interchangeability of whose parts are necessary in the public interest and whose procurement by negotiation is necessary to assure that standardization and interchangeability;

(14) The purchase or contract is for technical or special property that he determines to require a substantial initial investment or an extended period of preparation for manufacture, and for which he determines that formal advertising would be likely to result in additional cost to the Government by reason of duplication of investment or would result in duplication of necessary preparation which would unduly delay the procurement of the property;

(15) the purchase or contract is for property or services for which he determines that the bid prices received after formal advertising are unreasonable as to all or part of the requirements, or were not independently reached in open competition, and for which (A) he has notified each responsible bidder of intention to negotiate and given him reasonable opportunity to negotiate; (B) the negotiated price is lower than the lowest rejected bid of any responsible bidder, as determined by the head of the agency; and (C) the negotiated price is the lowest negotiated price offered by any responsible supplier;

(16) he determines that (A) it is in the interest of national defense to have a plant, mine, or other facility, or a producer, manufacturer, or other supplier, available for furnishing property or services in case of a national emergency; or (B) the interest of industrial mobilization in case of such an emergency, or the interest of national defense in maintaining active engineering, research, and development, would otherwise be subserved; or

(17) negotiation of the purchase or contract is otherwise authorized by law.

(b) The data respecting the negotiation of each purchase or contract under clauses (1) and (7)—(17) of subsection (a) shall be kept by the contracting agency or six years after the date of final payment on the contract.

(c) This section does not authorize—

(1) the negotiation of a contract to construct or repair any building, road, sidewalk, sewer main, or similar item, unless—

(A) it is made under clauses (1)—(3), (10)—(12), or (15) of subsection (a); or

(B) it is to be performed outside the United States; or

(2) the erection, repair, or furnishing of any public building or public improvement.

(d) Whenever the head of the agency determines it to be practicable, such advance publicity as he considers suitable with regard to the property involved and other relevant considerations shall be given for a period of at least 15 days before making a purchase of or contract for property, or a service, under clause (7) or (8) of subsection (a) involving more than $10,000.

(e) A report shall be made to Congress, on May 19 and November 19 of each year, of the purchases and contracts made under clauses (11) and (16) of subsection (a) during the period since the date of the last report. The report shall—

(1) name each contractor;

(2) state the amount of each contract; and

(3) describe, with consideration of the national security, the property and services covered by each contract.

(f) For the purposes of the following laws, purchases or contracts negotiated under this section shall be treated as if they were made with formal advertising:

(1) Sections 35—45 of title 41.

(2) Sections 276a—276a-5 of title 40.

(3) Sections 324 and 325a of title 40.

(g) In all negotiated procurements in excess of $2,500 in which rates or prices are not fixed by law or regulation and in which time of delivery will permit, proposals, including price, shall be solicited from the maximum number of qualified sources consistent with the nature and requirements of the supplies or services to be procured, and written or oral discussions shall be conducted with all responsible offerors who submit proposals within a competitive range, price, and other factors considered: *Provided, however,* That the requirements of this subsection with respect to written or oral discussions need not be applied to procurements in implementation of authorized set-aside programs or to procurements where it can be clearly demonstrated from the existence of adequate competition or accurate prior cost experience with the product, that acceptance of an initial proposal without discussion would result in fair and reasonable prices and where the request for proposals notifies all offerors of the possibility that award may be made without discussion.

(h) Except in a case where the Secretary of Defense determines that military requirements necessitate specification of container sizes, no contract for the carriage of Government property in other than Government-owned cargo containers shall require carriage of such property in cargo containers of any stated length, height, or width. (Aug. 10, 1956, ch. 1041, 70A Stat. 128; Aug. 28, 1958, Pub. L. 85-800, § 8, 72 Stat. 967; Sept. 2, 1958, Pub. L. 85-861, § 33(a)(12), 72 Stat. 1565; Sept. 10, 1962, Pub. § 2305. Formal advertisements for bids; time; opening; award; rejection.

(a) Whenever formal advertising is required under section 2304 of this title, the advertisement shall be made a sufficient time before the purchase or contract. The specifications and invitations for bids shall permit such free and full competition as is consistent with the procurement of the property and services needed by the agency concerned. Except in a case where the Secretary of Defense determines that military requirements necessitate specification of container sizes, no advertisement or invitation to bid for the carriage of Government property in other than Government-owned cargo containers shall specify carriage of such property in cargo containers of any stated length, height, or width.

(b) The specifications in invitations for bids must contain the necessary language and attachments,

and must be sufficiently descriptive in language and attachments, to permit full and free competition. If the specifications in an invitation for bids do not carry the necessary descriptive language and attachments, or if those attachments are not accessible to all competent and reliable bidders, the invitation is invalid and no award may be made.

(c) Bids shall be opened publicly at the time and place stated in the advertisement. Awards shall be made with reasonable promptness by giving written notice to the responsible bidder whose bid conforms to the invitation and will be the most advantageous to the United States, price and other factors considered. However, all bids may be rejected if the head of the agency determines that rejection is in the public interest.

(d) If the head of the agency considers that any bid received after formal advertising evidences a violation of the antitrust laws, he shall refer the bid to the Attorney General for appropriate action. SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 2302, 2356 of this title.

§ 2306. Kinds of contracts.

(a) The cost-plus-a-percentage-of-cost system of contracting may not be used. Subject to this limitation and subject to subsections (b)—(f), the head of an agency may, in negotiating contracts under section 2304 of this title, make any kind of contract that he considers will promote the best interests of the United States.

(b) Each contract negotiated under section 2304 of this title shall contain a warranty, determined to be suitable by the head of the agency, that the contractor has employed or retained no person or selling agency to solicit or obtain the contract under an understanding or agreement for a commission, percentage, brokerage, or contingent fee, except a bona fide employee or established commercial or selling agency maintained by him to obtain business. If a contractor breaks such a warranty the United States may annul the contract without liability or may deduct the commission, percentage, brokerage, or contingent fee from the contract price or consideration.

(c) No cost contract, cost-plus-a-fixed-fee contract, or incentive contract may be made under section 2304 of this title, unless the head of the agency determines that such a contract is likely to be less costly to the United States than any other kind of contract or that it is impracticable to obtain property or services of the kind or quality required except under such a contract.

(d) The fee for performing a cost-plus-a-fixed-fee contract for experimental, developmental, or research work may not be more than 15 percent of the estimated cost of the contract, not including the fee. The fee for performing a cost-plus-a-fixed-fee contract for architectural or engineering services for a public work or utility plus the cost of those services to the contractor may not be more than 6 percent of the estimated cost of that work or project, not including fees. The fee for performing any other cost-plus-a-fixed-fee contract may not be more than 10 percent of the estimated cost of the contract, not including the fee. Determinations under this subsection of the estimated costs of a contract or project shall be made by the head of the agency at the time the contract is made.

(e) Each cost contract and each cost-plus-a-fixed-fee contract shall provide for notice to the agency by the contractor before the making, under the prime contract, of—

(1) a cost-plus-a-fixed-fee subcontract; or

(2) a fixed-price subcontract or purchase order involving more than $25,000 or 5 percent of the estimated cost of the prime contract.

(f) A prime contractor or any subcontractor shall be required to submit cost or pricing data under the circumstances listed below, and shall be required to certify that, to the best of his knowledge and belief, the cost or pricing data he submitted was accurate, complete and current—

(1) Prior to the award of any negotiated prime contract under this title where the price is expected to exceed $100,000;

(2) Prior to the pricing of any contract change or modification for which the price adjustment is expected to exceed $100,000, or such lesser amount as may be prescribed by the head of the agency;

(3) Prior to the award of a subcontract at any tier, where the prime contractor and each higher tier subcontractor have been required to furnish such a certificate, if the price of such subcontract is expected to exceed $100,000; or

(4) Prior to the pricing of any contract change or modification to a subcontract covered by (3) above, for which the price adjustment is expected to exceed $100,000, or such lesser amount as may be prescribed by the head of the agency.

Any prime contract or change or modification thereto under which such certificate is required shall contain a provision that the price to the Govern-

ment, including profit or fee, shall be adjusted to exclude any significant sums by which it may be determined by the head of the agency that such price was increased because the contractor or any subcontractor required to furnish such a certificate, furnished cost or pricing data which, as of a date agreed upon between the parties (which date shall be as close to the date of agreement on the negotiated price as is practicable), was inaccurate, incomplete, or noncurrent: *Provided,* That the requirements of this subsection need not be applied to contracts or subcontracts where the price negotiated is based on adequate price competition, established catalog or market prices of commercial items sold in substantial quantities to the general public, prices set by law or regulation or, in exceptional cases where the head of the agency determines that the requirements of this subsection may be waived and states in writing his reasons for such determination.

For the purpose of evaluating the accuracy, completeness, and currency of cost or pricing data required to be submitted by this subsection, any authorized representative of the head of the agency who is an employee of the United States Government shall have the right, until the expiration of three years after final payment under the contract or subcontract, to examine all books, records, documents, and other data of the contractor or subcontractor related to the negotiation, pricing, or performance of the contract or subcontract.

(g) (1) The head of an agency may enter into contracts for periods of not more than five years for the following types of services (and items of supply related to such services) to be performed outside the forty-eight contiguous States and the District of Columbia for which funds would otherwise be available for obligation only within the fiscal year for which appropriated—

(A) operation, maintenance, and support of facilities and installations;

(B) maintenance or modification of aircraft, ships, vehicles, and other highly complex military equipment;

(C) specialized training necessitating high quality instructor skills (for example, pilot and aircrew members; foreign language training); and

(D) base services (for example, ground maintenance; in-plane refueling; bus transportation; refuse collection and disposal);

whenever he finds that:

(i) there will be a continuing requirement for the services consonant with current plans for the proposed contract period;

(ii) the furnishing of such services will require a substantial initial investment in plant or equipment, or the incurrence of substantial contingent liabilities for the assembly, training, or transportation of a specialized work force; and

(iii) the use of such a contract will promote the best interests of the United States by encouraging effective competition and promoting economies in operation.

(2) In entering into such contracts, the head of the agency shall be guided by the following principles:

(A) the portion of the cost of any plant or equipment amortized as a cost of contract performance should not exceed the ratio between the period of contract performance and the anticipated useful commercial life of such plant or equipment. Useful commercial life, for this purpose, means the commercial utility of the facilities rather than the physical life thereof, with due consideration given to such factors as location of facilities, specialized nature thereof, and obsolescence.

(B) consideration shall be given to the desirability of obtaining an option to renew the contract for a reasonable period not to exceed three years, at prices not to include charges for plant, equipment and other nonrecurring costs, already amortized.

(C) consideration shall be given to the desirability of reserving in the agency the right, upon payment of the unamortized portion of the cost of the plant or equipment, to take title thereto under appropriate circumstances.

(3) In the event funds are not made available for the continuation of such a contract into a subsequent fiscal year, the contract shall be canceled or terminated, and the costs of cancellation or termination may be paid from:

(A) appropriations originally available for the performance of the contract concerned;

(B) appropriations currently available for procurement of the type of services concerned, and not otherwise obligated; or

(C) funds appropriated for those payments.

§ 2511. Reserve components: supplies, services, and facilities.

(b) Whenever he finds it to be in the best interest of the United States, the Secretary concerned or his representative may issue supplies of the armed forces under his jurisdiction to the reserve components under his jurisdiction, without charge to the appropriations for those components for the cost or value of the supplies or for any related expense.

2511 (a)	50: 1006 (a).	July 9, 1952, ch. 608, § 255 (less (d)), 66 Stat. 496.
2511 (b)	50: 1006 (b) (1st sentence, less last proviso).	
2511 (c)	50: 1006 (b) (less 1st sentence); 50: 1006 (c).	
2511 (d)	50: 1006 (b) (last proviso of 1st sentence).	

In subsection (a), the words "under his jurisdiction" are substituted for the word "each". The words "under his jurisdiction" are inserted after the words "armed forces" for clarity. The words "and advisable" are omitted as surplusage.

In subsections (a)—(d), the word "equipment" is omitted, since the word "supplies", as defined in section 101 (25) of this title, includes "equipment".

In subsection (b), the words "Whenever he" are substituted for the words "*Provided*, That the appropriate Secretary". The words "under his jurisdiction" are substituted for the word "appropriate". The words "authorized", "to issue such equipment and supplies", and "or in any way affecting" are omitted as surplusage.

Subsection (c) is substituted for the words "This subsection * * * applies to supplies and equipment issued in addition thereto" to state expressly the supplies referred to. The words "shall not apply * * * as amended, but" are omitted as surplusage, since the fact that the Army National Guard and Air National Guard are not reserve components clearly excludes, from the rule stated in subsection (b), the supplies described. 50: 1006 (c) is omitted as covered by the language of the revised subsection. The words "supplies issued to that National Guard under section 702 of title 32 or charged against its appropriations under section 106 or 107 of title 32" are substituted for the words "supplies and equipment issued * * * under sections 21, 22, 35 and 49 of Title 32", since under the latter sections supplies are not issued but are charged to appropriations. The reference to section 49 of Title 32 is omitted, since that section is based on a part of section 67 of the National Defense Act that is not germane to this section.

In subsection (d), the words "pursuant to this section" are omitted as surplusage.

§ 2575. Disposition of unclaimed property.

(a) The Secretary of any military department, and the Secretary of the Treasury, under such regulations as they may respectively prescribe, may each by public or private sale or otherwise, dispose of all lost, abandoned, or unclaimed personal property that comes into the custody or control of his department, other than property subject to section 4712, 4713, 6522, 9712, or 9713 of this title or subject to subsection (c) of this section. However, property may not be disposed of until diligent effort has been made to find the owner, his heirs or next of kin, or his legal representative. If the owner, his heirs or next of kin, or his legal representative is determined but not found, the property may not be disposed of until the expiration of 120 days after the date when notice, giving the time and place of the intended sale or other disposition, has been sent by certified or registered mail to that person at his last known address. When diligent effort to determine the owner, his heirs or next of kin, or his legal representatives is unsuccessful, the property may be disposed of without delay, except that if it has a fair market value of $25 or more the property may not be disposed of until three months after the date it is received at a storage point designated by the Secretary.

(b) The net proceeds from the sale of property under this section shall be covered into the Treasury as miscellaneous receipts. The owner, his heirs or next of kin, or his legal representative may file a claim for those proceeds with the General Accounting Office within five years after the date of the disposal of the property. If not filed within that period, such a claim may not be considered by a court or the General Accounting Office.

The words "However, property may not be disposed of until" are inserted for clarity. The word "find" is substituted for the words "determine and locate". The words "until the expiration" are substituted for the words "prior to the expiration of a period". The words "determined but not found" are substituted for the words "have or has been determined". The words "or owners", "or representatives", and "sold or otherwise" are omitted as surplusage.

In subsection (b), the words "may file * * * within five years" are substituted for the words "may be filed * * * at any time prior to the expiration of five years", in 5: 150g, since the claim must be disallowed if not filed within that period. The words "If not filed within that period" are substituted for the words "If claims are not filed prior to the expiration of five years from the date of the disposal of the property", in 5: 150g. The words "such a claim may not be considered" are substituted for the words "they shall be barred from being acted on", in 5: 150g.

In subsection (c), the words "No property * * * may * * * except" are substituted for the words "Any property * * * shall be limited". The last sentence is substituted for 5: 150i (proviso).

EFFECTIVE DATE OF REPEAL

Section 5 of Pub. L. 88–558 provided for the repeal of this section effective two years from Aug. 31, 1964.

§ 2733. Property loss; personal injury or death: incident to noncombat activities of Department of Army, Navy, or Air Force.

(a) Under such regulations as the Secretary concerned may prescribe, he, or, subject to appeal to him, the Judge Advocate General of an armed force under his jurisdiction, or the chief legal officer of the Coast Guard, as appropriate, if designated by him, may settle, and pay in an amount not more than $15,000, a claim against the United States for—

(1) damage to or loss of real property, including damage or loss incident to use and occupancy;

(2) damage to or loss of personal property, including property bailed to the United States and including registered or insured mail damaged, lost, or destroyed by a criminal act while in the possession of the Army, Navy, Air Force, Marine Corps, or Coast Guard, as the case may be; or

(3) personal injury or death;

either caused by a civilian officer or employee of that department, or the Coast Guard, or a member of the Army, Navy, Air Force, Marine Corps, or Coast Guard, as the case may be, acting within the scope of his employment, or otherwise incident to noncombat activities of that department, or the Coast Guard.

(b) A claim may be allowed under subsection (a) only if—

(1) it is presented in writing within two years after it accrues, except that if the claim accrues in time of war or armed conflict or if such a war or armed conflict intervenes within two years after it accrues, and if good cause is shown, the claim may be presented not later than two years after the war or armed conflict is terminated;

(2) it is not covered by section 2734 of this title or section 2672 of title 28;

(3) it is not for personal injury or death of such a member or civilian officer or employee whose injury or death is incident to his service;

(4) the damage to, or loss of, property, or the personal injury or death, was not caused wholly or partly by a negligent or wrongful act of the claimant, his agent, or his employee; or, if so caused, allowed only to the extent that the law of the place where the act or omission complained of occurred would permit recovery from a private individual under like circumstances; and

(5) it is substantiated as prescribed in regulations of the Secretary concerned.

For the purposes of clause (1), the dates of the beginning and ending of an armed conflict are the dates established by concurrent resolution of Congress or by a determination of the President.

(c) Payment may not be made under this section for reimbursement for medical, hospital, or burial services furnished at the expense of the United States.

(d) If the Secretary concerned considers that a claim in excess of $15,000 is meritorious and would otherwise be covered by this section, he may pay the claimant $15,000 and report the excess to Congress for its consideration.

(e) Except as provided in subsection (d), no claim may be paid under this section unless the amount tendered is accepted by the claimant in full satisfaction.

(f) For the purposes of this section, a member of the Environmental Science Services Administration or of the Public Health Service who is serving with the Navy or Marine Corps shall be treated as if he were a member of that armed force.

(g) In any case where the amount to be paid is not more than $2,500, the authority contained in subsection (a) may be delegated to any officer of an armed force under the jurisdiction of the department concerned, subject to appeal to the Secretary concerned, or his designee for that purpose.

(h) Under such regulations as the Secretary of Defense may prescribe, he or his designee has the same authority as the Secretary of a military department under this section with respect to the settlement of claims based on damage, loss, personal injury, or death caused by a civilian officer or employee of the Department of Defense acting within the scope of his employment or otherwise incident to noncombat activities of that department. 2733 (e)	31: 223b (52d through 62d words of 1st sentence).	
2733 (f)	31: 222h [31: 223b is made applicable to the Navy by 31: 223d and 223e].	

In subsection (a), the words "a civilian officer or employee of that department, or a member of the Army, Navy, Air Force, or Marine Corps, as the case may be" are substituted for the words "military personnel or civilian employees of the Department of the Army or of the Army". The words "whether under a lease, express or implied" are omitted as surplusage. The words "consider, ascertain, adjust, determine" are omitted as covered by the word "settle", as defined in section 2731 of this title. The words "arising on or after May 27, 1941" are omitted as executed, since, under revised subsection (b), a claim must be filed within one year after it accrues, or within one year after the war is terminated, if it accrues in time of war.

In subsection (a) (1), the words "or loss" are inserted before the word "incident", for clarity.

In subsection (b) (1), the words "it accrues" are substituted for the words "the accident or incident out of which such claim arises shall have occurred", in 31: 223b. The words "the claim accrues" are substituted for the words "That if such accident or incident occurs". The words "not later than" are substituted for the word "within" to make it clear that a claim may be presented

during a war. The words "the war is terminated" are substituted for the words "after peace is established", since the other time covered is "time of war". 31: 223b (last 49 words of proviso of 2d sentence) is omitted as executed.

In subsection (b) (2), the words "or section 2672 of title 28" are substituted for the words "claims cognizable under part 2 of this title", to reflect the express amendment of 31: 223b and 223c by the fourth clause of section 424 (a) of the Federal Tort Claims Act, 60 Stat. 847. Section 424 (a) of the Federal Tort Claims Act referred to "claims cognizable under part 2 of this title". Part 2 of that act consisted of sections 403 and 404 which were repealed by section 39 of the Act of June 25, 1948, ch. 646, 62 Stat. 1008, and replaced by sections 2672 and 2673 of title 28. The words "or possessions thereof" are omitted, since possessions of foreign countries are not specifically covered by the section to which the words refer.

In subsection (d), the words "claim * * * that would otherwise be covered by this section" are substituted for the words "such claims".

In subsection (e), the words "and final settlement" are omitted as surplusage.

(1) damage to, or loss of, real property of any foreign country or of any political subdivision or inhabitant of a foreign country, including damage or loss incident to use and occupancy;

(2) damage to, or loss of, personal property of any foreign country or of any political subdivision or inhabitant of a foreign country, including property bailed to the United States; or

(3) personal injury to, or death of, any inhabitant of a foreign country;

if the damage, loss, personal injury, or death occurs outside the United States, or the Territories, Commonwealths, or possessions, and is caused by, or is otherwise incident to noncombat activities of, the armed forces under his jurisdiction, or is caused by a member thereof or by a civilian employee of the military department concerned or the Coast Guard, as the case may be. The claim of an insured, but not that of a subrogee, may be considered under this subsection. In this section, "foreign country" includes any place under the jurisdiction of the

United States in a foreign country. An officer may serve on a claims commission under the jurisdiction of another armed force only with the consent of the Secretary of his department, or his designee, but shall perform his duties under regulations of the department appointing the commission.

(b) A claim may be allowed under subsection (a) only if—

(1) it is presented within two years after it accrues:

(2) in the case of a national of a country at war with the United States, or of any ally of that country, the claimant is determined by the commission or by the local military commander to be friendly to the United States; and

(3) it did not arise from action by an enemy or result directly or indirectly from an act of the armed forces of the United States in combat, except that a claim may be allowed if it arises from an accident or malfunction incident to the operation of an aircraft of the armed forces of the United States, including its airborne ordnance, indirectly related to combat, and occurring while preparing for, going to, or returning from a combat mission.

(c) Allowance of a claim for more than $2,500 under subsection (a) may, by regulation, be made subject to the approval of any commissioned officer designated by the Secretary concerned.

(d) If the Secretary concerned considers that a claim in excess of $15,000 is meritorious and would otherwise be covered by this section, he may pay the claimant $15,000 and certify the excess to Congress as a legal claim for payment from appropriations made by Congress therefor, together with a brief statement of the claim, the amount claimed, the amounts allowed, and the amount paid.

(e) Except as provided in subsection (d), no claim may be paid under this section unless the amount tendered is accepted by the claimant in full satisfaction.

(f) Upon the request of the department concerned, a claim arising in that department and covered by subsection (a) may be settled and paid by a commission appointed under subsection (a) and composed of officers of an armed force under the jurisdiction of another department.

(g) Payment of claims against the Coast Guard arising while it is operating as a service in the Department of the Treasury shall be made out of the appropriation for the operating expenses of the Coast Guard.

(h) The Secretary of Defense may designate any claims commission appointed under subsection (a) to settle and pay, as provided in this section, claims for damage caused by a civilian employee of the Department of Defense other than an employee of a military department. Payments of claims under this subsection shall be made from appropriations available to the Office of the Secretary of Defense for the payment of claims. § 3036. Chiefs of branches: appointment; duties.

(a) There are in the Army the following officers:

(1) Chief of Engineers.

(2) Surgeon General.

(3) Judge Advocate General.

(4) Chief of Chaplains.

(b) Each officer named in subsection (a), except the Judge Advocate General, shall be appointed by the President, by and with the advice and consent of the Senate, from officers above the grade of major who—

(1) have shown by extensive duty in the branch concerned, or by similar duty, that they are qualified for the appointment; and

(2) have been recommended by a board under subsection (e).

If the officer holds a lower regular grade, he shall be appointed in the regular grade of major general. Each officer covered by the preceding sentence, except the Surgeon General, shall be appointed in the regular grade of major general. The Surgeon General, while so serving, has the grade of lieutenant general. The Judge Advocate General shall be appointed as prescribed in section 3037 of this title.

(c) An officer appointed under subsection (b) normally holds office for four years. However, the President may terminate or extend the appointment at any time.

(d) Each officer named in subsection (a) shall perform the duties prescribed by the Secretary and by law.

(e) For each office to be filled under subsection (b), the Secretary shall select a board of five general officers, including the incumbent, if any, of the office, and at least two officers, if available, in a

grade above major general who have had extensive service in the branch concerned. The Secretary shall give the board a list of the officers to be considered and shall specify the number of officers, not less than three, to be recommended. The list shall include—

(1) the name of each officer of the Regular Army who is appointed in, or assigned to, that branch, and whose regular grade is colonel;

(2) the name of each officer whose regular grade is above colonel, who has shown by extensive duty in that branch, or by similar duty, that he is qualified for the appointment;

(3) to the extent that the Secretary determines advisable, the name of each officer of the Regular Army who is appointed in, or assigned to, that branch, and whose regular grade is lieutenant colonel, in the order in which their names appear on the applicable promotion lists; and

(4) to the extent that the Secretary considers advisable, the name of each regular or reserve officer on active duty in a grade above lieutenant colonel who has shown by extensive duty in that branch, or by similar duty, that he is qualified for the appointment.

From these officers, the board shall recommend by name the number prescribed by the Secretary, and the President may appoint any officer so recommended. If the President declines to appoint any of the recommended officers, or if the officer nominated cannot be appointed because of advice by the Senate, the Secretary shall convene a board to recommend additional officers. An officer who is recommended but not appointed shall be considered not to have been recommended. This does not affect his eligibility for selection and recommendation for the grade of brigadier general or major general under section 3306 or 3307 of this title. (Aug. 10, 1956, ch. 1041, 70A Stat. 163; Oct. 22, 1965, Pub. L. 89–288, § 1, 79 Stat. 1050; Nov. 2, 1966, Pub. L. 89–718, § 24, 80 Stat. 1119.)

3036 (e)	10: 559g (b).	

In subsection (b), all references to the appointment of assistant chiefs are omitted as covered by sections 3037 and 3040 of this title. All references to the grade of brigadier general are omitted, since 10: 21f (b) specifies the grade of major general for the offices. 10: 559g (a) (4th sentence) is omitted as surplusage, since the appointment is to a permanent grade. 10: 559g (a) (6th and 7th sentences) is omitted as executed. 10: 559g (a) (last sentence) is omitted, since the revised section applies only to the officers named in subsection (a). The words "except the Judge Advocate General" are inserted for clarity. The eight words before clause (1), and clauses (1) and (2), are substituted for the words "as prescribed in section 559g of this title", in 10: 21f (b), and 10: 559g (a) (1st sentence). The second sentence is substituted for 10: 559g (a) (2d sentence) and 10: 21f (b) (1st 15 words). The words "selected and", in 10: 21f (b), are omitted as surplusage. The words "arms, or services", in 10: 559g (a) are omitted as obsolete, since sections 3063 and 3064 of this title designate the former arms and services as "branches".

In subsection (c), the words "normally holds office" are substituted for the words "shall normally continue in that assignment for a tour of duty". The words "appointment" and "office" are substituted for the words "assignment" and "tour of duty" whenever they are used in that sense.

In subsection (e), the introductory clause is substituted for 10: 559g (b) (words before colon of 1st sentence). The words "in a grade above major general" are substituted for the words "of a rank above that of the position for which selections are to be made", since all the positions are in the grade of major general. The word "select" is substituted for the word "appoint", since the filling of the offices is not appointment to an office in the constitutional sense. The word "extensive" is substituted for the word "extended", except where it refers to "extended" active duty, in which case the word "extended" is omitted as surplusage. The words "the name of" are inserted for clarity. The words "appointed in, or assigned to" are substituted for the words "of the", and "in the", before the words "that branch" to conform to sections 3063 and 3064 of this title. The word "regular" is substituted for the word "permanent". The words "each regular or reserve officer" are substituted for the words "of officers of any component of the Army of the United States". The words "these officers" are substituted for the words "among those recommended by such board". The words "This does not affect" are substituted for the words "but this shall in no way prejudice". The words "to be filled", "by it", "other", "which number shall", "to be considered", "and may in addition thereto and", and "in the position concerned" are omitted as surplusage.

3071 (a)	10: 316; 10: 316–1.	June 12, 1948, ch. 449, §§ 101, 103 (a), 62 Stat. 356, 357. June 28, 1950, ch. 383, § 310, 64 Stat. 270.
3071 (b)	10: 316b (a) (words before 2d semicolon).	
3071 (c)	10: 316b (a) (less words before 2d semicolon, and less provisos).	
3071 (d)	10: 316b (a) (provisos).	

In subsection (a), 10: 316 (1st 4 words) is omitted as executed. 10: 316 (last 15 words) is omitted as superseded by section 3012 (e) of this title, which authorizes the Secretary of the Army to prescribe the duties of members of the Army. The words "as now authorized by law", in 10: 316–1, are omitted, since the law to which it refers is included in the revised section. The words "in the Army", in 10: 316–1, are omitted as surplusage, since the revised section, which is partially based on 10: 316, states that the Women's Army Corps is in the Regular Army, which is a component of the Army.

In subsection (b), the word "regular" is substituted for the word "permanent". The words "is entitled to" are substituted for the words "shall have the" and "shall * * * have the". The words "if she has a lower regular" are substituted for the words "permanently commissioned in a lower". The words "one officer to be" are omitted as surplusage.

In subsection (c), the words "officers of that corps or from female members of the Army Reserve who are on active duty" are substituted for the words "officers of the Women's Army Corps (including Women's Army Corps officers of the Army of the United States or any component thereof serving on extended active duty)", since the only provisions of law relating to female officers (other than Regular Army officers) relate to the appointment of female members of the Army Reserve. The word "extended" is omitted as surplusage. The words "If she has a lower regular or reserve" are substituted for the words "if permanently commissioned in a lower". The words "vacating that" are substituted for the words "vacation of permanent".

In subsection (d), the words "That after July 1, 1952" and 10: 316b (a) (last proviso) are omitted as executed, since the Secretary of the Army did not exercise his authority under that proviso before the expiration date set forth therein. The word "regular" is substituted for the word "permanent". The words "above captain" are substituted for the words "lieutenant colonel or major".

AMENDMENTS

1967—Subsec. (a). Pub. L. 90–130 substituted provisions covering the composition of the Women's Army Corps to consist of the Director, Deputy Director, officers in grades prescribed by the Secretary of the Army, and enlisted members for provisions merely declaratory of the existence of a Women's Army Corps in the Regular Army.

Subsec. (b). Pub. L. 90–130 transferred to subsec. (c) provisions covering the appointment of the Deputy Director, struck out provisions entitling the Director and Deputy Director to the grades of colonel and lieutenant

colonel respectively while so serving, and added provisions limiting the Secretary to the officers of the Regular Army in the Corps whose regular grade is above major in making his selection of Director.

Subsec. (c). Pub. L. 90–130 redesignated as subsec. (c) the provisions formerly contained in subsec. (b) covering the appointment of the Deputy Director and added requirements that the Deputy Director be appointed from the officers of the Regular Army whose regular grade is above major. Former subsec. (c) was redesignated as subsec. (d).

Subsec. (d) of Pub. L. 90–130 redesignated subsec. (c) as subsec. (d), and, in subsec. (d) as so designated, curtailed the Secretary's power to fill positions for the training and administration of the Women's Army Corps from among the female members of the Army Reserve, requiring him to select only officers on active duty with grades above captain.

1962—Subsec. (b). Pub. L. 87–649, § 6(a)(2), eliminated provisions which authorized the pay and allowances of a colonel for the Director and that of a lieutenant colonel for the Deputy Director.

Subsec. (c). Pub L. 87–649, § 6(a)(3), eliminated provisions which authorized the pay and allowances of either a lieutenant colonel or major as the Secretary determined.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 3210 of this title.

§ 3203. Regular Army: members on active duty.

The authorized strength of the Regular Army in members on active duty, exclusive of officer candidates, is 837,000 less the number of members of the Army on active duty who are neither members of the Regular Army nor members of the Army in the categories listed in section 3201 (a) (1)—(5) of this title. (Aug. 10, 1956, ch. 1041, 70A Stat. 173; Sept. 2, 1958, Pub. L. 85-861, § 1 (64), 72 Stat. 1463.)

HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
3203	No source.	No source.

The revised section is inserted to make explicit in the law the authorized strength of the Regular Army, which has heretofore been implied from provisions relating to the strength of the Army in members on active duty. The implication is based on an opinion of the Judge Advocate General of the Army (JAGA 1951/1549, 14 Feb. 1951) that the authorized strength of the Regular Army is the same as the authorized strength of the Army in members on active duty, exclusive of the categories named in section 3201 (a) (1)—(4) of this title, less the number of non-Regulars on active duty. In stating those members excluded, reference is made only to officer candidates, since there are no Regulars in the other categories listed in section 3201 (a) of this title. An express statement in the law of the authorized strength of the Regular Army is desirable, since other sections, for example section 3206 of this title, expressly refer to that authorized strength.

AMENDMENTS

1958—Pub. L. 85-861 substituted "section 3201 (a) (1)—(5)" for "section 3201 (a) (1)—(4)".

§ 3204. Regular Army: commissioned officers on active list.

The authorized strength of the Regular Army in commissioned officers on the active list is the sum of—

(1) the numbers authorized by sections 3205, 3206, and 3207 of this title;

(2) the number of permanent professors of the United States Military Academy authorized by section 4331 of this title and the registrar thereof; and

(3) the numbers in designated categories specifically authorized by law as additional numbers.

(Aug. 10, 1956, ch. 1041, 70A Stat. 173; Aug. 6, 1958, Pub. L. 85-600, § 1 (2), 72 Stat. 522.)

HISTORICAL AND REVISION NOTES

The revised section is based on the laws establishing specific authorized strengths for the constituent parts of the general category of Regular Army commissioned officers. It is inserted to make it clear that the total authorized strength of the Regular Army in commissioned officers on the active list includes the additional numbers authorized for the Army Nurse Corps, the Women's Medical Specialist Corps, permanent professors of the United States Military Academy, and any numbers in designated categories specially authorized by law as additional numbers, excluded from the strength of 30,600 specified in section 3205 of this title.

AMENDMENTS

1958—Pub. L. 85-600 included the registrar of the Military Academy.

§ 3205. Regular Army: commissioned officers on active list, exclusive of certain categories.

(a) The authorized strength of the Regular Army in commissioned officers on the active list, exclusive of—

(1) members of the Army Nurse Corps;

(2) members of the Army Medical Specialist Corps;

(3) permanent professors and the registrar of the United States Military Academy; and

(4) members in designated categories specifically authorized by law as additional numbers;

is 49,500.

(b) Subject to subsection (a), the Secretary of Defense, with the approval of the President, shall estimate each year, for each of the five years following that year, the strength of the Regular Army in commissioned officers on the active list exclusive of officers in the categories listed in subsection (a) (1)—(4). (Aug. 10, 1956, ch. 1041, 70A Stat. 173; Aug. 6, 1958, Pub. L. 85-600, § 1 (3), 72 Stat. 522; Sept. 2, 1958, Pub. L. 85-861, § 1 (60), (65), 72 Stat. 1462, 1463.)

In subsection (a), the figure "2,009" results from the allocation of the original figure 2,558 heretofore made between the Army and the Air Force under section 208 (e) of the National Security Act of 1947 (5 U. S. C. 626c (e)). (See Joint Army and Air Force Adjustment Regulation No. 1-11-62, May 16, 1949.) This allocation has had the force of law since July 26, 1950, when the period for transfers, including the administrative authority to change the allocation, expired. 10: 166 (a) (1st 20 words of 1st sentence) is omitted as superseded by section 3067 of this title, which establishes the Army Nurse Corps in the Army Medical Service. 10: 166 (a) (1st sentence, less 1st 20 words) is omitted as superseded by section 3012 (e) of this title.

AMENDMENTS

1967—Pub. L. 90–130 substituted provisions empowering the Secretary to prescribe the authorized strength of the Army Nurse Corps for provisions setting 2500 as the authorized strength of the Corps and struck out provisions setting a limit of 5 on the number of colonels and 107 on the number of lieutenant colonels on the active list of the Regular Army in the authorized strength of the Army Nurse Corps.

1957—Subsec. (a). Pub. L. 85–155 substituted "2500" for "2,009, or 6/1,000 of the authorized strength prescribed by section 3203 of this title, whichever is greater".

Subsec. (b). Pub. L. 85–155 permitted not more than 5 officers in the regular grade of colonel, and not more than 107 in the regular grade of lieutenant colonel, and eliminated provisions which restricted officers in the grades of lieutenant colonel and major to not more than 7/1,000 and 16/1,000, respectively, of the authorized strength, and which empowered the Secretary of the Army to prescribe the authorized strength of the Army Nurse Corps in officers on the active list in the regular grade of captain.

In subsection (a), the figure "356" results from the allocation of the original figure 409 heretofore made between the Army and the Air Force under section 208 (e) of the National Security Act of 1947 (5 U. S. C. 626c (e)). This allocation has had the force of law since July 26, 1950, when the period for transfers, including the administrative authority to change the allocation, expired. Although section 3 of the act of May 16, 1950, ch. 186, 64 Stat. 161, restated the 409 figure, it is clear from the Congressional committee reports on the act of May 16, 1950, that the figure 409 was intended to be a total applicable to both the Army and the Air Force.

In subsection (b), the words "and the remainder of such authorized commissioned strength shall be in permanent commissioned grades of captain to second lieutenant, inclusive" are omitted as covered by section 3291 of this title, which authorizes original appointments only in the grades of first lieutenant and second lieutenant, and by section 3304 of this title, which authorizes promotions of Regular Army officers within the Corps only to grades below lieutenant colonel. The words "on the active list" are inserted to conform to section 3206 (b) of this title. The word "regular" is substituted for the word "permanent".

AMENDMENTS

1967—Pub. L. 90–130 substituted provisions empowering the Secretary to prescribe the authorized strength of the Army Medical Specialist Corps for provisions setting 350 as the authorized strength of the Corps and struck out provisions setting a limit of 1 on the number of colonels and 20 on the number of lieutenant colonels on the active list of the Regular Army in the authorized strength of the Army Medical Specialist Corps.

1957—Pub. L. 85–155 substituted "Army Medical Specialist Corps" for "Women's Medical Specialist Corps" in the catchline.

Subsec. (a). Pub. L. 85–155 substituted "Army Medical Specialist Corps" for "Women's Medical Specialist Corps" and "350" for "356, or 9/10,000 of the authorized strength prescribed by section 3203 of this title, whichever is greater".

Subsec. (b). Pub. L. 85–155 substituted "Army Medical Specialist Corps" for Women's Medical Specialist Corps", and "not more than 1 may be in the regular grade of colonel, and not more than 20 may be in the regular grade of lieutenant colonel" for "not more than 5 percent may be in the regular grade of major", and eliminated provisions which empowered the Secretary of the Army to prescribe the authorized strength of the Women's Medical Specialist Corps in officers on the active list in the regular grade of captain.

I, § 11 (26th through 36th words), 41 Stat. 768. June 26, 1936, ch. 839 (less 16th through 31st words, and less 2d and 3d provisos), 49 Stat. 1974. Aug. 7, 1947, ch. 512, § 502 (d), 61 Stat. 884; June 12, 1948, ch. 449, § 104 (d) (2), 62 Stat. 358. June 12, 1948, ch. 449, § 102 (as applicable to commissioned officers), 62 Stat. 357.

The revised section consolidates the strength provisions applicable generally to the branches of the Army with those applicable specifically to the Medical Service Corps, the Judge Advocate General's Corps, the Women's Army Corps, and the Corps of Engineers.

In subsection (a), the general rule with respect to the branches of the Army does not enumerate particular branches, since those enumerated in 10: 506 (d) exhaust the general category. The words within the last parentheses of 10: 506 (d) are omitted as surplusage. The last sentence makes explicit, with respect to the general rule for branches, the effect of the words "any limitations provided by laws enacted after January 1, 1947", in view of the special rules enacted for the Army Nurse Corps and the Women's Medical Specialist Corps on April 16, 1947. 10: 61–1 (last sentence) is omitted as covered by section 3296 of this title.

In subsection (a) (2), the figure 788 results from adding to the figure 785, authorized by section 11 of the National Defense Act, as amended by the Act of June 26, 1936, ch. 839, 49 Stat. 1974, the spaces authorized by that act for the Chief of Engineers and two assistants. Section 8 of the act of April 3, 1939, ch. 35, 53 Stat. 558, though it did not specifically repeal section 11 of the National Defense Act, impliedly amended those provisions which prescribed an officer strength for the Corps of Engineers, by authorizing a strength of 795 officers, subject to a 30 percent increase or decrease from time to time as directed by the President. However, the 1939 act was specifically repeated by section 507 (d) (2) of the Officer Personnel Act of 1947, ch. 512, 61 Stat. 894. By referring to section 11 of the National Defense Act, as amended, section 404 (f) (last sentence) of the Army Organization Act of 1950, ch. 383, 64 Stat. 274, had the effect of reviving the officer strength provisions prescribed by the 1936 act, since these were the only figures contained in the National Defense Act as such. 5: 181a (last proviso) is omitted, since no limitation upon the commissioned strength of the Regular Army has appeared in any appropriation act after the Military Appropriation Act of 1940, 53 Stat. 596. The commissioned strength of the Regular Army is now as prescribed by section 3204 of this title.

In subsection (b), the words "on the active list" are inserted for clarity. 10: 316a (proviso) is omitted as executed.

AMENDMENTS

1967—Subsec. (b). Pub. L. 90–130 struck out provision limiting the prescribed strength of the Women's Army Corps to not more than 2 percent of the authorized strength of the Regular Army in commissioned officers on the active list.

1958—Subsec. (a). Pub. L. 85–861 substituted "Army Medical Specialist Corps" for "Women's Medical Specialist Corps".

SUSPENSION OF RESTRICTIONS OF PERSONNEL STRENGTH

Suspension until July 1, 1971, see note set out under section 3201 of this title.

§ 3210. Regular Army: strength in grade; general officers.

(a) Subject to section 3202 (a) of this title, the authorized strength of the Regular Army in general officers on the active list, exclusive of the number authorized for the Army Medical Department and the Chaplains, is 75/10,000 of the authorized strength of the Regular Army in commissioned officers on the active list, exclusive of the number of commissioned officers on the active list authorized for the Army Medical Department and the Chaplains. Of this authorized strength, not more than one-half may be in a regular grade above brigadier general.

(b) The authorized strength of each of the following branches—

(1) the Medical Corps;

(2) the Dental Corps;

(3) the Veterinary Corps; and

(4) the Chaplains;

in general officers on the active list of the Regular Army is 5/1,000 of the authorized strength of the branch concerned in commissioned officers on the active list of the Regular Army. Not more than one-half of the authorized strength in general officers in such a branch may be in a regular grade above brigadier general;

(c) When the application of the percentages and ratios specified in this section results in a fraction, a fraction of one-half or more is counted as one, and a fraction of less than one-half is disregarded.

(d) General officers on the active list of the Regular Army who are specifically authorized by law to hold any civil office under the United States, or any instrumentality thereof, are not counted in determining authorized strength under this section.

(e) The authorized strength of the Medical Service Corps in general officers on the active list of the Regular Army is one commissioned officer in the regular grade of brigadier general. (Aug. 10, 1956, ch. 1041, 70A Stat. 174; Sept. 2, 1958, Pub. L. 85–861, § 1(66), 72 Stat. 1463; Sept. 24, 1966, Pub. L. 89–603, § 1(2), 80 Stat. 846; June 4, 1968, Pub. L. 90–329, 82 Stat. 170.)

3210 (d)	10: 506a (a) (4th proviso).	
3210 (e)	10: 506a (a) (last proviso).	

As enacted, section 503 (a) of the Officer Personnel Act of 1947 (10: 506a (a)), provided, subject to certain percentage limitations, for the following authorized strength of the Regular Army in general officers on the active list:

Medical Corps	16
Dental Corps	4
Veterinary Corps	1
The Chaplains	2
Army, exclusive of the above	334
Total	357

Under section 208 (e) of the National Security Act of 1947 (5 U. S. C. 626c (e)), allocations of those authorized strengths were made between the Army and the Air Force as follows:

	Army	*Air Force*
Medical Corps	12	4
Dental Corps	3	1
Veterinary Corps	1	0
The Chaplains	1	1
Army and Air Force, exclusive of the above	184	150
Total	201	156

After the enactment of the Officer Personnel Act of 1947, section 308 of the Army Organization Act of 1950 (10: 61-1) provided for an Assistant Judge Advocate General and three brigadier generals in the Judge Advocate General's Corps of the Army. The creation of these four general officer spaces served to increase the mentioned authorized strength figure from 357 to 361, and the figure 201 to 205. The opinion of the Judge Advocate General of the Army (JAGA 1948/5806, 2 Sept. 1948) is in accord with that conclusion.

The revised section reflects the authorized strength of the Regular Army in general officers on the active list resulting from the mentioned allocation to the Air Force and the addition of four general officer spaces in the Judge Advocate General's Corps.

That allocation, and those mentioned in the explanation of subsection (c), below, have had the force of law since July 26, 1950, when the period for transfers, including the administrative authority to change these allocations, expired.

The word "regular" is substituted for the word "permanent" throughout the revised section.

In subsection (c), 10: 506a (a) (1st proviso) is omitted, since there is no authority to appoint to a Regular grade above major general. 10: 506a (a) (last 65 words of 2d proviso) is omitted as executed by the declaration of a national emergency on December 16, 1950.

In subsection (c) (1), the figures "12" and "6" result from the allocation of the original figures "16" and "8".

In subsection (c) (2), the figures "3" and "2" result from the allocation of the original figures "4" and "2".

In subsection (c) (3), the figure "1" results from the allocation of the original figure "1". None was allocated to the Air Force.

In subsection (c) (4), the figure "1" results from the allocation of the original figures "2" and "1". (The major general was allocated to the Army, the brigadier general to the Air Force.)

In subsection (c) (5), the figures "188" and "94" result from the allocation of the original figures "334" and "167". The allocation of 188 corresponds to the allotment made by the Secretary of War between the Air Corps and the Army exclusive of the Air Corps, the Medical Department, and the Chaplains, under 10: 506a (a) (3d proviso). That proviso is omitted as executed.

In subsection (e), the words "by law to hold any civil office under the United States" are substituted for the words "by Acts of Congress to hold appointments in the Diplomatic or Consular Service of the Government or to hold any civil office under the Government".

AMENDMENTS

1968—Subsec. (a). Pub. L. 90-329 redesignated the "Army Medical Service" as the "Army Medical Department".

1966—Subsec. (e). Pub. L. 89-603 added subsec. (e).

1958—Subsec. (a). Pub. L. 85-861, § 1 (66) (A), substituted "Subject to section 3202 (a) of this title, the" for "The".

Subsecs. (c) and (d). Pub. L. 85-861, § 1 (66) (B), redesignated former subsecs. (d) and (e) as (c) and (d), and also repealed former subsec. (c), which prescribed the number of general officers authorized for the active list of the Regular Army.

§ 3211. Regular Army: strength in grade; promotion-list officers.

(a) Subject to subsection (b), the authorized strength of the Regular Army in officers in each regular grade on each of the promotion lists set forth in section 3296 of this title shall be as prescribed by the Secretary of the Army. A vacancy in any grade on a promotion list may be filled by an authorized appointment in any lower grade.

(b) Each strength prescribed by the Secretary under subsection (a) shall be stated as a percentage of the strength authorized for the particular list, and the schedule of percentages may be different for each list. No schedule for a list may authorize, with respect to a grade, a percentage that is higher than the sum of (1) the figure fixed for the grade according to the following table, and (2) the amounts, if any, by which the percentage fixed by the Secretary for higher grades are less than the figures fixed according to that table:

Grade	Column 1 Medical Corps, Dental Corps, Veterinary Corps, Chaplains, Judge Advocate General's Corps	Column 2 All other promotion lists
	Percent	*Percent*
Colonel	[1] 8	[1] 8
Lieutenant colonel	14	14
Major	19	19
Captain	23	23
First lieutenant	36	18
Second lieutenant	[2] —	18

[1] Colonels whose retirement is deferred under section 3921(b) of this title are not included within this percentage.

[2] None may be authorized by the Secretary for this category.

Subsection (b) clarifies the joint effect of the scale of percentages and 10: 559 (b) (1) (3d proviso), by combining them into a single rule. The table restates in consolidated form the rules relating to the limitations applicable to the Secretary when setting authorized strengths for the several promotion lists. 10: 316c (c) (1st sentence) is omitted, since the grades in which persons may be originally appointed in the Women's Army Corps, Regular Army, are set forth in section 3288 of this title. The purpose of 10: 316c (c) (1st sentence) was to authorize appointments in higher grades only for a limited period under section 108 of the act of June 12, 1948, ch. 449, 62 Stat. 361 (10: 559o). 10: 559 (b) (1) (last proviso) is omitted as executed.

Footnote 1 is substituted for 10: 941a (d) (81st through 105th words of last proviso of clause (3).

Footnote 2 is substituted for 10: 559 (b) (1) (3d proviso).

Footnote 3 is substituted for 10: 559 (b) (1) (1st proviso).

AMENDMENTS

1967—Subsec. (b). Pub. L. 90–130 struck out former column 2 in table for Women's Army Corps, with percentage figures of 10 for lieutenant colonels, 19–31 for majors, 23–35 for captains, 18–30 for first lieutenants, and 18–30 for second lieutenants, redesignated former column 3 as column 2, and struck out footnote 3 relating to former column 2.

1958—Subsec. (a). Pub. L. 85–861 substituted "an authorized appointment" for "an appointment".

§ 3212. Regular Army; Army Reserve; Army National Guard of United States: strength in grade; temporary increases.

The authorized strength in any regular or reserve grade, as prescribed by or under this chapter, is automatically increased to the minimum extent necessary to give effect to each appointment made in that grade under section 541, 1211(a), 3036, 3298, 3299, 3365(a), 3366, or 4353 of this title. An authorized strength so increased is increased for no other purpose, and while he holds that grade the officer whose appointment caused the increase is counted for the purpose of determining when other appointments, not under those sections, may be made in that grade. AMENDMENTS

1967—Pub. L. 90–130 struck out reference to section 3304 of this title.

1960—Pub. L. 86–559 substituted "3366, 3383 (except for the grade of colonel), or 4353 of this title to the extent necessary to allow the appointment of reserve officers, in grades not above lieutenant colonel, to fill prescribed mobilization or active duty requirements" for "3366, or 4353 of this title", and inserted "or not to fill one of those requirements" after "not under those sections."

1958—Pub. L. 85–861 included the Army Reserve and the Army National Guard of United States in the catchline, permitted increases in strength in reserve grades, and inserted references to sections 541, 3365 (a) and 3366.

Section 1(6) of Pub. L. 86–559 as amended by Pub. L. 88–620, § 1, Oct. 3, 1964, 78 Stat. 999, provided in part that the amendment of this section by Pub. L. 86–559 shall be effective only until July 1, 1965.

3214	No source.	No source.

The revised section is inserted to make explicit in the law the authorized strength of the Regular Army in enlisted members on active duty, which has heretofore been implied from provisions relating to the strength of the Army in members on active duty. The implication is based on an opinion of the Judge Advocate General of the Army (JAGA 1951/1549, 14 Feb. 1951) that the authorized strength of the Regular Army in enlisted members on active duty is the authorized strength of the Regular Army in members on active duty, less the number of commissioned and warrant officers of the Regular Army on active duty. In stating those members excluded, reference is made only to officer candidates since there are no Regulars in the other categories listed in section 3201 (a) of this title. An express statement in the law of the authorized strength of the Regular Army in enlisted

members on active duty is desirable, since section 3215 (b) of this title expressly refers to that authorized strength.

In subsection (a), the words "an armed force" are substituted for the words "the military service of the United States". The words "and no person" are omitted as surplusage. The last sentence is substituted for 10: 622 (proviso). The words "by regulations or otherwise" are omitted, since the Secretary has inherent authority to issue regulations appropriate to exercising his statutory functions. Since the authority to enlist deserters "in meritorious cases", granted to the Secretary by 10: 622, is equivalent to or broader than his authority to do so under 10: 624, the applicability of 10: 624 to 10: 622 is omitted as surplusage.

In subsection (b), the word "soldier" in 10: 623, is omitted as covered by the word 'person". The last sentence is substituted for 10: 624.

In subsections (b) and (c), the first 15 words and the proviso of section 2 of the act of August 1, 1894, ch. 179, 28 Stat. 216, are not contained in 10: 623 or 625. They are also omitted from the revised section, since the first 15 words are superseded by section 3256(a) of this title, and the proviso is executed.

In subsection (c), the words "(except an Indian)", in section 2 of the act of August 1, 1894, ch. 179, 28 Stat. 216, are not contained in 10: 625. They are also omitted from the revised section, since section 201 (b) of the Act of October 14, 1940, ch. 876, 54 Stat. 1138 (8 U. S. C. 601), provides that Indians are citizens and nationals of the United States. The words "may be accepted for original" are substituted for the words "shall be enlisted for the first".

AMENDMENTS

1968—Pub. L. 90–235 struck out provisions formerly set out as subsec. (a) disqualifying insane persons, intoxicated persons, deserters and convicted felons from Army service, and provisions formerly set out as subsec. (b) disqualifying from reenlistment in the Army persons whose service during their last term of enlistment was not honest and faithful, and redesignated as entire section provisions formerly set out as subsec. (c).

1961—Subsec. (c). Pub. L. 87–143 substituted "a citizen of the United States or has been lawfully admitted to the United States for permanent residence under the applicable provisions of chapter 12 of title 8" for ", or has made a legal declaration of intention to become, a citizen of the United States".

AMENDMENTS

1958—Pub. L. 85-861 substituted "except in the Medical Corps or the Dental Corps, and except as provided in section 4353 (b) of this title" for "except under section 3294 (a) of this title".

§ 3286. Commissioned officers: original appointment; age limitations.

(a) A person may not be originally appointed in a commissioned grade in the Regular Army, except in the Medical Corps, Dental Corps, Army Nurse Corps, or Army Medical Specialists Corps, if on the date of his appointment he has already passed his—

(b) Notwithstanding subsection (a), a person may not be originally appointed in a commissioned grade in the Regular Army, except in the Medical Corps, Dental Corps, Army Nurse Corps, or Army Medical Specialist Corps, if he is above the age that would permit him to complete 20 years of active commissioned service in the armed forces before his fifty-fifth birthday. 3286 (b)	10: 506c (e) (provisos).	

In subsection (a), the word "originally" is substituted for the word "initially". The words "if on the date of his appointment he has already passed his" are substituted for the words "when the length of time from date of birth to date of appointment exceeds". The words "and persons appointed with view to assignment in" are omitted as superseded by section 3292 of this title. In clause (4), the word "other" is substituted for the words "except those hereinafter specifically mentioned". The exception as to section 3291 of this title is inserted, since the source statute did not apply to the appointment of a nurse or woman medical specialist under that revised subsection. The exception as to section 3294 (a) of this title is inserted, since the source statute did not apply to the appointment of doctors and dentists under that revised section. (See opinion of the Judge Advocate General of the Army (1948/2124, 1 Mar. 1948).)

In subsection (b), the first eight words are substituted for 10: 506c (e) (1st 22 words of 1st proviso). The words "after the appointee became 21 years of age" are substituted for the words "by such person after attaining the age of twenty-one years". 10: 506c (e) (last proviso) is omitted as executed.

AMENDMENTS

1958—Subsec. (a). Pub. L. 85-861 substituted "except in the Medical Corps, Dental Corps, Army Nurse Corps, or Army Medical Specialist Corps" for "except under section 3291 or 3294 (a) of this title", eliminated appointments in the Medical Corps and Dental Corps from cl. (2), and inserted provisions permitting increase of maximum age by the period credited to the appointee under section 3287(a) of this title, other than that permitted under clause (2) (A) or (B) of that section.

Subsec. (b). Pub. L. 85-861 substituted provisions prohibiting appointment of a person in the Regular Army, except in the Medical Corps, Dental Corps, Army Nurse Corps, or Army Medical Specialist Corps, if he is above the age that would permit him to complete 20 years of active commissioned service before his fifty-fifth birthday for provisions which authorized increase of maximum age.

§ 3287. Commissioned officers: original appointment; service credit.

(a) For the purpose of determining grade, position on a promotion list, seniority in his grade in the Regular Army, and eligibility for promotion, a person originally appointed in a commissioned grade in the Regular Army, except in the Medical Corps, Dental Corps, Army Nurse Corps, or Army Medical Specialist Corps, may, in the discretion of the Secretary of the Army, be credited at the time of his appointment—

(1) with the active commissioned service in the Army that he performed after December 6, 1941, after becoming 21 years of age, and before his appointment; and

(2) with one of the following periods, if applicable:

(A) Three years, if he is appointed as a chaplain, in the Judge Advocate General's Corps, or in the Veterinary Corps.

(B) Three years, if he is appointed in the Medical Service Corps and if he holds the degree of doctor of philosophy or a comparable degree recognized by the Surgeon General in a science allied to medicine.

(C) If he was a commissioned officer on active duty on July 20, 1956, a period of not more than 8 years, computed by—

(i) taking the period of commissioned service that may be credited to him in computing his basic pay, but not more than the period computed by subtracting 27 years from his age on the date of his appointment; and

(ii) subtracting the period of active commissioned service in the Army that he performed after December 6, 1941, after becoming 21 years of age, and before his appointment, but not more than the difference in age computed under subparagraph (i).

(D) The number of days, months, and years by which the appointee's age exceeds 27 years, but not more than two years.

(b) Notwithstanding any other provision of law, a person who was a cadet at the United States Military Academy or the United States Air Force Academy, or a midshipman at the United States Naval Academy, may not be originally appointed in a commissioned grade in the Regular Army before his classmates at that academy are graduated and appointed as officers. A person who was a cadet or midshipman at, but was not graduated from, one of those academies may not be credited, upon original appointment as a commissioned officer of the Regular Army, with longer service than that credited to

any member of his class at that academy whose service in the Army has been continuous since graduation.

(c) A graduate of the United States Military Academy, the United States Naval Academy, or the United States Air Force Academy who is originally appointed as a second lieutenant in the Regular Army is not entitled to any service credit under this section. 3287 (e)	10: 506c (f) (last 23 words of last sentence).	

All references to the inclusion of certain corps within the Regular Army are omitted since under sections 3063 and 3064 of this title they are branches of the Army and not of the Regular Army.

In subsection (a), the word "originally" is substituted for the word "initially". The words "in a commissioned grade" are substituted for the words "commissioned an officer". The words "active commissioned service in the Army after * * * that he performed after becoming 21 years of age and before" are substituted for the words "an amount of service equivalent to the total period of active Federal service performed after attaining the age of twenty-one years as a commissioned officer in the Army of the United States or any component thereof subsequent to * * * and prior to".

In subsections (a) and (b), the words "except a person appointed under section 3294 (a) of this title" are inserted, since the service credit provisions of the revised section do not apply to appointments made under that section.

In subsection (c), the word "originally" is inserted for clarity. The words "in a commissioned grade" are substituted for the words "commissioned an officer". The words "an amount * * * equal to" are omitted as surplusage. 10: 156e (last 68 words) is omitted as covered by 10: 506c (c) (words of 2d sentence after last semicolon).

In subsection (d), the words "in a commissioned grade" are substituted for the words "commissioned an officer". The words "No * * * may" are substituted for the words "Any * * * shall not". The word "formerly" is omitted as surplusage.

AMENDMENTS

1958—Pub. L. 85-861 amended section generally, by, among other changes, making the provisions relating to crediting of service permissive, in the discretion of the Secretary of the Army, instead of mandatory, inserting provisions authorizing crediting of not more than 8 years of service for persons who were commissioned officers on active duty on July 20, 1956, permitting crediting of the number of days, months, and years by which the appointee's age exceeds 27 years, but not more than 2 years, prohibiting original appointment of persons who were cadets at the Air Force Academy or midshipmen at the Naval Academy before their classmates are graduated and appointed as officers, and denying service credit to graduates of the Air Force Academy and Naval Academy who are originally appointed as second lieutenants in the Regular Army.

SERVICE CREDIT FOR CERTAIN SPECIALISTS APPOINTED BEFORE JULY 20, 1958

Section 18 of Pub. L. 85-861 provided that, in place of any applicable period of service under subsec. (a) (2) of this section, each of not more than 200 persons who were originally appointed before July 20, 1958, in commissioned grades in the Regular Army, except in the Medical Corps, Dental Corps, Army Nurse Corps, or Army Medical Specialist Corps, and who were outstanding specialists in a critical field according to criteria prescribed by the Secretary of the Army and approved by the President, could, in the discretion of the Secretary, be credited at the time of his appointment with a period of service, not to exceed eight years, equal to the number of days, months, and years by which his age exceeded 27 years. The name of each such person who was appointed during the period covered by the report, the grade to which appointed, and the justification therefor had to be reported to the Committees on Armed Services of the Senate and the House of Representatives before July 16, 1958, and the names and grades of the remainder, and the justification for their appointment, had to be so reported before July 16, 1959.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 3286, 3290, 3888, 3927 of this title.

§ 3288. Commissioned officers: original appointment; determination of grade.

A person originally appointed as a commissioned officer in the Regular Army, except in the Medical Corps, Dental Corps, Army Nurse Corps, or Army Medical Specialist Corps, is appointed in the grade that is held by the junior officer on the applicable promotion list who is not a deferred officer, or an officer considered but not recommended for promotion under section 518 of the Officer Personnel Act of 1947 (61 Stat. 910), and who has the same or the next longer service. (Aug. 10, 1956, ch. 1041, 70A Stat. 183; Aug. 21, 1957, Pub. L. 85-155, title I, § 101 (7), 71 Stat. 376; Sept. 2, 1958, Pub. L. 85-861, § 1 (75), 72 Stat. 1466.)

The tenth through twentieth words are substituted for 10: 506c (d) (1st 14 words). The words "at least" are substituted for the word "more". The words "who have no service credit and those who are credited", "shall be appointed in the grade of", and "who are credited" are omitted as surplusage.

AMENDMENTS

1958—Pub. L. 85-861 amended section generally by substituting provisions requiring a person originally appointed as a commissioned officer in the Regular Army, except in the Medical Corps, Dental Corps, Army Nurse Corps, or Army Medical Specialist Corps, to be appointed in the grade that is held by the junior officer on the applicable promotion list who is not a deferred officer, or an officer considered but not recommended for promotion under section 518 of the Officer Personnel Act of 1947, and who has the same or the next longer service, for provisions which required appointment as second lieutenants of persons with less than three years of service, as first lieutenants for persons with at least three but less than seven years of service, and as captains for persons with at least seven years of service.

The words "may be originally appointed" are substituted for the words "shall receive an appointment". The words "in the Regular Army" are inserted, since the source statute historically applied only to the Regular component. The word "originally" is inserted for clarity. The applicability of the third proviso to judge advocates is also omitted from the revised section as covered by sections 3285, 3286, and 3292 of this title. The applicability of the third proviso to paymasters is similarly omitted, since the Finance Corps is not a continuation of the Pay Department (see opinion of the Judge Advocate General of the Army (SPJAG 168, 27 Mar. 1942)). § 3294. Commissioned officers; Medical and Dental Corps: original appointment

(a) Original appointments in the Regular Army may be made in the grades of first lieutenant through colonel in the Medical Corps or Dental Corps, as the needs of the Army require. These appointments may be made only from qualified doctors of medicine, osteopathy, or dentistry, as the case may be, who are citizens of the United States and who have such other qualifications as the Secretary of the Army may prescribe. In addition, to be eligible for appointment in the Medical

Corps under this section, a doctor of osteopathy must—

(1) be a graduate of a college of osteopathy whose graduates are eligible to be licensed to practice medicine or surgery in a majority of the States;

(2) be licensed to practice medicine, surgery, or osteopathy in a State or Territory or in the District of Columbia;

(3) under regulations to be prescribed by the Secretary of Defense, have completed a number of years of osteopathic and preosteopathic education equal to the number of years of medical and premedical education prescribed for persons entering recognized schools of medicine who become doctors of medicine and who would be qualified for appointment under this section in the grade for which that person is applying; and

(4) have such other qualifications as the Secretary of the Army prescribes after considering the recommendation, if any, of the Surgeon General.

(b) For the purposes of determining grade, position on a promotion list, seniority in his grade in the Regular Army, and eligibility for promotion, an officer appointed under subsection (a) shall be credited with the amount of service prescribed by the Secretary, but not less than four years. However, a doctor of medicine or osteopathy who has completed an internship of one year, or the equivalent, may not be credited with less than five years. 3294 (b)	10: 91a (less 1st and 2d sentences); 10: 121a (less 1st and 2d sentences).	

In subsection (a), the words "Notwithstanding sections 3285, 3286, and 3287 of this title" are inserted, since this section is an exception to those sections. The words "Subject to any limitation of the commissioned strength of the Army prescribed by law", in 10: 91a and 121a, are omitted, since unless otherwise specified all appointments must be within the authorized strength. The words "the President, by and with the advice and consent of the Senate", in 10: 91a and 121a, are omitted as covered by section 3284 of this title. The words "in the Regular Army" are substituted for the word "permanent", in 10: 91a and 121a, since historically the source statute applied only to the Regular component. (See JAGA 1948/2124, cited above.)

In subsection (b), the words "An officer appointed under subsection (a)" are substituted for the words "The doctors of medicine [dentists] so appointed", in 10: 91a and 121a.

AMENDMENTS

1958—Pub. L. 85-861 eliminated words "additional method authorized as exception to general procedure" from the catchline.

Subsec. (a). Pub. L. 85-861 authorized appointments in the grade of lieutenant in the Medical Corps and Dental Corps, and permitted appointment of certain osteopaths.

Subsec. (b). Pub. L. 85-861 substituted provisions relating to crediting of service for persons appointed under subsection (a) for purposes of determining grade, position on a promotion list, seniority in grade, and eligibility for promotion and requiring doctors of medicine or osteopathy who have completed an internship of one year, or the equivalent, to be credited with at least five years of service, for provisions which required officers appointed under subsection (a) to be credited for promotion with the minimum number of years of service required for promotion of officers of the corps to the grade in which they are appointed.

ADJUSTMENT OF SERVICE CREDIT FOR MEDICAL AND DENTAL OFFICERS APPOINTED BEFORE MAY 1, 1956

Section 19 of Pub. L. 85-861 provided that: "The Secretary concerned may convene boards of officers to review the records and compute the service of each officer of the Medical Corps or the Dental Corps of the Army or the Navy, and each medical or dental officer of the Air Force, appointed before May 1, 1956, including those reserve or temporary officers who were on active duty on that date, or who entered on active duty after that date, in order to adjust the service credited to each such officer to reflect the service authorized to be credited to officers appointed under the Act of April 30, 1956, chapter 223 (70 Stat. 119), or under section 3294, 3444, 5574, 5578, or 8294 of title 10, United States Code. When that adjustment is made, such officers shall be given precedence for promotion purposes or advanced to a lineal position in accordance with their adjusted dates of rank, except that no officer of the Navy may be given an adjusted date of rank in the grade of captain which is earlier than July 1, 1955. All officers of the Navy with the adjusted date of rank of July 1, 1955, in the grade of captain shall retain the precedence among themselves that they held on May 1, 1956, and shall be junior to all other officers assigned that date of rank. If, as a result of readjustment of service credit under this section—

"(1) an officer of the Army or the Air Force is made eligible for promotion, he shall be considered for promotion by the next selection board considering officers of his grade and category; and

"(2) an officer of the Navy attains lineal position equivalent to an officer who is serving in the next higher grade, or who is on a promotion list to that grade, he may be promoted thereto on the recommendation of a board of officers convened under this subsection, and, except as otherwise provided in this section, may be assigned a lineal position in the higher grade appropriate to his adjusted service credit."

Each board shall be composed of at least five officers of the Regular Army who hold a regular or temporary grade above lieutenant colonel,

"(a) Not more than once in each fiscal year, the Secretary of the Army and the Secretary of the Air Force may convene one or more boards, each consisting of at least five officers of the Regular Army or the Regular Air Force, as the case may be, in a grade above colonel, to review the records of, and recommend for continuation on the active list, officers of that component on the active list in the regular grade of colonel or lieutenant colonel who have at least 20 years of service computed under section 3927 (a) or 8927(a) of title 10, United States Code, whichever applies, and who have been considered more than twice but not recommended for promotion to the next higher regular grade.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 3212 of this title.

§ 3299. Commissioned officers: promotion to captain, major, or lieutenant colonel.

(a) Promotion-list officers shall be promoted to the regular grades of captain, major, and lieutenant colonel, under subsections (b) and (c), or eliminated from the active list under section 3303 of this title.

(b) Without regard to vacancies, each promotion-list officer whose regular grade is first lieutenant, captain, or major shall be considered by a selection board for promotion to the next higher regular grade, far enough in advance of the date on which he will complete 7, 14, or 21 years of service with which he is entitled to be credited for promotion, as the case may be, that, if recommended, he may be promoted on the date on which he will complete that service.

(c) Having in view the number of actual and anticipated vacancies on a promotion list in the regular grade of captain, major, or lieutenant colonel, the Secretary of the Army may direct a selection board to consider and recommend officers on that list for promotion to the next higher regular grade without regard to length of service. However, no officer may be considered for promotion under this section more than two years before the date on which it is anticipated that he will be promoted if recommended, and unless the same board considers all officers above him on that list who are not on a recommended list.

(d) The names of promotion-list officers recommended for promotion under this section shall be carried on permanent recommended lists of their grade and promotion list in the same order among themselves as on the applicable promotion list, and they shall be promoted in that order. A promotion may be made whenever there is a vacancy; but it is not mandatory that the authorized numbers be maintained in any grade on any promotion list.

(e) Whenever an officer is promoted under subsection (b), all officers in the same grade and on the same promotion list whose names are on the recommended list above that of the officer who must be promoted because of length of service shall be promoted at the same time and shall retain among themselves their existing seniority.

(f), (g) Repealed. Pub. L. 90–130, § 1(10)(B), Nov. 8, 1967, 81 Stat. 375.

(h) A promotion-list officer who has been twice considered and not recommended for promotion to any one regular grade may not again be considered for promotion under this section. § 3302. Commissioned officers; Medical, Dental, and Veterinary Corps: promotion to captain, major, or lieutenant colonel; professional examination.

(a) No commissioned officer of the Medical Corps or the Veterinary Corps whose regular grade is below lieutenant colonel may be promoted in the Regular Army until he passes an examination of his professional fitness before an examining board composed of at least three commissioned officers of the Regular Army in the Medical Corps selected by the Secretary of the Army. No commissioned officer of the Dental Corps whose regular grade is below lieutenant colonel may be promoted in the Regular Army until he passes an examination of his professional fitness before an examining board composed of one commissioned officer of the Regular Army in the Medical Corps, and two commissioned officers of the Regular Army in the Dental Corps, selected by the Secretary. The examination shall be prescribed by the Secretary and shall be held at such time before the right to promotion accrues as may be in the best interest of the Army.

(b) If an officer of the Medical, Dental, or Veterinary Corps in the regular grade of first lieutenant or captain is found disqualified for promotion by the examining board, the Secretary shall detail a board of review to consider the findings of the examining board.

(c) A board of review shall be composed in the same manner as an examining board, except that its members must be senior in rank to the officer examined, and must not have served on the examining board that examined him.

(d) If the board of review concurs in the findings of the examining board, the officer shall be honorably discharged with one year's pay. If it does not concur in the findings, the officer shall be considered qualified and shall be promoted.

(e) An officer of the Medical, Dental, or Veterinary Corps in the regular grade of major who fails his first examination for promotion shall be suspended from promotion and reexamined as soon as practicable after one year from the date of his first examination. While he is so suspended from promotion, his name shall be removed from the recommended list and the years of service with which he is entitled to be credited for promotion purposes shall be reduced, if necessary, as provided in section 3303 (b) of this title.

(f) If on reexamination such a major is found qualified, his name shall be restored to the recommended list and he is eligible for promotion. If he is found disqualified for promotion, he shall be treated in the manner provided for deferred officers under section 3303 (d) of this title.

(g) While an officer is suspended from promotion under subsection (e), his right to promotion passes successively to the officers below him who are in the same grade and on the same promotion list, and who are or may become eligible for promotion.

(h) If the needs of the Army require that an officer entitled to promotion upon examination under subsection (a) be absent from a place where an examining board can be convened, the officer may be promoted, subject to examination as soon as practicable. However, if he is thereafter examined and found disqualified for that promotion, and if the proceedings are approved by the Secretary, he shall be treated as if he had been examined before promotion and had failed.

(i) If an officer who is found qualified for promotion under this section dies in line of duty after the occurrence of a vacancy that would entitle him to that promotion because of his seniority and before promotion, the President may issue, or have issued, an appropriate commission in the name of that officer. A commission issued under this subsection shall issue as of the date of the vacancy, and the officer's name shall be carried on the records of the Department of the Army as if he had served in the grade and branch in which posthumously commissioned, from the date of the vacancy to the date of his death. No person is entitled to any bonus, gratuity, pay, or allowance because of this subsection. (Aug. 10, 1956, ch. 1041, 70A Stat. 187.)

In subsection (a), the words "at least" are substituted for the words "not less than", in 10: 101. The words "before * * * accrues" are substituted for the words "anterior to the accruing of", in 10: 101. The second sentence is substituted for 10: 125. The act of October 6, 1917, ch. 101 (less 1st proviso), 40 Stat. 397, is not contained in 10: 125. It is also omitted from the revised section either as executed or as covered by ch. 335 and sections 3067, 3209, and 3211 of this title; and by the Career Compensation Act of 1949, 63 Stat. 802 (37 U. S. C. 231 et seq.). 10: 555a (less 1st 34 words) is executed in the revised section by references to the Dental and Veterinary Corps.

In subsection (b), the first 29 words are substituted for the words "but if he should be found disqualified for promotion for any other reason, a second examination shall not be allowed, but". The words "to consider the findings of the examining board" are inserted for clarity.

In subsections (b) and (f), so much of 10: 102 and 103, respectively, as relate to retirement for physical disability, are omitted as superseded by chapter 61 of this title.

In subsection (c), the first 22 words are substituted for the words "to consist of three officers of the Medical Corps superior".

In subsection (d), the words "If it does not concur in the findings" are substituted for the words "If the action of the examining board is disapproved by the board of review". The words "reported disqualified for promotion" and "from the service" are omitted as surplusage.

In subsection (e), the words "fails his first examination" are substituted for the words "at his first examination * * * has been or shall hereafter be found disqualified". The words "his first examination" are substituted for the words "the completion of the examination that resulted in his suspension". The words "to the grade of lieutenant colonel" and "the expiration of" are omitted as surplusage.

The last sentence of subsection (e) is inserted, and the last sentence of subsection (f) is subtituted for 10: 103 (last 61 words). 10: 555a preserved only the requirement of a professional examination for the promotion of officers of the Medical, Dental, and Veterinary Corps, and not the consequences of failure of such an examination, since the Officer Personnel Act of 1947 was intended to provide the exclusive means for the removal of officers for failure of promotion.

In subsection (f) the words, "such a major" are substituted for the word "he." The words "his name shall be restored to the recommended list" are inserted to reflect the last sentence of subsection (e). The words "is eligible for promotion" are substituted for the words "shall again become eligible thereto". The words "and if he is not found disqualified by reason of such physical disability" and "for any other reason" are omitted as surplusage.

Subsection (g) is substituted for 10: 103 (59th through 93d words).

In subsection (h), the words "If the needs of the Army" are substituted for the words "When the exigencies of the service". The words "the officer may be promoted" are substituted for the words "the President is hereby authorized to promote such officer". The words "and had failed" are inserted for clarity. The words "who would be", "remain", and "in the same manner" are omitted as surplusage.

Subsection (i) is limited to officers of the Medical, Dental, or Veterinary Corps, since they are the only officers required by law to be "examined" for promotion in the sense of the source statute. The words "before promotion" are substituted for the words "before the issue or acceptance of a commission therefor". The words "in which posthumously commissioned" are substituted for the words "shown in such commission". The word "after having been examined" and "with rank", in 10: 490, are omitted as surplusage. The last sentence is substituted for 10: 491.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 3913 of this title.

§ 3303. Commissioned officers: effect of failure of promotion to captain, major, or lieutenant colonel.

(a) In this subtitle, "deferred officer" means a promotion-list officer considered for promotion to the grade of captain, major, or lieutenant colonel under section 3299 of this title, but not recommended for promotion.

(b) The years of service with which a deferred officer is entitled to be credited for promotion purposes shall be reduced so that one year after the date on which he would have been promoted had he been recommended by a selection board he will not have more than 7, 14, or 21 years of service, if in the grade of first lieutenant, captain, or major, as the case may be.

(c) A deferred officer shall be considered again by the next selection board considering officers of his grade and promotion list. If recommended by this board, his name shall be placed on the applicable recommended list with the other officers recommended by the board, in the same order among themselves as on the promotion list, but below officers placed on that list by an earlier board. If a deferred officer is promoted upon the recommendation of the next board considering officers of his grade, his first failure does not count as a failure of selection when he is thereafter considered for promotion to another regular grade.

(d) A deferred officer who is not recommended by the next selection board considering officers of his grade and promotion list shall—

(1) if he is eligible, be retired under section 3913 of this title;

(2) if he is not eligible for retirement under section 3913 of this title, but is eligible for retirement under any other provision of law, be retired under that law on the date when he would have been retired under section 3913 of this title if he were eligible; or

(3) if he is not eligible for retirement under section 3913 of this title or any other provision of law, be honorably discharged on such date as may be requested by him and approved under regulations to be prescribed by the Secretary of the Army, but not later than the first day of the seventh calendar month after the Secretary approves the report of that board, with severance pay computed by multiplying his years of service, but not more than 12, computed under section 3927(a) of this title, by two months' basic pay of the grade in which he is serving on the date of his discharge.

However, no person is entitled to severance pay under this section in an amount that is more than $15,000.

(e) For the purposes of subsection (d) (3), a part of a year that is six months or more is counted as a whole year, and a part of a year that is less than six months is disregarded. § 3308. Commissioned officers: effect of removal from recommended list by President or failure of confirmation by Senate.

The President may remove from a recommended list for promotion to any grade the name of any promotion-list officer or brigadier general of the Regular Army who in his opinion is not qualified for promotion. If an officer's name is so removed, or if the Senate does not consent to his appointment, he continues to be eligible as if he had not been considered for promotion and may be recommended by the next selection board considering officers of his grade. If the second board considers but does not recommend an officer who would be subject to elimination for second failure of selection for promotion to the grade concerned, or if he again fails of promotion because his name is removed from the recommended list by the President or because the Senate does not consent to his appointment, he shall be eliminated from the active list under section 3303 of this title. § 3311. Officers: female; limitations on appointment.

Except for those appointed as commissioned officers in the Medical Corps, Dental Corps, Medical Service Corps, Veterinary Corps, Army Nurse Corps, or Army Medical Specialist Corps, women may be appointed as officers in the Regular Army only in the Women's Army Corps. (Aug. 10, 1956, ch. 1041, 70A Stat. 192; Sept. 2, 1958, Pub. L. 85-861, § 1 (60), 72 Stat. 1462.)

The revised section is inserted to make it explicit that women may be appointed as commissioned officers in the Regular Army only in the several corps of the Army Medical Service and the Women's Army Corps, and as warrant officers in the Regular Army only in the Women's Army Corps. The rule has heretofore been implied from provisions authorizing their appointment in the Regular Army in those corps, stated in the source credits set forth above and those for section 3291 of this title, and is based on an opinion of the Judge Advocate General of the Army (JAGA 1953/8456, 2 Nov. 1953). An express statement of the limitation is desirable, since otherwise all sections relating to appointment, promotion, retirement, etc., of officers of the Regular Army, other than in the corps set forth in the revised section, would require the specific exception of women from their application. This permits the elimination, in this subtitle, of distinctions between the applicability of laws relating to the Regular Army to men and women except where the context requires otherwise. The words "by the President, by and with the advice and consent of the Senate" are omitted as covered by section 3284 of this title. The words "citizens of the United States", in 10: 316c (a), are omitted as covered by section 3285 of this title. The words "who possess such qualifications as may be prescribed by the Secretary of the Army" are omitted as covered by section 3285 of this title. The applicability of 10: 81-2 (less 1st and last provisos) to the appointment of female Reserves in the Medical Corps, Dental Corps, Medical Service Corps, and the Veterinary Corps, is omitted, since, under section 3064 of the title, appointments with specification of branch are made only in the case of commissioned officers of the Regular Army appointed in the special branches.

AMENDMENTS

1958—Pub. L. 85-861 substituted "Army Medical Specialist Corps" for "Women's Medical Specialist Corps".

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in sections 133, 1005, 1006, 1007 of this title.

§ 3351. Officers: Army National Guard of United States.

(a) Upon being federally recognized, an officer of the Army National Guard shall be appointed as a Reserve for service as a member of the Army National Guard of the United States in the grade that he holds in the Army National Guard. However, an officer of the Army Reserve who is federally recognized as an officer of the Army National Guard becomes an officer of the Army National Guard of the United States and ceases to be an officer of the Army Reserve. The acceptance of an appointment as a Reserve for service as a member of the Army National Guard of the United States by an officer of the Army National Guard does not vacate his office in the Army National Guard.

(b) When an officer of the Army National Guard to whom temporary Federal recognition has been extended is appointed as a Reserve for service as a member of the Army National Guard of the United States, his appointment shall bear the date of the temporary recognition and shall be considered to have been accepted and effective on that date.

(c) When the Army National Guard of the United States is ordered to active duty, any officer of the Army National Guard who is not a Reserve of the Army may be appointed by the President as a Reserve for service as a member of the Army National Guard of the United States in the grade that he holds in the Army National Guard. The names of all other reserve officers shall be placed on a zone of consideration list, or considered for promotion, without regard to the branch to

which they are assigned. The convening officer shall refer each list to a selection board for consideration.

(c) Except as provided in subsection (d), an officer who is not assigned to a special branch or the Women's Army Corps, and who is recommended for promotion under section 3366, 3367, or 3370 of this title, may not be promoted before an officer of the same reserve grade in an active status who is not assigned to a special branch or the Women's Army Corps, who has more service computed under section 3360 (b) of this title, who has been recommended for promotion, and who is not assigned to a unit organized to serve as a unit.

§ 3367. Commissioned officers: promotion of first lieutenants, captains, and majors to fill vacancies.

(a) Whenever the Secretary of the Army determines that, within the distribution of officers not assigned to units, there are existing or anticipated vacancies in the reserve grade of captain, major, or lieutenant colonel, he may convene a selection board to consider and recommend, for promotion to those grades, officers of the Army Reserve who are in an active status and who are not assigned to units organized to serve as units, reserve officers who are on active duty (other than for training), officers of any Army Reserve unit organized to serve as a unit, and officers of the Army National Guard of the United States. (1) (A) Consider the officers referred to it in the order of their service computed under section 3360(b) of this title;

(C) pass over and report those not so qualified; and

(D) continue this procedure until the number of officers specified by him is recommended.

VALIDATION OF CERTAIN TEMPORARY APPOINTMENTS IN ARMY OF THE UNITED STATES

Pub. L. 86-197, § 2, Aug. 25, 1959, 73 Stat. 426, provided that all appointments made after December 6, 1941, in the Army of the United States without component under the joint resolution of September 22, 1941 (ch. 414, 55 Stat. 728), that were not earlier terminated by administrative action or specific provision of law could be considered for all purposes to have continued in effect until the close of March 31, 1953.

§ 3442. Commissioned officers; regular and reserve components: appointment in higher grade.

(a) Whenever the number of officers of the Regular Army in any regular grade above second lieutenant is less than the number authorized, the vacancies may be filled by the appointment of qualified officers, as prescribed in subsection (c).

(b) Whenever, under authorization by Congress, the number of commissioned officers of the Regular Army on active duty plus the number of other commissioned officers of the Army ordered to active duty for a period of more than 30 days is more than the authorized strength of the Regular Army in commissioned officers on the active list, the Secretary of the Army shall determine the additional number of officers in each of the commissioned grades based upon the number of officers serving on active duty and the tasks being performed by the Army. Vacancies resulting from that determination may then be filled by the appointment of qualified officers, as prescribed in subsection (c).

(c) Subject to subsections (a) and (b), a regular commissioned officer, or a reserve commissioned officer who is serving on active duty, may be appointed in a temporary grade that is equal to or higher than his regular or reserve grade, without vacating any other grade held by him. (B) the days and months of any part of the year preceding his date of entry on active duty, while in his current reserve grade or in any higher reserve grade, that are not credited to him under clause (A), if, under regulations to be prescribed by the Secretary of the Army, his service during that part of a year was satisfactory;

1803 (b)	10: 511 (2d sentence).	
1803 (c)	10: 511 (less 1st and 2d sentences).	

In subsection (a), the words "Unless special assignment is made by the President under the provisions of the One hundred and nineteenth Article of War", are omitted as surplusage, since they relate to command and not to rank. The substance of the omitted words is covered by section 3578 of this title.

In subsection (a) (1), the words "serving in his regular grade" are inserted, since clause (2) covers all officers serving in a temporary grade.

Subsection (a) (2) is inserted as a necessary implication of the words "is that stated in his commission or letter of appointment".

In subsection (a) (3), the words "Federal service" are substituted for the words "service of the United States". The words, "his date of rank precedes the date of his entry" are substituted for the words "shall precede that on which he is placed". The words "of his active duty" are substituted for the words "equal to the total length of active Federal service". The words "placed on active duty" are substituted for the word "called", since the

clause applies to Reserves who are "ordered" as well as officers of the Army National Guard who are "called". The words "is his date of entry on active duty" are inserted to make explicit that which is implicit in the statement of the rule applicable to officers with prior service in the same or a higher grade.

In subsection (b), the words "which shall include all time served on active duty as a commissioned officer in the Federal Service" are omitted as surplusage. The reference to sections 144—146 of title 32 is omitted, since those sections relate to pay and allowances only.

In subsection (c), the introductory clause is substituted for the words "When length of such service is the same", to reflect revised subsections (a) and (b). The words "shall take rank among themselves according to their places on the promotion list" are omitted, since rank among regular officers is covered by sections 3573 and 3574 of this title. Clause (2) is inserted for clarity to reflect those sections. The words "rank before" are substituted for the word "preceding". The words "of the same date of rank and length of service" are omitted as covered by the introductory clause.

AMENDMENTS

1960—Subsec. (a)(3). Pub. L. 86-559 added cl. (B), redesignated former cl. (B)—(D) as (C)—(E), and substituted "June 30, 1955" for "July 1, 1955", "current reserve grade" for "current grade", and "higher reserve grade" for "higher grade" wherever appearing.

1958—Subsec. (a). Pub. L. 85-861 eliminated references to officers of the Army National Guard called into Federal service, permitted reserve officers to credit the years of service after July 1, 1955 that are credited to them under section 1332 (a) of this title, and the periods of service performed under section 502 of Title 32, and authorized reserve officers to add one day for each point for drill or equivalent instruction after July 1, 1955 that is credited under section 1332 (a) (2) (B) of this title.

Subsec. (b). Pub. L. 85-861 substituted "rank is determined by adding all active commissioned service in the Army, all commissioned service under section 502, 503, 504, or 505 of title 32, and all service credited for points under section 1332 (a) (2) (B) of this title" for "rank is determined by length of all active commissioned service in the Army and commissioned service under sections 503, 504, and 505 of title 32".

Subsec. (c). Pub. L. 85-861 substituted "and service computed" for "and length of active commissioned service computed", and eliminated officers of the Army National Guard from clauses (1) and (3).

[1] Section 3689 repealed and analysis was not amended to reflect such repeal.

The words "active service" are substituted for the words "active Federal military service" and "active military service" for uniformity. In clauses (1) and (2), the words "as it existed at any time before April 16, 1947" are inserted for clarity, since the legislative history of 10: 166i shows that the reference is intended to apply to the corps established by law before April 16, 1947. Service in the Army Nurse Corps now existing would be included as "other service that may be credited". In clause (4), the word "Army" is substituted for the words "War Department", appearing in section 110 of the Army-Navy Nurses Act of 1948, as amended by section 3 (f) of the act of May 16, 1950, ch. 186, 64 Stat. 161, and the words "Department of the Army", in 10: 166i, since the Medical Department was in the Army and not in the War Department. The words "Army Medical Service", inserted by the editors of the United States Code, are omitted, since the Army Medical Service was not in existence during the time covered by the service described. The words "if the service was performed after" are substituted for the words "rendered subsequent to".

In clause (2), the word "receive", in 50: 1124 (b), is omitted as surplusage. The reference to sections 144—146 of title 32 is omitted, since those sections related to pay and allowances, not to the performance of duties, and were superseded by the Career Compensation Act of 1949, 63 Stat. 802 (37 U. S. C. 231 et seq.). The reference to section 186 of title 32 is omitted, since that section does not prescribe duty or service. The words "or for which he has waived such pay" are substituted for the words "or without pay as provided in section 971 of this title" for clarity. The words "in Federal service as a Reserve of the Army" are substituted for the words "in the service of the United States as Reserve members".

In clause (3), the words "by the appropriate Secretary" are omitted as surplusage. The words "in Federal service as a Reserve of the Army" are substituted for the words "in the service of the United States as Reserve members".

The word "member", before the words "of the Regular Army", are substituted for the words "officers and enlisted men" in 10: 456 and 32: 160a. The words "active duty (other than for training)" are substituted for the words "active military service * * * for extended military service" for clarity. Reference in 10: 456 and 32: 160a to retired pay is omitted as superseded by chapter 61 of this title (see opinion of the Comptroller General, B–100262, 25 April 1951, 30 Comp. Gen. 409). The references, in 32: 160a, to 10: 22—23, 24—26, and 30—36, are omitted as repealed by section 401 of the Army Organization Act of 1950, 64 Stat. 271. The reference to 10: 23a, in 32: 160a, is omitted as executed. So far as the references in 32: 160a apply to the pay and allowances, pensions, retirement pay, and other compensation for members of the Army National Guard of the United States on active duty, they are omitted as covered by 10: 456. With the exception of 32: 62 (4th proviso of last sentence), the references in 32: 160a do not refer to the training of members of the Army National Guard of the United States, and are therefore omitted from the revised section. repealed by act June 7, 1956, ch. 374, § 306 (5), 70 Stat. 254, to the extent that it authorized hospital benefits for dependents of members of the reserve components of the Armed Forces. See section 49 (a) of act Aug. 10, 1956, set out preceding section 101 of this title.

§ 3722. Members of C. M. T. C.; members of Army not covered by section 3721 of this title.

(a) Under such regulations as the President may prescribe, the following persons are entitled to the benefits of subsection (b):

(1) the hospitalization, rehospitalization, and medical and surgical care in a hospital and at his home appropriate for the treatment of his injury or disease until the resulting disability cannot be materially improved by further hospitalization or treatment;

(2) the basic pay and allowances, whether in money or in kind, to which he was entitled at the time when the injury was incurred or the disease contracted, during the period of his hospitalization or rehospitalization, but not for more than a total of six months after the end of his prescribed tour of duty or training;

3722 (b)	10: 455a (less 1st 73 words); 10: 455b (less 1st 55 words); 10: 455c (less 1st 63 words).	

In subsection (a), the words "the following persons * * * to the benefits of subsection (b)" are inserted for clarity. 10: 455a (words between 1st and 2d semicolons) is omitted as executed.

In subsection (a) (1), the words "Each Reserve of the Army" are substituted for the words "Members of the Army Reserve and members of the National Guard of the United States", in 10: 455a. The words "each officer who has no regular or reserve appointment" are inserted, since section 3491 of this title gives those officers the same benefits as reserve officers, when they are on active duty. The words "under proper orders", in 10: 455a, are omitted as surplusage.

In subsection (a) (2), the words "is injured" are substituted for the words "suffer personal injury", in 10: 455b. 10: 455b (words within parentheses) is omitted as surplusage.

In subsection (b), the words "So far as any benefit named in this subsection is not provided for him under section 3721 of this title" are inserted, since it is possible that the benefits provided by that revised section will, as to certain persons, overlap those provided by this revised section.

In subsection (b) (2), the word "basic" is inserted before the word "pay" to conform to the terminology of the Career Compensation Act of 1949, 63 Stat. 802 (37 U. S. C. 231 et seq.).

In subsection (b) (3), the word "during" is substituted for the words "for any period of", in 10: 455a. The words "they shall be entitled to" and "at Government expense", in 10: 455a, are omitted as surplusage.

AMENDMENTS

1958—Pub. L. 85–861, § 1 (92) (B), substituted "Members of C.M.T.C." for "Members of R.O.T.C. and C.M.T.C." in the catchline.

Subsec. (a). Pub. L. 85–861, § 1 (92) (C), eliminated provisions that related to members of the Reserve Officers' Training Corps in cl. (3).

§ 3723. When Secretary may require.

The Secretary of the Army may order the hospitalization, medical and surgical treatment, and domiciliary care, for as long as necessary, of any member of the Army on active duty, and may incur obligations with respect thereto, whether or not the member was injured, or contracted a disease, in line of duty, except in the case of a member treated in a private hospital, or by a civilian physician, while on leave of absence for more than 24 hours. The words "under such regulations as he may prescribe", in 10: 455e and 32: 164d, are omitted, since the Secretary has inherent authority to issue regulations appropriate to exercising his statutory functions. The reference to 10: 455a—455d and 32: 164a—164c, and the words "nor any other law of the United States shall be construed as limiting the power and authority", are omitted, since the revised section makes explicit the authority of the Secretary to require the prescribed hospitalization and care. The words "or in training, under the provisions of section 62—" are omitted as covered by the words "active duty". The words "in the active military service" are omitted as surplusage. With the exception of 32: 62 (4th proviso of last sentence), the references to 32: 62—65, 144—146, 183, and 186, in 10: 455e and 32: 164d, do not refer to members of the Army National Guard of the United States and are therefore omitted from the revised section. 10: 455e (1st proviso) and 32: 164d (1st proviso) are omitted since they apply only to the National Guard and are covered by section 320 of title 32.

The words "under such regulations as he may prescribe" are omitted, since the Secretary has inherent authority to issue regulations appropriate to exercising his statutory functions. The words "until July 1, 1942, the marriage of an officer shall not be a cause for revocation of commission" are omitted as executed. The word "appointment" is substituted for the word "commission", since the intent is to rescind the authority of a person to be an officer and not merely to revoke the written indicia of that authority. The word "regular" is inserted for clarity, since only regular officers are on the "active list". The word "discharge" is substituted for the words "revoke the commission", since the discharge of the officer would terminate his appointment. The words "hereafter", "on the active list", "at the date of said revocation", "initially commissioned after the date of this section", and "and each officer whose commission is so revoked shall be discharged from the Army" are omitted as surplusage.

In subsections (a) and (c), the words "under such regulations as he may prescribe" are omitted, since the Secretary has inherent authority to issue regulations appropriate to exercising his statutory functions.

Subsection (b) is inserted because of section 1161 of this title.

10: 941a (d) (1st sentence) is omitted as surplusage, since it is merely a statement of the general coverage of 10: 941a (d) and (e). The words "After that date which is six months after August 7, 1947" are omitted as executed. The words "unless provided otherwise by some provision of law", "heretofore or hereafter appointed", "under other provisions of law", "eliminated from the active list and", and "unless he is permanently appointed in a grade above that of major general before the later of such two dates" are omitted as surplusage. The words "the thirtieth day after" are substituted for the words "that date which is thirty days after the date upon which". The words "but not later than the date on which he becomes 60 years of age" are substituted for the words "until age sixty is reached", to make it clear that the Secretary can retire the officer between the time he is deferred and the time he reaches that age. For the same reason, the words "but not later than the date on which he becomes 64 years of age" are substituted for the words "until age sixty-four is reached". The words "computed under section 3927 (a) of this title" are inserted for clarity. The words "may defer the retirement under this section" are substituted for the words "may, in the discretion of * * * be retained on the active list". The words "except as provided by section 47a of title 5" are inserted, since that section controls the effective date of retirement under this title. The word "five" is substituted for the word "ten" to reflect the allocation of spaces covered by this section, between the Army and the Air Force, under section 208 (e) of the National Security Act of 1947 (5 U. S. C. 626c (e)). (See revision note for section 3922 of this title.)

AMENDMENTS

1966—Pub. L. 89-718 substituted "8301" for "47a".

§ 3924. Forty years or more: Army officers.

(a) Except as provided in section 3786 of this title, a commissioned officer of the Army who has at least 40 years of service computed under section 3926 of this title shall be retired upon his request.

(b) Any warrant officer of the Army who has at least 40 years of service computed under section 3926 (a) of this title shall be retired upon his request. (Aug. 10, 1956, ch. 1041, 70 Stat. 227.)

3924 (b)	10: 942 (less applicability to commissioned officers).	

In subsection (a), the words "except as provided in section 3786 of this title" are inserted, since, under that revised section, when board proceedings are pending against a commissioned officer, his right to retire under this revised section, which is otherwise absolute, is discretionary with the Secretary under that revised section.

In subsections (a) and (b), the words "or volunteer service, or both" are omitted as obsolete in accordance with an opinion of the Attorney General, 22 Ops. Atty.

Gen. 199, August 30, 1898, holding that such words refer to volunteer service in the Civil War. The words "upon his request" are substituted for the words "if he make application therefor to the President".

In subsection (b), the applicability of 10: 942 to warrant officers is based on an opinion of the Judge Advocate General of the Army (JAGA 1950/6951, 4 Jan. 1951), which holds that 10: 594 (less provisos) makes 10: 942 applicable to warrant officers.

SECTION REFERRED TO IN OTHER SECTIONS

§ 3925. Computation of years of service: voluntary retirement; regular enlisted members.

(a) For the purpose of determining whether a regular enlisted member of the Army may be retired under section 3914 or 3917 of this title, and of computing his retired pay under section 3991 of this title, his years of service are computed by adding all active service in the armed forces and service computed under section 3683 of this title.

(b) Time required to be made up under section 972 of this title may not be counted in determining years of service under subsection (a). (Aug. 10, 1956, ch. 1041, 70A Stat. 228; Sept. 2, 1958, Pub. L. 85-861, § 1 (97), 72 Stat. 1488.)

3925 (b)	No source.	Aug. 10, 1946, ch. 952, § 6 (b), 60 Stat. 996.

In subsection (a), the words "active service" are substituted for the word "service", in 10: 947, and "active Federal service performed", in 10: 958, for uniformity. The words "service computed under section 3683 of this title" are inserted, since a person entitled to count service under that revised section might cease to be a nurse or woman medical specialist and thereafter become entitled to retire under one of the revised sections referred to in subsection (a) of this revised section.

Subsection (b) is inserted because of section 3638 of this title and in accordance with long-standing interpretation of the effect of 10: 629 upon the computation of years of service for retirement.

AMENDMENTS

1958—Subsec. (b). Pub. L. 85-861 substituted "section 972 of this title" for "section 3638 of this title".

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 3914, 3917 of this title.

§ 3926. Computation of years of service: voluntary retirement; regular and reserve commissioned officers.

(a) For the purpose of determining whether an officer of the Army may be retired under section 3911, 3918, or 3924 of this title, his years of service are computed by adding—

(1) all active service performed as a member of the Army or the Air Force;

(2) all service in the Navy or Marine Corps that may be included in determining the eligibility of an officer of the Navy or Marine Corps for retirement;

(3) all service computed under section 3683 of this title; and

(4) if an officer of the Regular Army, all active service performed as an officer of the Philippine Constabulary.

(b) For the purpose of determining whether a commissioned officer of the Regular Army in the Medical Corps may be retired under section 3911, 3918, or 3924 of this title, his years of service are computed by adding to his service under subsection (a) all service performed as a contract surgeon, acting assistant surgeon, or contract physician, under a contract to serve full time and to take and change station as ordered.

(c) For the purpose of determining whether a commissioned officer of the Regular Army in the Dental Corps may be retired under section 3911, 3918, or 3924 of this title, his years of service are computed by adding to his service under subsection (a) all service as a contract dental surgeon or acting dental surgeon.

(d) For the purpose of determining whether a commissioned officer of the Army Nurse Corps or the Army Medical Specialist Corps may be retired under section 3911 of this title, all service computed under section 3683 of this title shall be treated as if it were service as a commissioned officer. 3926 (c)	10: 953a (less 1st sentence).	

Subsection (a) consolidates the various service computation provisions applicable to voluntary retirement of commissioned officers. Clause (1) is substituted for 10: 951. Clause (2) is substituted for 10: 951b. The words "pay period and", in 10: 951a, are omitted as superseded by section 202 of the Career Compensation Act of 1949, 63 Stat. 807 (37 U. S. C. 233). The words "longevity pay and", in section 7 of the act of June 18, 1878, ch. 263, 20 Stat. 150, are omitted for the same reason. The last sentence of section 7 of that act is omitted, since the distinction between limited and unlimited retired lists was abolished by section 201 of the act of June 29, 1948, ch. 708, 62 Stat. 1084. Clause (3) is inserted, since a person entitled to count service under section 3683 of this title might cease to be a nurse or woman medical specialist and thereafter become entitled to retire under one of the revised sections referred to in subsection (a) of this revised section.

In subsection (b), the words "as a member of the Medical Reserve Corps", in 10: 953a, are omitted as covered by subsection (a) (1). The words "are computed by adding to his service under subsection (a)" are substituted for the words "shall be credited to the same extent as service under a Regular Army commission".

Subsection (c) is substituted for 10: 953a (less 1st sentence).

§ 3963. Higher grade for service during certain periods: regular and reserve commissioned officers.

(a) A regular commissioned officer who is retired, or a reserve commissioned officer who is retired or to whom retired pay is granted, is entitled to a retired grade equal to the highest temporary grade in the Army in which he served on active duty satisfactorily, as determined by the Secretary of the Army, for not less than six months.

(b) Upon retirement, a member of the Regular Army in the Army Nurse Corps or Army Medical Specialist Corps who was (1) a member of the Army Nurse Corps established by the Act of July 9, 1918, ch. 143 (40 Stat. 879), a female dietitian or physical therapist appointed under the Act of December 22, 1942, ch. 805 (56 Stat. 1072), or (3) a female officer appointed under the Act of June 22, 1944, ch. 272 (58 Stat. 324), is entitled to a retired grade equal to the highest grade or relative rank in which she served on active duty satisfactorily, as determined by the Secretary, after September 8, 1940, and before July 1, 1946. § 3991. Computation of retired pay.

The monthly retired pay of a person entitled thereto under this subtitle is computed according to the following table. For each case covered by a section of this title named in the column headed "For sections", retired pay is computed by taking, in order, the steps prescribed opposite it in columns 1, 2, 3, and 4, as modified by the applicable footnotes. However, if a person would otherwise be entitled to retired pay computed under more than one pay formula of this table or the table in section 1401 of this title, he is entitled to be paid under the applicable formula that is most favorable to him. Section references below are to sections of this title.

Formula	For sections	Column 1 Take	Column 2 Multiply by	Column 3 Add	Column 4 Subtract
A	3883 3884 3885 3886 3913 3915 3916 3919 3921 3922 3923	Monthly basic pay [2] of member's retired grade.[1]	2½% of years of service credited to him under section 3888 or 3927(b) whichever is applicable.[4]	Amount necessary to increase product of columns 1 and 2 to 50% of pay upon which computation is based.	Excess over 75 % of pay upon which computation is based.
B	3911 3918 3920 3924	Monthly basic pay [2] of member's retired grade.[1]	2½% of years of service credited to him under section 1405 of this title.[4]		Excess over 75% of pay upon which computation is based.
C	3914	Monthly basic pay [3] to which member was entitled on day before he retired.	2½% of years of service credited to him under section 3925.[4]	10% of product of columns 1 and 2 for extraordinary heroism in line of duty.[5]	Excess over 75% of pay upon which computation is based.
D	3917	Monthly basic pay [3] to which member was entitled on day before he retired.	2½% of years of service credited to him under section 3925.[4]		Excess over 75% of pay upon which computation is based.

[1] For the purposes of this section, determine member's retired grade as if section 3962 (c) did not apply and, for an officer who has served as Chief of Staff, compute at the highest rates of basic pay applicable to him while he served in that office.

[2] Compute at rates applicable on date of retirement.

[3] Compute at rates applicable on date of retirement, or if the member has served as sergeant major of the Army, compute at the highest basic pay applicable to him while he so served, if such basic pay is greater.

[4] Before applying percentage factor, credit a part of a year that is six months or more as a whole year, and disregard a part of a year that is less than six months.

[5] The Secretary of the Army's determination as to extraordinary heroism is conclusive for all purposes.

Aug. 7, 1947, ch. 512, §§ 504 (d) (1st proviso), 514 (a) (3) (less 31st through 42d words; and less proviso, less applicability to retired grade), 514 (e) (clause (1), less 1st 25, and 59th through 93d, words; and less 1st proviso, as applicable to retired grade), 520 (b) (proviso), 61 Stat. 888, 902, 905, 912. June 12, 1948, ch. 449, § 103 (b) (less 1st 6, 9th through 54th, and last 13, words), 62 Stat. 357. June 29, 1948, ch. 708, §§ 203 (a) (34 words before proviso, and proviso), 203 (d) (last 40 words), 62 Stat. 1085.

In the introductory paragraph, the applicability of the rule stated in the third sentence to situations not expressly covered by the laws named in the source statutes above is a practical construction that the rule must be reciprocally applied in all cases.

In formula B, the words "basic pay" are substituted for the words "base and longevity pay" to conform to the terminology of the Career Compensation Act of 1949, 63 Stat. 802 (37 U. S. C. 231 et seq.). The words "his retired grade" are substituted for the words "permanent grade held at time of retirement" to reflect the right to higher retired grade when qualified under other provisions of law. 10: 941a (e) (last proviso of clause (1)) is omitted, since, under section 202 of the Career Compensation Act of 1949, 63 Stat. 807 (37 U. S. C. 233), the

active duty pay of all members of the Army is based upon years of service.

In formula C, the computation is based on monthly pay instead of annual pay to conform to the other formulas of the revised section. The words "basic pay" are substituted for the words "active duty base and longevity pay", and the words "in determining his basic pay" are substituted for the words "for longevity pay purposes", to conform to the terminology of the Career Compensation Act of 1949, 63 Stat. 802 (37 U. S. C. 231 et seq.). The words "Monthly basic pay of member's retired grade" are substituted for the words "the rank upon which they are retired", in 10: 971, and "rank with which retired", in 10: 971b, to reflect their right to advancement on the retired list. 10: 971 now applies only when the retiring officer has 30 or more years of service which may be credited in computing his retired pay. 10: 971b (2d proviso) is omitted, since, under section 202 of the Career Compensation Act of 1949, 63 Stat. 807 (37 U. S. C. 233), the pay of all members is based upon cumulative years of service. 10: 971b (4th proviso) is omitted as executed. 10: 971b (last proviso) is omitted, since the distinction between limited and unlimited retired lists was abolished by section 201 of the act of June 29, 1948, ch. 708, 62 Stat. 1084. Sections 3918, 3920, and 3924 are included under this formula, since it achieves the same result as is reached on a basis of 30 years multiplied by 2½ percent, and simplifies the table.

In formulas D and E, the words "credited under section 3925" are substituted for the words "active Federal service", since that revised section makes explicit the service covered. The act of August 10, 1946, ch. 952, § 6 (c), 60 Stat. 996, is not contained in 10: 948. It is also omitted from the revised section as executed. 10: 980 now applies only when the retiring enlisted member has at least 30 years of service which may be credited in computing his retired pay. However, as noted above, 10: 980 is the only provision of law applicable to cases in which the retiring member has at least 30 years of service. The act of June 16, 1942, ch. 413, § 19 (63d through 75th words of 2d par.), 56 Stat. 369, repealed so much of the act of March 2, 1907, ch. 2513, 34 Stat. 1217, as provided allowances for enlisted men on the retired list. The repeal of section 19 of the act of June 16, 1942, by section 531 (b) (34) of the Career Compensation Act of 1949, 63 Stat. 839, did not revive that portion of the act of March 2, 1907, which had been repealed by the act of June 16, 1942. Accordingly, the act of March 2, 1907, as thus modified by the act of June 16, 1942, is used as the basis for formula E.

Footnote 2 reflects the long-standing construction of those provisions dealing with computation of retired pay which do not specifically provide that the member is entitled to compute his retired pay on the basis of the monthly basic pay to which he would be entitled if he were on active duty in his retired grade. Except in cases covered by formula C the pertinent basic computation provisions for such retirement either provide for computation of retired pay on the same basis as the provisions dealing with higher retired grade, or the basic retirement provisions were themselves enacted after the provisions authorizing higher retired grade. The provisos of 10:1002 and 1005 are omitted as surplusage, since no formula for the computation of retired pay includes inactive service on the retired list as a credit.

The words "at rates applicable on date of retirement and adjust to reflect later changes in permanent rates", in footnote 2; and all of footnote 4; are based on the source statutes incorporated in the formulas to which footnotes 2 and 4 apply.

In footnote 4, the words "and disregard a part of a year that is less than six months" are made applicable to formulas A—E although this part of the rule is expressed only as to formula B, in 10: 941a (e) (1). The legislative history of the Career Compensation Act of 1949 (Hearings before the Committee on Armed Services of the Senate on H. R. 5007, 81st Congress, first session, p. 313, July 6, 1949) indicates that the provisions, upon which formulas A and C—E are based, should be construed to require that a part of a year that is less than six months be disregarded.

AMENDMENTS

1967—Pub. L. 90–207 inserted ", or if the member has served as sergeant major of the Army, compute at the highest basic pay applicable to him while he so served, if such basic pay is greater" following "retirement" in footnote 3 of the table.

1963—Pub. L. 88–132 substituted in column 1 of Formula A in the table "Monthly basic pay of member's retired grade" for "Monthly basic pay to which member would be entitled if he were on active duty in his retired grade" and eliminated from footnote 2 to such table "and adjust to reflect later changes in applicable permanent rates. 4331 (b)	10: 1073.	

In subsection (a), reference to the senior instructors of artillery, cavalry, and infantry, and the master of the sword, in 10: 1061, are omitted as obsolete. The duties of the former master of the sword are presently performed by the director of physical education, detailed to that duty by the superintendent of the Academy from officers assigned to duty at that installation by the Secretary under section 3012 (e) of this title. The words "and one assistant professor", in 10: 1061, are omitted as superseded by section 4333 of this title. The words "shall be constituted" are omitted as surplusage. The Act of June 8, 1926, ch. 492 (last proviso of 1st par.), 44 Stat. 703, is not contained in 10: 1077a. It is also omitted from the revised section as executed.

The word "permanent" is inserted in subsection (a) (4), pursuant to 10: 1087, which, by adding one permanent professor for each of the subjects of instruction named in clauses (A)—(I), inclusive, implies that there already was a permanent professor for each of those subjects. The subjects of instruction set forth in clauses (A)—(I), inclusive, are those for which a professor was authorized before the enactment of the source statute for 10: 1087. The names of the subjects to be taught at the Academy are changed, where necessary, to conform to the names of those presently taught, pursuant to regulations and orders issued under the general authority for the change of titles of departments of instruction, contained in section 4332 of this title. These changes, published in general orders by authority of the Secretary of War and the Secretary of the Army, are as follows:

In clause (4) (E), the word "Mechanics" is substituted for the words "natural and experimental philosophy", in 10: 1061, pursuant to General Orders No. 3, Hq USMA, 11 February 1943.

In clause (4) (G), the words "Military Topography and Graphics" are substituted for the word "drawing", in 10: 1061, pursuant to General Orders No. 3, Hq USMA, 11 February 1943.

In clause (4) (H), the words "Physics and Chemistry" are substituted for the word "physics", in 10: 1078a, pursuant to General Orders No. 38, Hq USMA, 29 June 1946.

In clause (4) (I), the words "Social Sciences" are substituted for the words "economics, government, and history", in 10: 1077a, pursuant to General Orders No. 13, Hq USMA, 22 April 1947.

In clause (4) (B) and (I), the provisions of 10: 1077 and 1077a relating to the appointment of a civilian in the department of English, and a professor of economics, government, and history, by the President, by and with the advice and consent of the Senate, are omitted as executed. In subsection (a), the word "members" is substituted for the words "officers and enlisted men" in 10: 1237. Clause (2) is substituted for 10: 904. 32: 156 is omitted as covered by 10: 904, since the words "officers of the Army" necessarily cover all persons named in 32: 156. The words "the Secretary of the Army or a person designated by him" are substituted for the words "by whatever branch, office, or officers of the Army the Secretary of the Army may from time to time designate", inserted by the Editors of the United States Code. R. S. 1114 which provided that this function should be invested in the Inspector General was not amended in this respect by section 402 (a) of the Army Organization Act of 1950 (64 Stat. 272). However, these functions have now been transferred to the Secretary of the Army or a person designated by him. (See memorandum of the Secretary of Defense, dated October 29, 1954, subject "Transfer of Authority from the Inspector General to the Secretary of the Army to Designate Subsistence Articles for Sale," and opinion of the Judge Advocate General of the Army (JAGA 1954/9712, 2 December 1954).) The words "Except for articles and items acquired through the use of working capital funds under sections 172—172j of title 5" are inserted to reflect Title IV of the National Security Act of 1947, as amended (63 Stat. 585), which authorized the Secretary of Defense to prescribe regulations governing the use and sale of certain inventories at cost, including applicable administrative expenses. (See opinion of the Assistant General Counsel (Fiscal Matters) of the Office of the Secretary of Defense, January 4, 1955.)

In subsection (b), the first sentence states expressly the rule which is implicit in 10: 1238. The word "members" is substituted for the words "officers and enlisted men". The words "shall be understood, in all cases of such sales" are omitted as surplusage. The last sentence is inserted to reflect Title IV of the National Security Act of 1947, as amended (63 Stat. 585), which authorized the Secretary of Defense to prescribe regulations governing the use and sale of certain inventories at cost, including applicable administrative expenses. (See opinion of the Deputy General Counsel of the Office of the Secretary of Defense, March 28, 1956.)

In subsection (c), the word "members" is substituted for the words "officers and enlisted men". The words "prices at which like property is sold to" are substituted for the words "same price as is charged the".

In subsections (c) and (d), the words "other armed forces" are substituted for the words "Navy and Marine Corps", since such sales are authorized to members of the Coast Guard by section 144 (b) of title 14.

In subsection (d), the words "other than subsistence supplies" are inserted, since the sale of subsistence supplies is covered by subsection (c).

In subsection (e), the words "a person who has been discharged" are substituted for the words "discharged officers and enlisted men". The words "Navy * * * or Marine Corps", omitted from the 1952 Edition of the United States Code, are inserted to conform to the source statute. The words "may buy" are substituted for the words "shall * * * be permitted to purchase". The words "at the prices at which like property is sold" are substituted for the words "at the same price as charged". The word "member" is substituted for the words "officers and enlisted men". The words "while undergoing such care and treatment" are omitted as surplusage.

In subsection (f), the words "person who has been discharged" are substituted for the words "former members * * * who have been separated therefrom". The words "at the prices at which like articles are sold to members" are inserted to conform to the last sentence of subsection (a) and subsection (e).

In subsection (g), the words "regulations to be prescribed by the Secretary" are substituted for the words "Army Regulations". The words "of the Government" are omitted as surplusage. 10: 1253 (last 22 words of 1st sentence) is omitted as surplusage. The words "or to another executive department of the Government" are omitted as superseded by section 7 of the Act of May 21, 1920, ch. 194, as amended (31 U. S. C. 686). The provisions of 10: 1253 relating to computation of costs are omitted to reflect Title IV of the National Security Act of 1947, as amended (63 Stat. 585), which authorized the Secretary of Defense to prescribe regulations governing the use and sale of certain inventories at cost, including applicable administrative expenses. (See opinion of the Assistant General Counsel (Fiscal Matters) of the Office of the Secretary of Defense, January 4, 1955.)

In subsection (h), the word "outside" is substituted for the words "beyond the continental limitations". The words "or in Alaska" are omitted, since, under section 101 (1) of this title, the words "United States" are defined to include only the States and the District of Columbia. The word "continental", after the words "within the", is omitted for the same reason. The last sentence is substituted for 10: 1241 (proviso).

In subsection (i), 10: 1196 (last 30 words) is omitted as superseded by the act of April 27, 1914, ch. 72 (last proviso under "Subsistence of the Army"), 38 Stat. 361. The words "So much of the" and "as may be necessary" are omitted as surplusage. The words "members * * * on active duty, for the use of themselves and their families" are substituted for the words "officers for the use of themselves and their families, and to commanders of companies or other organizations, for the use of the enlisted men of their companies or organizations", to conform to 10: 1237 and 1238. Those sections provide the basic authority for procurement and sale of subsistence supplies to all members. This interpretation conforms to established administrative practice under those sections. The word "supplies" is substituted for the word "stores".

AMENDMENTS

4685 (b)	50: 62a (last par., less proviso).	

In subsection (a), the words "at his discretion" and "as may be available" are omitted as surplusage. The word "lend" is substituted for the word "issue" to reflect the intent of the section. 50: 62a (1st 13 words of proviso) is omitted as surplusage. The words "and which is still in effect" are inserted for clarity.

In subsection (b), the words "to the United States" are omitted as surplusage. The words "except property properly expended" are inserted for clarity.

The words "subject to such regulations as he may prescribe" are omitted, since the Secretary has inherent authority to issue regulations appropriate to exercising his statutory functions. The words "to any of the 'National Homes for Disabled Volunteer Soldiers' already established or hereafter established and", in the act of February 8, 1889, ch. 116, 25 Stat. 657, are not contained in 50: 66 (1st sentence). They are also omitted from the revised section, since the National Homes for Disabled Volunteer Soldiers were dissolved by the act of July 3, 1930, ch. 863, 46 Stat. 1016. The acts of March 3, 1899, ch. 643 (1st proviso under "Ordnance Department"), 30 Stat. 1073; and May 26, 1900, ch. 586 (1st proviso under "Ordnance Department"), 31 Stat. 216, as amended, relating to disposal of ordnance to "Homes for Disabled Volunteer Soldiers" by the Chief of Ordnance, became inoperative when the Homes were dissolved. Although section 402 (e) of the Army Organization Act of 1950, ch. 383, 64 Stat. 273, amended the act of May 26, 1900, it did not have the effect of reviving that act. The word "give" is substituted for the word "deliver" to express more clearly the intent of the section. The words "serviceable" and "as may be on hand undisposed of" are omitted as surplusage. The word "may" is substituted for the words "is authorized and directed", since section 4684 of this title provides an alternative method for the disposal of obsolete cannon.

4743	10: 749.	Mar. 3, 1911, ch. 209 (5th proviso under "Transportation of The Army and Its Supplies"), 36 Stat. 1051.

Since its legislative history shows that it was enacted because the Comptroller of the Treasury had disallowed certain accounts for travel expenses (46 Congressional Record, pp. 905—913, 4643—4645), the source statute is restated to preclude future disallowances. The words "official and military" are omitted as surplusage.

§ 4744. Persons and supplies: sea transportation.

Whenever the Secretary of the Army considers that space is available, the following persons and supplies may be transported on vessels operated by Army transport agencies or, within bulk space allocations made to the Department of the Army, on vessels operated by any military transport agency of the Department of Defense:

(1) Members of the Navy, Marine Corps, or Coast Guard.

(2) Officers and employees of the Department of the Army, the Department of the Navy, the Department of the Air Force, or the Coast Guard.

(3) Supplies of the Department of the Navy.

(4) Members of Congress.

(5) Other officers of the United States traveling on official business.

(6) Secretaries and supplies of the Armed Services Department of the Young Men's Christian Association.

(7) Officers and employees of the Commonwealth of Puerto Rico on official business.

(8) The families of persons described in clauses (1), (2), (4), (5), and (7).

Reference to the Philippine government, contained in the source statute for 10: 1371, is omitted, since the Philippine Republic now has the status of a foreign country and only possessions of the United States are intended to be covered by the source statute. The words "Armed Services Department" are substituted for the words "Army and Navy Department", in 10: 1370, to reflect the present name of that Department of the Young Men's Christian Association. AMENDMENTS

1960—Pub. L. 86-624 eliminated former cl. (8), and "clause (7) or (8)" for "clause (8) or (9)" in the closing sentence.

§ 4745. Civilian passengers and commercial cargoes: transports in trans-Atlantic service.

(a) Whenever space is unavailable on commercial lines and is available (1) on vessels operated by Army transport agencies, or (2) within bulk space allocations made to the Department of the Army on vessels operated by any transport agency of the Department of Defense, civilian passengers and commercial cargo may, in the discretion of the Secretary of the Army and the chairman of the Federal Maritime Board, be transported on those vessels. Rates for transportation under this section may not be less than those charged by commercial lines for the same kinds of service.

(b) Amounts received under this section shall be covered into the Treasury as miscellaneous receipts. (Aug. 10, 1956, ch. 1041, 70A Stat. 267.)

In subsection (a), the words "Federal Maritime Board" are substituted for the words "United States Maritime Commission", since the functions of the chairman of that commission were transferred to the chairman of the Board by 1950 Reorganization Plan No. 21, effective May 24, 1950, 64 Stat. 1273. The words "the same kinds of service" are substituted for the words "the same class of accommodations". The words "shipments of" and "between the same ports" are omitted as surplusage. Persons residing in Alaska who are and have been employed there by the United States for at least two years, and their families, may be transported on vessels or airplanes operated by Army transport agencies or, within bulk space allocations made to the Department of the Army, on vessels or airplanes operated by any military transport agency of the Department of Defense, if—

(1) the Secretary of the Army considers that accommodations are available;

(2) the transportation is without expense to the United States;

(3) the transportation is limited to one round trip between Alaska and the United States during any two-year period, except in an emergency such as sickness or death; and

(4) in case of travel by air—

(A) the Civil Aeronautics Board has not certified that commercial air carriers of the United States that can handle the transportation are operating between Alaska and the United States; and

4746	10: 1371a.	Nov. 21, 1941, ch. 483; restated July 25, 1947, ch. 321, 61 Stat. 423.

Before the enactment of the National Security Act of 1947, the transport functions covered by this section were performed only by the Army. Under section 2 (a) (3) of the National Security Act (as it existed before August 10, 1949), the sea and air transportation functions of the Army, Navy, and Air Force were respectively consolidated into the "Military Sea Transportation Service", under the Department of the Navy, and the "Military Air Transport Service", under the Department of the Air Force. Instead of having space on its own transport vessels and airplanes, the Army is now allotted bulk space on vessels and airplanes operated by those transport services. The words "or, within bulk space allocations made to the Department of the Army, on vessels or airplanes operated by any military transport agency of the Department of Defense" are inserted, in accordance with an opinion of the Judge Advocate General of the Army (JAGA 1953/5885, 22 July 1953), to make clear that the rule applicable to Army vessels and airplanes applies to the bulk space allocated to the Army. Since the authority to perform transportation functions could again be transferred as between the military departments, the reference to "vessels or airplanes of Army transport agencies" is retained. The word "considers" is substituted for the words "in the opinion of". The words "Persons residing in Alaska who are and have been employed there by the United States" are substituted for the words "employees of the United States, residing in Alaska, who have been in such employment". The word "commercial" is substituted for the word "civil" for clarity. The words "from and after November 21, 1941", "and the carriage of all such air traffic shall be terminated", "dire", "the privilege herein granted", and "as to each eligible individual" are omitted as surplusage. The words "the continental" are omitted, since section 101 (1) of this title defines the United States as "the States and the District of Columbia".

§ 4747. Passengers and merchandise to Guam: sea transport.

Whenever space is available, passengers, and merchandise produced in the United States, or the Territories, Commonwealths, and possessions, and consigned to residents and mercantile firms of Guam, may be transported to Guam on vessels operated by Army transport agencies or, within bulk space allocations made to the Department of the Army, on vessels operated by any transport agency of the Department of Defense, under regulations and at rates to be prescribed by the Secretary of the Army. § 4749. Property: for United States surveys.

Under regulations governing the transportation of Army supplies, any branch, office, or officer designated by the Secretary of the Army shall receive, transport, and be responsible for property turned over by the officers or agents of any United States survey, for the National Museum or for a department of the United States or field office thereof. The amount paid by the Army for transportation under this section shall be refunded to the Army by the National Museum or the department to which the property is consigned. The words "other property of the United States" are substituted for the words "any Government property". Clause (1) relates only to "public lands", since only they may be "reserved from entry".

§ 4774. Construction of quarters: limitations on space and cost.

(a) In the construction of family quarters from appropriated funds for members of the Army, the following are the maximum limitations on net floor area for each unit:

Grade	*Square feet*
General officer	2,100
Colonel	1,670
Major or lieutenant colonel	1,400
Office below major	1,250
Enlisted member	1,080

In this section, "net floor area" means the space inside the exterior walls, excluding basement, service space instead of basement, attic, garage, and porches.

(b) The maximum limitations prescribed by subsection (a) are increased 10 percent for quarters of the commanding officer of any station, air base, or other installation, based on the grade authorized for that position.

(c) The maximum limitations for family quarters constructed from appropriated funds for civilians are the same as those for members of the Army of comparable responsibility, grade, and pay, as determined by the Secretary of the Army.

(d) Except when built by members of the Army, no permanent barrack, quarters, building, or other permanent structure may be built unless a detailed estimate of its cost has been submitted to Congress and a specific appropriation has been made therefor. No one may build such a structure without specific authority of Congress if the cost is more than $100,000.

(e) A limitation upon the cost of quarters built for members of the Army does not apply to expenditures for work and equipment outside those quarters, including expenditures for—

(1) the furnishing of electricity, gas, water, and sewage disposal;

(2) roads and walks; and

(3) grading and drainage.

(f) If the Secretary of Defense, or his designee, determines, on the basis of a survey of the family housing needs at any installation where the construction of family housing is authorized, that the construction of four-bedroom units for enlisted men is required, such units may be constructed with a net floor area of one thousand two hundred and fifty square feet or less.

(g) If the Secretary of Defense, or his designee, determines, on the basis of a survey of the family housing needs at an installation were the construction of family housing is authorized, that the construction of four-bedroom units for officers holding grades below major is required, such units may be constructed with a net floor area of one thousand four hundred square feet or less.

(h) The maximum limitations prescribed by subsections (a), (f), and (g) may be increased up to 15 per centum if the Secretary of Defense, or his designee, determines that such increase is in the best interest of the Government to permit award of a turnkey construction contract for family housing to the contractor offering the most satisfactory proposal. The word "anything" is substituted for the words "any matter or circumstance". The words "properly used" are substituted for the words "legally used and appropriated". The words "of the case" are omitted as surplusage.

§ 4839. Settlement of accounts: oaths.

The Secretary of the Army may detail any employee of the Department of the Army to administer oaths required by law in the settlement of an officer's accounts for clothing and other military supplies. An oath administered under this section shall be without expense to the person to whom it is administered. (Aug. 10, 1956, ch. 1041, 70A Stat. 274.)

4839	10: 1303.	R. S. 225 (1st sentence).

The words "and other military supplies" are substituted for the words "camp and garrison equipage, quartermaster's stores, and ordnance" to conform to section 4838 of this title. The words "person to whom administered" are substituted for the words "parties taking them". The words "for the purpose of" are omitted as surplusage.

§ 4840. Final settlement of officer's accounts.

Before final payment upon discharge may be made to an officer of the Army who has been accountable or responsible for public property, he must obtain a certificate of nonindebtedness to the United States from each officer to whom he was accountable or responsible for property. He must also make an affidavit, certified by his commanding officer to be correct, that he is not accountable or responsible for property to any other officer. An officer who has not been responsible for public property must make an affidavit of that fact, certified by his commanding officer. Compliance with this section warrants the final payment of the officer concerned. (Aug. 10, 1956, ch. 1041, 70A Stat. 274.)

4840	10: 878.	Jan. 12, 1899, ch. 46, § 2, 30 Stat. 784.

The words "Before final payment upon discharge may be made" are substituted for the words "shall warrant their final payment". The words "at any time" are omitted as surplusage. The word "must" is substituted for the words "shall be required * * * to". The words "He must also make" are substituted for the words "accompanied by". The words "from each officer to whom

he was accountable or responsible for property" are substituted for the words "from only such of the bureaus of the Department of the Army to which the property for which they were accountable or responsible pertains", since there is no longer a bureau structure within the Department of the Army. The words "that he is not accountable or responsible for property to any other officer" are substituted for the words "accompanied by the affidavits of officers, of nonaccountability or nonresponsibility to other bureaus of the Department of the Army", for the same reason. The reference to certificates from the General Accounting Office is omitted as obsolete. The last sentence is substituted for 10: 878 (last 18 words). The last proviso of section 2 of the act of January 12, 1899, ch. 46, 30 Stat. 784, is not contained in 10: 878. It is also omitted from the revised section, since it related to authority of mustering officers to administer oaths and the general authority to administer oaths is now contained in section 936 of this title (article 136 of the Uniform Code of Military Justice).

§ 5011. Composition.

The Department of the Navy is separately organized under the Secretary of the Navy. It operates under the authority, direction, and control of the Secretary of Defense. It is composed of the executive part of the Department of the Navy; the Headquarters, United States Marine Corps; the entire operating forces, including naval aviation, of the United States Navy and of the United States Marine Corps, and the reserve components of those operating forces; and all field activities, headquarters, forces, bases, installations, activities, and functions under the control or supervision of the Secretary of the Navy. It includes the United States Coast Guard when it is operating as a service in the Navy. (Aug. 10, 1956, ch. 1041, 70A Stat. 277; Sept. 7, 1962, Pub. L. 87-651, title II, § 212, 76 Stat. 524.)

HISTORICAL AND REVISION NOTES

The act of July 26, 1947, ch. 343, as amended (5 U. S. C. 411a (a)) which is the National Security Act of 1947, defined "Department of the Navy". The acts of Mar. 5, 1948, ch. 98 (5 U. S. C. 423a (a)), and Aug. 2, 1946, ch. 756 (5 U. S. C. 421g) is defined "Naval Establishment". The terms "Department of the Navy" and "Naval Establishment" are considered to be synonymous. TRANSFER OF FUNCTIONS

The Department of Defense Reorganization Order, eff. May 1, 1966, 31 F.R. 7188, issued by the Secretary of Defense, abolished the statutory basis for the Office of Naval Material and the Offices of Chief of Naval Material and Vice Chief of Naval Material, the Bureau of Naval Weapons, the Bureau of Ships, the Bureau of Supplies and Accounts, the Bureau of Yards and Docks, and the offices of the chief, deputy chief, and other officials in the abolished bureaus, and transferred their functions to the Secretary of the Navy, giving him authority to assign any transferred functions or authorize their performance by other officers, offices, agencies, or personnel of the Department of the Navy. See note set out under section 5111 of this title.

§ 5083. Chief of Naval Operations: retirement.

An officer who is retired while serving as Chief of Naval Operations, or who, after serving at least two and one-half years as Chief of Naval Operations, is retired after completion of that service while serving in a lower rank or grade, may, in the discretion of the President, be retired with the grade of admiral. The retired pay of such an officer shall be computed at the highest rates of basic pay applicable to him while he served in that office. (Aug. 10, 1956, ch. 1041, 70A Stat. 282; May 20, 1958, Pub. TRANSFER OF FUNCTIONS

The Department of Defense Reorganization Order, eff. May 1, 1966, 31 F.R. 7188, issued by the Secretary of Defense, abolished the statutory basis for the Office of Naval Material and the Offices of Chief of Naval Material and Vice Chief of Naval Material, the Bureau of Naval Weapons, the Bureau of Ships, the Bureau of Supplies and Accounts, the Bureau of Yards and Docks, and the offices of the chief, deputy chief, and other officials in the abolished bureaus, and transferred their functions to the Secretary of the Navy, giving him authority to assign any transferred functions or authorize their performance by other officers, offices, agencies, or personnel of the Department of the Navy. See note set out under section 5111 of this title.

§ 5133. Bureau Chiefs and Judge Advocate General: rank; pay and allowances; retirement.

(a) Unless appointed to a higher grade under another provision of law, an officer of the Navy, while serving as a chief of bureau or the Judge Advocate General, has the rank of rear admiral. Unless appointed to a higher grade under another provision of law, an officer of the Marine Corps, while serving as Judge Advocate General, has the rank of major general.

(b) Except for an officer who is serving or has served in the grade of vice admiral under section 5137(a) of this title, an officer who is retired while serving as a chief of bureau or the Judge Advocate General, or who, after serving at least two and one-half years as chief of bureau or the Judge Advocate General, is retired after completion of that service while serving in a lower rank or grade, may, in the discretion of the President, be retired with the grade of rear admiral or major general, as appropriate, and with retired pay based on that grade. If he is retired with the grade of rear admiral, he is entitled to the retired pay of a rear admiral in the upper half of that grade. An officer who is serving or

has served in the grade of vice admiral under section 5137(a) of this title may, upon retirement, be appointed by the President, by and with the advice and consent of the Senate, to the highest grade held by him while on the active list and with retired pay based on that grade.

(c) Except in time of war, any officer of a staff corps who has served as a chief of bureau for a full term is exempt from sea duty. (Aug. 10, 1956, ch. 1041, 70A Stat. 285; Aug. 18, 1959, Pub. 5133 (c)	34 U. S. C. 225.	R. S. 1436.

In subsection (a), the language that incorporates the rank, pay, and allowances of chiefs of bureaus of the War Department for chiefs of bureaus is executed. Creation of the Department of the Air Force by the National Security Act of 1947, and the saving provisions in § 305 of that act, would relate chiefs of bureaus of the Navy to the corresponding officers of both the other military departments. Since there is now positive organizational law for both of those departments providing the grades of the departmental officers, and, since in the reorganization of the departments, there is no precise counterpart of the chief of a Navy bureau, it is inappropriate to continue the incorporation by reference. Subsection (a), therefore, provides that bureau chiefs are entitled to have the rank of rear admiral with pay and allowances of a rear admiral in the upper half, which, under § 516 of the Officer Personnel Act of 1947, corresponds with major general. The subsection also recognizes the possibility of appointing an officer of the Marine Corps as Chief of the Bureau of Aeronautics by providing that such an appointee has the rank, pay, and allowances of a major general.

AMENDMENTS

1966—Pub. L. 89-718 inserted reference to the Judge Advocate General in the section catchline, substituted "Judge Advocate General" for "Chief of the Bureau of Naval Weapons", inserted "or the Judge Advocate General" after "chief of bureau" in subsec. (a), and "or the Judge Advocate General" after "chief of bureau" in subsec. (b).

1965—Subsec. (b). Pub. 1962—Subsec. (a). Pub. L. 87-649 repealed provisions which prescribed the pay and allowances of a chief of bureau and of the Chief of the Bureau of Naval Weapons, in the Marine Corps. See section 202 of Title 37, Pay and Allowances of the Uniformed Services.

5137 (b)	5 U. S. C. 451 (less last 10 words).	R. S. 1375 (less last 10 words); Feb. 27, 1877, ch. 69, § 1, 19 Stat. 244.

In subsection (a) the words "from officers on the active list of the Navy in the Medical Corps" are substituted for the words "from the list of Surgeons of the Navy" to conform to present statutory terminology, and the words "or from officers having the rank of captain in the staff corps of the Navy" are omitted as obsolete in view of the subsequent changes in staff corps grades and the establishment of grades and ranks higher than captain in the staff corps. R. S. 421 and 426 were derived from the act of July 5, 1862, ch. 134, 12 Stat. 510, and the act of Mar. 3, 1871, ch. 117, § 10, 16 Stat. 537. The act of July 5, 1862, provided that the Chief of the Bureau of Medicine and Surgery should be appointed from the list of surgeons in the Navy. At that time the senior medical officers were "surgeons" who "ranked with" commanders. Next junior to them were "surgeons" who "ranked with" lieutenants. The rank of lieutenant commander did not exist. The act of Mar. 3, 1871, established five grades in the Medical Corps of which two, medical director and medical inspector, were higher than the grade of surgeon. Medical directors were given the relative rank of captain, medical inspectors the relative rank of commander, and surgeons the relative rank of lieutenant commander or lieutenant. The 1871 act further provided that chiefs of bureaus might be appointed from officers having the relative rank of captain in the staff corps. This provision was probably intended to insure that the assignment of new grades and titles to senior staff corps officers should not be construed as a bar to their appointment as bureau chiefs. However, it was interpreted by the Commissioners who drafted the Revised Statutes as setting up a new category of officers from which bureau chiefs could be appointed, and it was therefore stated, in R. S. 421, as an alternative to each of the other categories specified for the various Bureaus in the 1862 act and reenacted in R. S. 422—426. Thus the Chief of the Bureau of Medicine and Surgery could be appointed from surgeons, who had the relative rank of lieutenant commander or lieutenant in the Medical Corps, or from officers having the relative rank of captain in the Medical Corps, Pay Corps, or Engineer Corps. Section 405 of the Officer Personnel Act of 1947 (34 U. S. C. 10a) abolished the grade of surgeon and other staff corps grades and replaced them with grades having the same titles as the grades and ranks in the line. Officers who were "surgeons" are now "lieutenant commanders and lieutenants in the Medical Corps." If this literal translation is made in R. S. 426 and the eligibility of all staff corps captains, as stated in R. S. 421, is retained, an absurd result is reached; i. e., lieutenants, lieutenant commanders, and captains in the Medical Corps are eligible for appointment as Chief of the Bureau of Medicine and Surgery; but commanders and rear admirals in that corps are ineligible; captains, but not rear admirals, in other staff corps are eligible by virtue of their rank alone, regardless of their lack of training in medicine. It appears, therefore, that the only reasonable meaning that can be given to R. S. 421 and 426 at the present time is that the Chief of the Bureau of Medicine and Surgery must be an officer of the Medical Corps.

In subsection (b) the words "Deputy Chief of the Bureau" are substituted for the words "assistant to the Bureau" for uniformity. The words "An officer on the active list of the Navy in the Medical Corps" are substituted for the words "A surgeon, assistant surgeon, or passed assistant surgeon" to conform to present statutory terminology and to decribe clearly the class of officers eligible for detail under this subsection. When the

source statute was enacted there was no class of officers exactly corresponding to officers of the present Naval Reserve, and retired officers could be called to active duty only in time of war, so that the detailing of an officer not on the active list as assistant to the bureau chief was probably not contemplated. Further, since the assistant or deputy must at times perform the duties of the chief, it is reasonable to assume that he was intended to be in the same category of officers. Later statutes relating to the Assistant Chiefs of the Bureau of Aeronautics and the Bureau of Ships, enacted at a time when there were Reserve officers and when retired officers could be called to duty at any time with their consent, specify that the assistant chiefs shall be officers on the active list.

AMENDMENTS

AMENDMENTS

DELEGATION OF FUNCTIONS

Functions of the President under this section delegated to the Secretary of Defense, see section 1(8) of Ex. Ord. No. 11390, Jan. 22, 1968, 33 F.R. 841, set out as a note under section 301 of Title 3, The President.

§ 5140. Bureau of Medicine and Surgery: Nurse Corps, Director.

(a) There is a Director of the Nurse Corps appointed by the Secretary of the Navy, upon the recommendation of the Surgeon General, from officers on the active list of the Navy in the Nurse Corps holding permanent appointments in the grade of lieutenant commander or above. The Director shall be appointed for a term of not more than four years, to serve at the pleasure of the Secretary. An officer of the Navy, while serving as Director of the Nurse Corps, has the rank of captain unless otherwise entitled to a higher rank or grade. An appointment as director does not disturb an officer's permanent status as a commissioned officer in the Nurse Corps

(b) An officer who, after serving at least two and one-half years as Director of the Nurse Corps, is retired for any reason while serving as Director or while serving in a lower rank or grade after completion of that service may, in the discretion of the President, be retired with the grade of captain and with retired pay based on that grade. In subsection (a) the words "holding permanent appointments in the grade of commander or lieutenant commander" are substituted for the words "of the permanent grade or rank of lieutenant commander or above" because the grade of commander is the only grade above lieutenant commander in which an officer of the Nurse Corps may have a permanent appointment.

In subsection (b) the proviso of 34 U. S. C. 43g (b) is omitted as executed.

AMENDMENTS

HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
5141 (a)	5 U. S. C. 432; 5 U. S. C. 434 (less applicability to Chief of BuOrd).	R. S. 421.
5141 (b)	5 U. S. C. 446 (less last 49 words).	R. S. 422 (less applicability to Chief of BuOrd, Bureau of Equipment and Recruiting, and BuDocks); May 13, 1942, ch. 303, § 1, 56 Stat. 276. Mar. 3, 1893, ch. 212 (1st par., less last 53 words), 27 Stat. 717; May 13, 1942, ch. 303, § 1, 56 Stat. 276.

In subsection (a) the words "from officers on the active list in the line of the Navy" are substituted for the words "from the list of officers of the Navy" to conform to current terminology. Line officers alone had the "grade" of commander when the source statute was enacted. The words "or from officers having the rank of captain in the staff corps of the Navy" are omitted as obsolete in view of subsequent changes in the staff corps and in the staff corps ranks and grades. These words were derived from the act of Mar. 3, 1871, ch. 117, § 10, 16 Stat. 537, which established new staff corps grades and assigned to officers in the highest grade the relative rank of captain. They were probably intended merely to assure the eligibility of senior staff corps officers for appointment as chiefs of appropriate staff bureaus. However, as incorporated in R. S. 421, they provide a category of eligible officers which is an alternative to each of the categories listed in R. S. 422—426. Thus R. S. 421 and R. S. 422, as originally enacted, provided that the chiefs of the four "line" bureaus, Yards and Docks, Navigation, Ordnance, and Equipment and Recruiting, could be appointed from line officers not below the grade of commander or from officers having the relative rank of captain in any staff corps. Pursuant to these sections the Attorney General held in 1898 that an officer having the relative rank of captain in the Civil Engineer Corps could legally be appointed as Chief of the Bureau of Yards and Docks (22 Op. Atty. Gen. 47, 17 Mar. 1898). There is some confusion in the opinion as to which corps was meant. The proposed appointee was a member of the Civil Engineer Corps, but the Corps of Engineers is the corps mentioned in the conclusion of the opinion. A provision in the act of June 29, 1906, ch. 3590, 34 Stat. 564, requires that the Chief of the Bureau of Yards and Docks be selected from officers of the Civil Engineer Corps, so that there is no longer any question as to that bureau. The Bureau of Equipment and Recruiting has been abolished, leaving only the Bureau of Naval Personnel (formerly Navigation) and the Bureau of Ordnance of the four "line" bureaus originally listed in R. S. 422. The statutes establishing new "line" bureaus, the Bureau of Ships and the Bureau of Aeronautics, contain their own requirements as to the qualifications of the chiefs. The abolition of the Corps of Engineers and the Construction Corps, with the transfer of officers in those corps to the line, has eliminated the only staff corps whose members had duties closely related to those of line officers. The present staff corps, with the possible exception of the Supply Corps, are all highly specialized. Furthermore, in five of the seven corps, captain is no longer the highest grade. In view of these facts it is considered that the provision of R. S. 421 making staff corps captains eligible for appointment as Chief of the Bureaus of Naval Personnel and Ordnance is obsolete.

In subsection (b) the words "An officer on the active list in the line of the Navy not below the grade of commander" are substituted for the words "An officer of the Navy not below the rank of commander" to conform to current terminology and for clarity. When the source statute was enacted only line officers had the actual rank of commander. The words "on the active list" are inserted for the reasons stated in the revision note on § 5137 (b) of this title. The words "Deputy Chief" are substituted for the words "assistant to the Chief" for the reason stated in the revision note on § 5134 of this title.

§ 5142. Bureau of Naval Personnel: Chief of Chaplains.

There is a Chief of Chaplains in the Bureau of Naval Personnel, detailed by the Chief of Naval Personnel from officers on the active list of the Navy in the Chaplains Corps not below the grade of rear admiral. (Aug. 10, 1956, ch. 1041, 70A Stat. 288; Sept. 7, 1962, Pub. L. 87–649, § 14c(18), 76 Stat. 501.)

The word "detailed" is substituted for the word "designated" to reflect administrative practice and to retain for the word "designation" the special statutory meaning given to it in 34 U. S. C. 211b and other provisions. The word "basic" is inserted before "pay" to conform to the terminology of the Career Compensation Act of 1949.

AMENDMENTS

1962—Pub. L. 87–649 repealed last sentence which provided that the Chief of Chaplains is entitled to the basic pay and allowances of a rear admiral in the upper half of that grade, and is now covered by section 202 of Title 37, Pay and Allowances of the Uniformed Services.

5143 (e)	34 U. S. C. 410r (b) (as applicable to retired grade of woman assistant to ChNavPers).	June 12, 1948, ch. 449, § 207 (b) (as applicable to retired grade of woman assistant to ChNavPers), 62 Stat. 366.
5143 (f)	34 U. S. C. 410r (e), (g), (h), (k) (as applicable to retired pay of woman assistant to ChNavPers).	June 12, 1948, ch. 449, § 207 (e), (g), (h), (k) (as applicable to retired pay of woman assistant to ChNavPers), 62 Stat. 367, 368.

In subsection (a) the words "on the active list of the Navy" are supplied, since the context indicates that the woman assistant to the Chief of Naval Personnel shall be detailed from officers of the Regular Navy. The words "appointed under section 5590 of this title" are added to exclude from eligibility for detail under this subsection officers in the Nurse Corps and women officers appointed in the Medical Corps, Dental Corps, and Medical Service Corps under laws authorizing the appointment of male officers in these corps as made applicable to women by the act of June 24, 1952, ch. 457 (34 U. S. C. 21e). Nurses are specifically excluded by § 217 of the Women's Armed Services Integration Act of 1948 (34 U. S. C. 105k). Women officers whose appointment is authorized by the 1952 act are, by the terms of that act, subject to the same laws relating to promotion, retirement, etc.. as male officers in their respective corps; they may hold permanent appointments in grades up to and including rear admiral and are not required to retire, except for failures of selection, until they become 62 years of age. It is, therefore, apparent that there was no intent to bring these officers within the scope of this section.

In subsection (d) the words "with the grade of captain" are substituted for the words "in the rank held by her while serving as such assistant to the Chief of Naval Personnel". The proviso in 34 U. S. C. 410r (d) relating to the woman officer first detailed as assistant to the Chief of Naval Personnel is omitted as being no longer necessary since the officer concerned served in the position for more than 2½ years and is now retired.

In subsection (f) the words "under this section" are substituted for the words "for other than physical disability incurred in line of duty". The provisions of 34 U. S. C. 410r (e), (g), (h), and (k), as they relate to other women officers appointed under § 5590 of this title are codified in the chapter on involuntary retirement. Their application to a woman officer who serves as assistant to the Chief of Naval Personnel is stated in subsection (f) of the revised section for completeness. In connection with the minimum rate of retired pay stated in 34 U. S. C. 410r (k), reference to the act of April 18, 1946, ch. 141, § 5, 60 Stat. 92, is omitted as surplusage, since a woman officer appointed under § 204 of the Women's Armed Services Integration Act of 1948 (34 U. S. C. 105c), rather than under the act of April 18, 1946, as made applicable to women by § 201 of the Women's Armed Services Integration Act of 1948 (34 U. S. C. 105a), cannot become eligible for or subject to retirement until she completes at least the 20 years of service needed to qualify her for retired pay at the rate of 50 percent of her basic pay.

HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
5148	5 U. S. C. 428; 50 U. S. C. 741 (as applicable to Navy JAG); 5 U. S. C. 441 (as applicable to JAG); 5 U. S. C. 425a (as applicable to JAG).	June 8, 1880, ch. 129, 21 Stat. 164; June 5, 1896, ch. 331, 29 Stat. 251. May 5, 1950, ch. 169, § 13 (as applicable to Navy JAG), 64 Stat. 147. July 1, 1918, ch. 114, 40 Stat. 717 (1st sentence on p. 717, as applicable to JAG). June 22, 1938, ch. 567 (as applicable to JAG), 52 Stat. 839.

In subsection (b) the rank, pay, allowances, and privileges of retirement of chiefs of bureaus of the Navy are incorporated. 5 U. S. C. 441 apparently relates the Judge Advocate General of the Navy to the Judge Advocate General of the Army, as well as to bureau chiefs. However, since the creation of the Department of the Air Force by the National Security Act of 1947, if the incorporation to the Army provision is retained, the saving provisions in the act require an incorporation also to the rank, etc., of the Judge Advocate General of the Air Force. The rank of the Judge Advocate General of each of the other departments is now specified in organizational law to be major general. Since it is possible that these ranks may at some future time not be the same, incorporation by reference to them is no longer appropriate. Instead, the section relates the Judge Advocate General's rank, pay, allowances, and privileges of retirement to those of bureau chiefs as does 5 U. S. C. 441, in part.

In subsection (c), clauses (1) and (4) are substituted for the words "and perform such other duties as have heretofore been performed by the Solicitor and Naval Judge Advocate General" to describe the duties of the Judge Advocate General directly instead of by reference to the duties performed by an officer whose office was abolished more than 75 years ago.

Subsection (c) (2) is substituted for the reference, in 5 U. S. C. 428, to courts-martial and courts of inquiry, since the Uniform Code of Military Justice has superseded prior law as to the duties of the Judge Advocates General relating to these courts.

AMENDMENTS

1967—Pub. L. 90–179, § 2(1)(A), inserted reference to Judge Advocate General's Corps in the section catchline.

Subsec. (a). Pub. L. 90–179, § 2(1)(B), added subsec. (a). Former subsec. (a) redesignated subsec. (b).

Subsec. (b). Pub. L. 90–179, § 2(1)(B), (C), redesignated former subsec. (a) as subsec. (b) and in subsec. (b) as so redesignated substituted "judge advocates" for "officers".

Subsecs. (c), (d). Pub. L. 90–179, § 2(1)(B), redesignated former subsecs. (b) and (c) as subsecs. (c) and (d), respectively.

1962—Subsec. (b). Pub. L. 87–649 repealed words ", pay, allowances," which followed "same rank". See section 202 of Title 37, Pay and Allowances of the Uniformed Services.

SAVINGS PROVISIONS

Section 10 of Pub. L. 90–179 provided that: "This Act [enacting sections 5578a and 5587a of this title, amending this section and sections 801, 806, 815, 827, 865, 936, 5149, 5404, 5508, 5581, 5587, 5600, 5652a, 5702, 5708, 5753, 5762, 5896, 5897 and 6378 of this title, and section 202 of Title 37, and enacting provisions set out as notes under this section and section 5149 of this title] does not affect rights accrued, duties matured, or proceedings commenced before its effective date. Redesignation of an officer under section 8(b) of this Act [set out as a note under this section] shall not operate to change the computation of his service for any purpose."

WOMEN OFFICERS IN JUDGE ADVOCATE GENERAL'S CORPS OF NAVY

Section 11 of Pub. L. 90–179 provided that: "Notwithstanding any other provision of law, all provisions of law applicable to a male officer in the Judge Advocate General's Corps of the Navy, including the Naval Reserve, are applicable to a woman officer in that corps."

§ 5201. Commandant: appointment; term; emoluments.

(a) There is a Commandant of the Marine Corps, appointed by the President, for a term of four years, by and with the advice and consent of the Senate, to serve at the pleasure of the President, from officers on the active list of the Marine Corps, not below the rank of colonel. In time of war or national emergency declared by the Congress after December 31, 1968, he may be reappointed for a term of not more than four years.

(b) The Commandant of the Marine Corps, while so serving, has the rank of general.

34 U. S. C. 685a is exhausted with the codification of provisions relating to the Commandant of the Marine Corps, as this section is indentical with 5 U. S. C. 425a which was used as source credit for other offices concerned.

In subsection (a) the existence of the office of Commandant is stated positively. The office was first created by the act of June 30, 1834, ch. 132, 4 Stat. 712, and its continued existence has been recognized in the enactment of the Revised Statutes (R. S. 1601) and in subsequent statutes, the most recent of which (Jan. 20, 1942, ch. 10, 56 Stat. 10) is here codified. This treatment brings the Marine Corps provision into uniformity with those establishing various offices in the Navy. The words "unless sooner relieved" are omitted as surplusage. The power to remove an officer from an executive office, without specific statutory authority, is beyond question. The retention of the quoted language here would place in doubt the removal power in the case of the many other offices of the Department established by laws not specifically providing that power. Since the quoted language does not indicate, nor has it been interpreted as meaning, that the power to relieve vests in any one other than the appointing power, the language is unnecessary.

In subsection (b) the rank of the Commandant is stated affirmatively to be the rank of general. The grade of general was established in the Marine Corps by section 2 of the act of Mar. 23, 1946, ch. 112, 60 Stat. 59, which gave the grade to the officer who served as Commandant between named dates. Its existence in the Marine Corps is recognized by the Career Compensation Act of 1949 and the Officer Personnel Act of 1947. There is, therefore, no necessity of stating the rank of the Commandant in terms corresponding to Army rank. The provision relating to the pay and allowances of the Commandant is omitted as surplusage, since the Career Compensation Act of 1949 prescribes the pay and allowances of officers serving in the rank of general.

AMENDMENTS

1967—Subsec. (a). Pub. L. 90–22 inserted the provision that the initial term of the Commandant be subject to the pleasure of the President, and changed the requirement that the Commandant be reappointed with the advice and consent of the Senate by providing for his reappointment for a term of not more than four years by the President without such advice and consent in a time of war or national emergency as declared by the Congress.

1962—Subsec. (d). Pub. L. 87–651 substituted "under section 124 of this title" for "pursuant to section 202(j) of the National Security Act of 1947, as amended."

1958—Subsec. (c). Pub. L. 85–422 permitted computation of retired pay at the highest rates of basic pay applicable to the officer while he served as Commandant of the Marine Corps.

Subsec. (d). Pub. L. 85–599 added subsec. (d).

at Headquarters, Marine Corps, in order of seniority, shall perform the duties of the Commandant, unless otherwise directed by the President.

(c) The Assistant Commandant has such authority and duties with respect to the Marine Corps as the Commandant, with the approval of the Secretary of the Navy, may delegate to or prescribe for him. 5202	34 U. S. C. 623a.	Feb. 3, 1942, ch. 35, § 2, 56 Stat. 48.

R. S. 1598, based on the act of June 30, 1834, ch. 132, § 6, 4 Stat. 713, as amended, provided that "The staff of the Marine Corps shall be separate from the line." The act of Aug. 29, 1916, ch. 417, 39 Stat. 610, prohibited further permanent appointments in any grade in any staff department and provided that vacancies in the lower grades of staff departments be filled by "line" officers and upper grades of staff departments by colonels of permanent grade in the staff department or a colonel of the "line." R. S. 1598 was expressly repealed by the act of Mar. 3, 1933, ch. 202, 47 Stat. 1428, as being obsolete. All Marine Corps officers then were considered to be "line" officers and unrestricted in the performance of duty, except for staff officers appointed before Aug. 29, 1916.

The act of Feb. 3, 1942, ch. 35, § 2, 56 Stat. 48, used the term "line" officer and "line" officers in providing for an assistant to the Commandant, because at that time there were still a few high-ranking staff officers who would otherwise be eligible for that assignment.

Section 1 of the act of July 1, 1947, ch. 189 (34 U. S. C. 625c) and § 404 of the Officer Personnel Act of 1947 (34 U. S. C. 211c), respectively, authorize the designation of Marine Corps officers for supply duty only and for limited duty only. Both acts make it clear, however, that officers so designated continue to be line officers. Since all officers now on the active list of the Marine Corps are line officers, use of the word "line" to describe them is redundant. Furthermore, to speak of line officers of the Marine Corps could give rise to the erroneous inference that a category of officers other than line exists in the corps. For these reasons the word "line" is not used in this subtitle in connection with Marine Corps officers.

Officers designated for limited duty or for supply duty are ineligible to command or to succeed to command, and in that respect they are like the staff officers of former times. In this section and in others based on statutes in which the word "line" is used to distinguish officers eligible to command from officers not so eligible, the words "not restricted in the performance of duty" are substituted for the word "line".

The title of the assistant to the Commandant is stated as "Assistant Commandant" to reflect the current title of that office.

AMENDMENTS

1969—Subsecs. (d), (e). Pub. L. 91–11 added subsecs. (d) and (e).

1962—Subsec. (a). Pub. L. 87–649 repealed last sentence which provided that a person detailed as Assistant Commandant is entitled to the highest pay of his grade. See section 202 of Title 37, Pay and Allowances of the Uniformed Services.

1958—Subsec. (c). Pub. L. 85–599 added subsec. (e).

In subsection (a) the words "when a vacancy shall exist in the office" and "unless sooner relieved" are omitted as unnecessary.

The last sentence of subsection (b) is substituted for the words "and shall be in addition to the number of general officers otherwise provided by law. He shall be carried in the grade or rank from which appointed" to restate the provision in accordance with § 314 (c) of the Officer Personnel Act of 1947, which provides for the number of general officers assigned to supply duty only and counts the head of the Supply Department as a brigadier general in computing this number.

The reference to pay and allowances is omitted as surplusage, since the Career Compensation Act of 1949 prescribes the pay and allowances of officers serving in the rank of major general.

The former Paymaster's Department of the United States Marine Corps and the Quartermaster's Department of the United States Marine Corps were consolidated to form a new department to be known as the Supply Department of the United States Marine Corps by Reorganization Plan # 3, 1946, § 302, 60 Stat. 1099.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 5222 of this title.

§ 5222. Commandants of naval districts.

The Secretary of the Navy shall detail an officer of the Navy not below the grade of rear admiral as commandant of each of the naval districts listed in section 5221 of this title. (Added Pub. L. 90–110, title X, § 1001(1), Oct. 21, 1967, 81 Stat. 310.)

Chapter 517.—FLEET COMMANDS AND OTHER HIGH POSITIONS

Sec.
5231. Navy positions: admirals and vice admirals.
5232. Marine Corps positions: general and lieutenant generals.
5233. Retirement.
5234. Suspension provision.

§ 5231. Navy positions: admirals and vice admirals.

(a) The President may designate officers on the active list of the Navy above the grade of captain and, in time of war or national emergency, above the grade of commander for—

(1) command of fleets or subdivisions of fleets;

(2) command of naval units afloat to perform special or unusual missions; or

(3) performance of duty of great importance and responsibility.

An officer so designated may be appointed by the President, by and with the advice and consent of the Senate, to the grade of admiral or vice admiral. Such an appointment is effective on the date the officer reports for the designated duty and terminates on the date he is detached. The Secretary of the Navy shall determine the rank of officers in the grade in which they are serving under this section.

(b) The number of officers serving in the grades of admiral and vice admiral under subsection (a) may not, at any time, exceed 15 percent of the number of officers prescribed for the grade of rear admiral in—

(1) section 5442 of this title, if that section is operative; or

(2) section 5447 of this title, if section 5442 is inoperative.

Of the number of officers that may serve in the grades of admiral and vice admiral, as determined under this subsection, not more than eight may have the grade of admiral.

(c) Except in time of war or national emergency, the number of officers serving in the grades of admiral and vice admiral may not exceed 26, including the Chief of Naval Operations, and of the number so serving only the Chief of Naval Operations and three others may have the grade of admiral.

(d) An officer while serving as Chairman of the Joint Chiefs of Staff, if serving in the grade of admiral, is in addition to the numbers authorized under subsections (b) and (c) of this section.

(e) An officer of the Navy assigned as Chief of Staff to the President shall be appointed by the President, by and with the advice and consent of the Senate, to the grade of admiral, unless he is otherwise entitled to the same or a higher grade. Such an appointment is effective while the officer is so serving, and while in that grade he is in addition to the numbers authorized under subsections (b) and (c) of this section.

(f) An appointment under this section does not create a vacancy in the grade held by the officer at the time he is appointed and does not increase the authorized strength of the Navy in officers on the active list. (Aug. 10, 1956, ch. 1041, 70A Stat. 294.)

HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
5231	34 U. S. C. 211d.	Aug. 7, 1947, ch. 512, § 413, 61 Stat. 875.
5231	5 U. S. C. 171f (d) (1st sentence as applicable to admirals).	July 26, 1947, ch. 343, § 211 (d) (1st sentence as applicable to admirals), 61 Stat. 505; Aug. 10, 1949, ch. 412, § 7 (b), 63 Stat. 582.

In subsection (a) the words "An officer so designated may be appointed" are used to make it clear that an officer designated under the section may be appointed to the office of admiral or vice admiral. The words "have the grade, rank, pay, and allowances while so serving" are omitted as unnecessary, as these attach to and are determined by the office to which appointed. The word "rank" is substituted for the words "precedence among themselves" for uniformity of statement.

In subsection (b) the words "number of officers prescribed for the grade of rear admiral" are substituted for the words "authorized number of officers of the line of the Regular Navy above the grade of captain". In §§ 5442 and 5447 of this title (codifying §§ 303 and 103 of the Officer Personnel Act of 1947, 34 U. S. C. 5a and 4), there is a prescribed number for only one grade above captain, i. e., rear admiral, and these sections provide that rear admirals serving temporarily in higher grades are to be counted as rear admirals. For the use of the term "number * * * prescribed", see the note on

§ 5441 of this title. The words "of the line" are unnecessary, since §§ 5442 and 5447 of this title deal only with line officers. The words "of the Regular Navy" are meaningless in connection with § 5442, since that section prescribes the distribution in grade of officers on active duty, both regular and reserve, and there is no provision for obtaining separate figures for the two components. The words "section 5442 * * * if that section is operative" and "section 5447 * * * if section 5442 is inoperative" are substituted for the words "sections 103 and 303 of this Act" ["sections 4 and 5a of this title" (34 U. S. C.)] to carry out the evident purpose of the Officer Personnel Act of 1947. When title III of that act is operative, computations are made under both sections, but it is obvious that the two figures for grades above captain cannot both be used, at the same time, for the purposes of this section.

The words "as Commander in Chief" appearing in 34 U. S. C. 211d (a) are omitted as surplusage. These words can only mean that an appointee under this section normally acts for the President only in the field of military matters, and this limitation is inherent in the title "Chief of Staff". The omitted words do not appear in the section that authorizes the appointment of an officer of the Army or of the Air Force to this position, section 504 (b) of the Officer Personnel Act of 1947, 61 Stat. 886. From this it must be concluded that they are of little value since it can hardly be maintained that there is intended to be a difference in the duties performed by an incumbent depending upon whether he is a member of the Navy or the Marine Corps or a member of the Army or the Air Force.

In subsection (e) the word "appointed" is inserted to make explicit that the Chief of Staff to the President is appointed to the office of admiral and that the pay, allowances, and grade attach to and are determined by that appointment.

In subsection (f) the words "An appointment" are substituted for the words "so designated" to conform to the terminology used throughout the section.

Section 413 (d) of the Officer Personnel Act of 1947 (34 U. S. C. 211d (d)) provides that nothing in that section shall be construed as amending or repealing R. S. 1434, 1463, or 1464 (34 U. S. C. 216, 424, 425). This provision is omitted as unnecessary since these sections of the Revised Statutes are codified in this title.

§ 5232. Marine Corps positions: general and lieutenant generals.

(a) The President may designate officers on the active list of the Marine Corps above the grade of colonel and, in time of war or national emergency, above the grade of lieutenant colonel for—

(1) appropriate higher commands; or

(2) performance of duty of great importance and responsibility.

An officer so designated may be appointed by the President, by and with the advice and consent of the Senate, to the grade of lieutenant general. Such an appointment is effective on the date the officer reports for the designated duty and terminates on the date he is detached. The Secretary of the Navy shall determine the rank of officers in the grade in which they are serving under this section.

(b) The number of officers serving in the grade of lieutenant general may not exceed two except in time of war or national emergency, and may not, at any time, exceed 10 percent of the number of officers not restricted in the performance of duty prescribed for grades above colonel in—

(1) section 5443 of this title, if that section is operative; or

(c) An officer of the Marine Corps assigned as Chief of Staff to the President shall be appointed by the President, by and with the advice and consent of the Senate, to the grade of general. Such an appointment is effective while the officer is so serving.

(d) An appointment under this section does not create a vacancy in the grade held by the officer at the time he is appointed and does not increase the authorized strength of the Marine Corps in officers on the active list. (Aug. 10, 1956, ch. 1041, 70A Stat. 295.)

In subsection (a) the words "An officer so designated may be appointed" are used to make it clear that an officer designated under the section may be appointed to the office of lieutenant general. The words "have the grade, rank, pay, and allowances of lieutenant general while so serving" are omitted as unnecessary, as these attach to and are determined by the office to which appointed. The word "rank" is substituted for the words "precedence among themselves" for uniformity of statement. The words "above the grade of lieutenant colonel" are substituted for the words "not below the grade of colonel" for clarity.

In subsection (b) the words "section 5443 * * * if that section is operative" and "section 5448 * * * if section 5443 is inoperative" are substituted for the words "sections 103 and 303 of this Act, made applicable to the Marine Corps by sections 114 and 314 of this Act" ["sections 4 and 5a of this title, made applicable to the Marine Corps by sections 626 and 626–1 of this title" (34 U. S. C.)] to carry out the evident purpose of the Officer Personnel Act of 1947. When Title III of that Act is operative, computations are made under both § 103 and § 303, but it is obvious that the two figures so obtained for grades above colonel cannot both be used, at the same time, for the purposes of this section. The words "of the Regular Marine Corps" are omitted because there is no way of

separating Regulars from Reserves in computations under Title III of the Officer Personnel Act. For the use of the term "number * * * prescribed", see the note on § 5441 of this title.

The words "as Commander in Chief" appearing in 34 U. S. C. 211d (a) are omitted as surplusage. These words can only mean that an appointee under this section normally acts for the President only in the field of military matters, and this limitations is inherent in the title "Chief of Staff". The omitted words do not appear in the section that authorizes the appointment of an officer of the Army or of the Air Force to this position, section 504 (b) of the Officer Personnel Act of 1947, 61 Stat. 886. From this it must be concluded that they are of little value since it can hardly be maintained that there is intended to be a difference in the duties performed by an incumbent depending upon whether he is a member of the Navy or the Marine Corps or a member of the Army or the Air Force.

In subsection (c) the word "appointed" is inserted to make explicit that the Chief of Staff is appointed to the office of general and that the pay, allowances, and grade attach to and are determined by that office.

In subsection (d) the words "An appointment" are substituted for the words "so designated" to conform to the terminology used throughout the section.

HISTORICAL AND REVISION NOTES

The term "authorized strength" is defined in § 101 of this title to mean "the largest number of members authorized to be in an armed force, a component, a branch, a grade, or any other category of the armed forces". As so defined, "authorized strength" has the same meaning as "authorized number" has in the provisions of law codified in this chapter relating to the numbers of officers in various categories (line, the several staff corps, women) that may be on the active list of the Navy. In this chapter, therefore, the words "authorized strength" are substituted for the words "authorized number". This provides a statement of the Navy law that, without changing its meaning, is consistent with the definition in subtitle A and parallels the statements, in subtitles B and D, of the laws relating to the strength of the Army and the Air Force.

In addition, the substitution of "authorized strength" for "authorized number" in this chapter, together with the substitution of "prescribed number" for "authorized number" in chapter 533, Distribution in Grade, removes an ambiguity. As previously stated, "authorized number", in the provisions codified in this chapter, means a maximum that may not be exceeded but need never be attained. In the provisions codified in chapter 533 the same term means a number that is both a maximum and a minimum. The use of one term in two different senses in two successive chapters of one law is obviously undesirable. The single ambiguous term is therefore abandoned and in each of the two chapters a different phrase, more descriptive of the meaning intended, is used. As to the use of "prescribed number" see also § 5441 of this title and the revision note on that section.

AMENDMENTS

1967—Pub. L. 90-130, § 1(16), Nov. 7, 1967, 81 Stat. 376, eliminated item 5410 which read: "Regular Navy and Regular Marine Corps: enlisted women" and item 5411 which read: "Regular Navy and Regular Marine Corps: women officers."

1958—Pub. L. 85-861, § 1(110) (B), Sept. 2, 1958, 72 Stat. 1491, added items 5414—5417.

§ 5401. Regular Navy: enlisted members.

The authorized strength of the Regular Navy in enlisted members, excluding retired members and members furloughed without pay, is 500,000. However, this strength may be temporarily exceeded at any time in a fiscal year if the daily average number in that year does not exceed it. (Aug. 10, 1956, ch. 1041, 70A Stat. 297.)

The words "declared by Congress after June 28, 1952" are substituted for the words "hereafter declared by Congress" to reflect the date of passage of the act.

This section is written in terms of authorized strength for uniformity of expression throughout the chapter and to show clearly the intention of the section.

In subsection (a), the words "excluding retired members" are inserted for clarity.

Subsection (b) is inserted to make express the authorized strength of the Regular Marine Corps in enlisted members. This authorized strength is the basis for computing authorized strength under section 5405 of this title.

SUSPENSION OF RESTRICTIONS ON PERSONNEL STRENGTH

Suspension until July 1, 1971, see note set out under section 3201 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 5404, 5405, 5412 of this title.

§ 5403. Navy: line officers on the active list.

The authorized strength of the active list of the Navy in line officers is equal to 7 percent of the authorized strength of the Regular Navy in enlisted members authorized by section 5401 of this title. (Aug. 10, 1956, ch. 1041, 70A Stat. 297.)

The words "commissioned" and "exclusive of commissioned warrant officers" are omitted as unnecessary, since "active list of the Navy" as defined in this title includes only officers holding permanent appointments in grades above commissioned warrant officer. The words "and such authorized number of commissioned officers shall include officers now or hereafter carried under any provision of law as additional or extra numbers in grade" are omitted as surplusage, since these officers are "officers on the active list."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 5404 of this title.

§ 5404. Navy: staff corps officers on the active list.

(a) The authorized strength of the active list of the Navy in officers in the Supply Corps and the Civil Engineer Corps is equal to 12 percent and 3 percent, respectively, of the authorized strength of the active list of the Navy in line officers authorized by section 5403 of this title.

(b) The Secretary of the Navy, as of January 1 of each year, shall compute the authorized strength of the active list of the Navy in officers in the Medical Corps, the Dental Corps, the Chaplain Corps, the Medical Service Corps, and the Nurse Corps. The authorized strength in each of these corps is equal to the applicable percentage of the sum of—

(1) the authorized strengths of the active lists of the Navy and the Marine Corps authorized by sections 5403, 5405, and this section;

(2) the authorized strengths of the Regular Navy and the Regular Marine Corps in enlisted members authorized by sections 5401 and 5402 of this title;

(3) the authorized strength of the Navy in midshipmen at the Naval Academy; and

(4) the actual number of officers holding permanent appointments in warrant officer grades in the Regular Navy and the Regular Marine Corps, excluding retired officers.

The percentages are:

(1) Medical Corps—65/100 of 1 percent.

(2) Dental Corps—2/10 of 1 percent.

(3) Chaplain Corps—125/1000 of 1 percent.

(4) Medical Service Corps—13/100 of 1 percent.

(5) Nurse Corps—6/10 of 1 percent.

The authorized strength of the active list of the Navy in officers in these corps may not be varied between computations.

(c) The Secretary of the Navy, as of January 1 of each year, shall establish the authorized strength of the active list of the Navy in officers in the Judge Advocate General's Corps. (Aug. 10, 1956, ch. 1041, 70A Stat. 297; Oct. 13, 1964, Pub. L. 88-647, title III, § 301(12), 78 Stat. 1072; Dec. 8, 1967, Pub. L. 90-179, § 3, 81 Stat. 547.)

In subsection (a) the word "commissioned" and the words "exclusive of commissioned warrant officers" are omitted as unnecessary, since "active list of the Navy" as defined in this title includes only officers holding permanent appointments in grades above chief warrant officer, W-4.

In clause (4) of subsection (b) the words "officers holding permanent appointments in warrant officer grades in the Regular Navy and the Regular Marine Corps, excluding retired officers" are substituted for the words "commissioned warrant officers and warrant officers on the active list of the Navy and Marine Corps" to conform to the definitions used in this title.

In clause (5) of subsection (b) the words "for flight training" are omitted. They served no purpose other than to identify the category of midshipmen that was meant, and this is adequately done by reference to the section under which they are appointed. Furthermore, the words are misleading, since it was intended that aviation midshipmen on active duty after completion of flight training should be included.

The provisions of 34 U. S. C. 30a relating to the strength of the Medical Service Corps are incorporated in the second tabulation in subsection (b) for uniformity and clarity.

AMENDMENTS

1967—Subsec. (c). Pub. L. 90-179 added subsec. (c).

1964—Subsec. (b). Pub. L. 88-647 eliminated clause (5) which provided: "the actual number of midshipmen on active duty appointed under section 6906 of this title."

§ 5405. Marine Corps: officers on the active list.

Subject to section 5402 (a) of this title, the authorized strength of the active list of the Marine Corps is equal to 7 percent of the authorized strength of the Regular Marine Corps in enlisted members authorized by section 5402 (b) of this title. (Aug. 10, 1956, ch. 1041, 70A Stat. 298.)

§ 5441. Prescribed number; vacancies.

In this chapter "prescribed number" or "number * * * prescribed", as applied to a grade or combination of grades, means the number of officers of a described corps, designations or other category that shall be maintained in the grade or combination of grades concerned. Except as otherwise specifically provided, the actual number of officers in a grade or combination of grades may not exceed the prescribed number. Vacancies occur whenever, and to the extent that, the actual number falls below the prescribed number. (Aug. 10, 1956, ch. 1041, 70A Stat. 299.)

HISTORICAL AND REVISION NOTES

This section is derived from the distribution-in-grade provisions of the Officers Personnel Act of 1947. It is inserted here to show clearly what is meant by the "authorized number" of officers in a grade as used in the distribution-in-grade sections of the Officer Personnel Act. "Prescribed number" is substituted for "authorized number" because the latter, as used in other provisions of law, means simply the maximum number of persons authorized to be in a designated category. As used in the distribution-in-grade provisions of the Officer Personnel Act the term means not only the maximum number of officers that may be in a particular grade, but also the number of officers that should be maintained in that grade. It places not only a ceiling but a floor on the number of officers for the grade concerned. This is accomplished by establishing vacancies when the actual number of officers in the grade concerned falls below the "authorized" or, as used here, the "prescribed" number. Where there is a prescribed number for a grade, an officer should, in the absence of other controlling provisions of law, be promoted to that grade to fill an existing vacancy, as of the date on which the vacancy occurred. In this manner, at least constructively, the prescribed number is maintained.

There is no source for the section because the Officer Personnel Act did not attempt specifically to define "authorized number" in this context. The meaning of the term is derived only from understanding the effect given it throughout the Officer Personnel Act and from the imperative requirements of sections 103, 203, and 303 of the act.

§ 5442. Navy: line officers on active duty.

(a) Of the total number of officers serving on active duty in the line of the Navy in the grade of ensign and above, excluding fleet admirals and officers carried as additional numbers in grade, the number of officers who may serve in each of the grades above lieutenant may not, except as provided in subsection (b), exceed a number appropriate to

the total number as set forth in the following table. If the total number of officers serving on active duty in the line of the Navy in the grade of ensign and above, excluding fleet admirals and officers carried as additional numbers in grade, falls between two strengths shown in the first column of the table, the number for each grade is determined by proportionate interpolation between the respective numbers for the two strengths.

(b) The Secretary of the Navy, whenever the needs of the service require but at least once annually, shall compute the number of officers authorized under subsection (a) for each grade above lieutenant. The number so computed is the number of line officers on active duty, excluding officers carried as additional numbers in grade, prescribed for the grade concerned. However, if the Secretary determines at the time of making these computations that the number of officers required to meet the needs of the service in any grade above lieutenant is less than the prescribed number for that grade as computed, the lesser number becomes the prescribed number for the grade and the reduction may be applied as an increase in the prescribed number for any lower grade.

(c) Of the numbers of officers prescribed for the grades of commander and lieutenant commander, as computed or determined under subsection (b), not more than the following percentages may be officers designated for limited duty:

(1) Commander—$3\frac{64}{100}$ percent.

(2) Lieutenant commander—$8\frac{62}{100}$ percent.

(d) The Secretary, whenever the needs of the service require but at least once annually, shall compute the number of officers designated for limited duty authorized under subsection (c) for the grades of commander and lieutenant commander. The Secretary shall also determine the number of such officers, not to exceed the computed number, that will be required to meet the needs of the service during the ensuing year in each of these grades. The number so determined for each grade is the number of officers designated for limited duty prescribed for the grade concerned.

(e) At the time of making the computations required by subsection (b), the Secretary shall also determine the numbers of line officers on active duty, excluding officers carried as additional numbers in grade, that will be required to meet the needs of the service during the ensuing year in the grades of lieutenant, lieutenant (junior grade), and ensign. The numbers so determined are the prescribed numbers for these grades.

(f) The number of officers designated for engineering duty, aeronautical engineering duty, and special duty serving on active duty in the grade of rear admiral may not exceed 13 percent of the number of officers prescribed for the grade of rear admiral as computed or determined under subsection (b). The Secretary, whenever the needs of the service require but at least once annually, shall compute the number of officers in the grade of rear admiral authorized under this subsection. The number so computed is the prescribed number of officers restricted in the performance of duty serving on active duty in the grade of rear admiral. However, if the Secretary determines at the time of making this computation that the number of officers designated for engineering duty, aeronautical engineering duty, and special duty required to meet the needs of the service in the grade of rear admiral is less than the prescribed number as computed, the lesser number becomes the prescribed number.

(g) The number of officers designated for engineering duty, aeronautical engineering duty, and special duty, respectively, serving on active duty in the combined grades of captain, commander, and lieutenant commander may not exceed the following percentages of the sum of the numbers of officers prescribed for those grades as computed or determined under subsection (b):

(1) Engineering duty—11 percent.

(2) Aeronautical engineering duty—7 percent.

(3) Special duty—12 percent.

The Secretary, whenever the needs of the service require but at least once annually, shall compute the number of officers designated for engineering duty, aeronautical engineering duty, and special duty, respectively, authorized under this section for these combined grades. The number so computed for each designation is the number of officers of that designation serving on active duty prescribed for these combined grades. However, if the Secretary determines at the time of making these computations that the number of officers of any designation required to meet the needs of the service in the combined grades is less than the prescribed number as computed, the lesser number becomes the prescribed number of officers of that designation.

(h) The prescribed numbers of officers computed or determined under this section may not be varied between computations. However, the prescribed number for a grade is temporarily increased during the period between one computation and the next succeeding computation by—

(1) the number of officers originally appointed in that grade during that period;

(2) the number of officers of the Naval Reserve ordered to active duty in that grade during that period; and

(3) the number of officers of that grade for whom vacancies exist in the next higher grade but whose promotion has been delayed for any reason.

(i) For the purpose of this section, each officer is counted in the grade in which he is serving, whether under a permanent or a temporary appoint-

ment. However, each officer serving under an appointment in the grade of admiral or vice admiral and each officer in a grade to which he was appointed under section 5597 or promoted under section 5787 of this title is counted in the grade he would hold had he not been so appointed or promoted. In subsection (a) the words "officers serving on active duty in the line of the Navy" are substituted for the words "line officers" for clarity and accuracy. The words "in the grade of ensign and above" are inserted to reflect the definition of the word "officer" contained in § 302 of the Officer Personnel Act, as amended (34 U. S. C. 3c (a)). The words "at any one time" are omitted since the limitations imposed by the table apply only to the Secretary of the Navy's computation of the prescribed number of officers in each grade under subsection (b) of this section. The words "except as provided in subsection (b)" are substituted for the words "except as otherwise provided by subsection 303 (k) of this Act" since § 303 (k) as it affects line officers of the Navy is codified in subsection (b). The words "officers serving on active duty * * * and officers carried as additional numbers in grade" are substituted for the words "such line officers" for clarity and the words "in the first column of the table" are substituted for the words "in the above table" for clarity and accuracy.

In subsection (b) the words "as of the date of approval of this Act" are omitted as executed. The words "whenever the needs of the service require but at least once annually" are substituted for the words "thereafter at such times that the needs of the service require but not less than once annually" for clarity. The words "subject to the provisions of subsection (k) of this section" are omitted since the rule stated in subsection (k) is codified in subsection (b) as an exception to the basic rule enunciated in subsection (b). The words "The number so computed is the number * * * prescribed for the grade concerned" are substituted for the words "The resulting number * * * shall * * * be held and considered for all purposes as the authorized number of officers in each of the various grades" for brevity and for the reasons set forth in the note to § 5441 of this title.

In subsection (d) the words "as of the date of approval of this Act" are omitted as executed. The words "whenever the needs of the service require but at least once annually" are substituted for the words "thereafter at such times that the needs of the service require but not less than once annually" for clarity.

In subsection (e) the last sentence is added for clarity.

In subsection (h), clauses (1) and (2) are derived from the second and third provisos of 34 U. S. C. 5a (g), and clause (3) is derived from 34 U. S. C. 285a. The words "the prescribed number * * * is temporarily increased" are substituted for the words "the authorized numbers * * * may be temporarily exceeded". This change is necessitated by the statement in § 5441 of this title to the effect that vacancies occur whenever the actual number of officers in a grade falls below the prescribed number for that grade. Since officers in the categories described in clauses (1) through (3) must be counted in determining the actual number, an increase in the actual number so occasioned must be accompanied by an equal increase in the prescribed number in order to achieve the result intended by the source statutes, that is, that the same number of vacancies will occur as would have occurred had there been no increase in the actual number.

Subsection (i) is phrased so as to give effect to all three of the cited provisions. Section 9 of the act of July 24, 1941, provides that, in computations to determine the authorized number of officers in any grade, officers temporarily appointed or promoted under the 1941 act shall be counted in their permanent grade. The 1941 act was war-time legislation designed to permit the necessary fleeting up during the war-time expansion of forces without disturbing the permanent distribution-in-grade structure to which return would be made upon demobilization. From 1941 until the enactment of the Officer Personnel Act of 1947, the 1941 act provided the only authority for temporary promotions and there were no permanent provisions of law prescribing distribution in grade other than distribution in permanent grade.

The Officer Personnel Act of 1947 contained, in titles I and II, new provisions as to distribution of permanent regular officers in permanent grade, effective on the date of enactment of the act, and systems of promotion, separation, and retirement of those officers, which were not to become operative until the expiration of title III. Title III, which as originally enacted was to expire not later than January 1, 1957, contained provisions as to the distribution in grade of all officers of the grade of ensign or above on active duty and provisions for the temporary promotion of these officers. Section 302 (1) of the act provides that, for computations under titles I and II, permanent regular officers shall be counted in their permanent grades and for computations under title III shall be counted in their *temporary* grades. However,

title III provides that permanent regular officers selected for temporary promotion or temporarily promoted under that title may be permanently promoted to fill vacancies in the permanent grade structure as determined by computations under titles I and II. There are also provisions for the permanent promotion of reserve officers under title III. It is obvious, therefore, that for the purpose of computations under title III, all officers, permanent or temporary, regular or reserve, must be counted in the grade in which they are serving pursuant to title III, regardless of whether they hold permanent or temporary appointments therein. This is borne out by § 302 (b) which provides that in title III military titles shall be held to describe officers serving in the grade concerned, and officers holding permanent appointments in one grade and temporary appointments in a higher grade shall be considered as serving in the higher grade. An exception is made in § 302 (b) as to officers serving the grades of admiral, vice admiral, general, and lieutenant general under §§ 413 and 415 of the act and as to officers serving under similar appointments for periods of limited duration. These officers are to be counted in the grades they would hold if they had not received such appointments, i. e., the grades they hold under title III.

Section 304 of the Officer Personnel Act of 1947 provided for the establishment of lineal lists of officers on active duty and for their appointment in permanent and temporary grades in numbers prescribed by the distribution-in-grade provisions of titles I, II, and III. In most cases this resulted in confirming in terms of title III the temporary appointments held under the act of July 24, 1941. The latter appointments would have expired six months after the end of the war if not so confirmed.

Section 304 (n) of the Officer Personnel Act of 1947 provided that no further appointments should be made under the 1941 act except in a future war or emergency. Since the Officer Personnel Act in effect converted all existing temporary appointments into title III appointments and banned further use of the 1941 act, there was no necessity at that time to make any provision for determining in what grade to count an officer who holds, for example, a permanent appointment in one grade, a temporary title III appointment in the next higher grade, and a temporary appointment under the 1941 act in a still higher grade.

The act of June 30, 1951, ch. 196, 65 Stat. 108, amended title III of the Officer Personnel Act of 1947, making that title permanent law, effective whenever there are any temporary or reserve officers on active duty in the line of the Navy, but authorizing the President to suspend any of its provisions relating to lieutenants and lieutenants (junior grade). The 1951 act also amended § 304 (n) by authorizing the President to suspend the prohibition of use of the 1941 act. The authorized suspensions were made and temporary promotions in grades up to lieutenant commander were effected, during the next two or three years, under the 1941 act. This raised the question of whether promotions under the 1941 act are to be disregarded for the purpose of computations under title III and for the purpose of determining eligibility for consideration for promotion under that title.

Since the 1941 act is a war-time measure designed for strictly temporary use, it may be presumed that it was not intended to disturb the underlying permanent law. It specifically provided that it should not disturb the permanent grade structure, which was the only grade structure prescribed by law at the time of its enactment. It has been administratively interpreted as not affecting the grade distribution prescribed by title III. That this interpretation has been accepted by Congress is shown by the act of July 18, 1954, ch. 311, 68 Stat 256, which amends § 304 of the Officer Personnel Act of 1947 so as to provide that the President may affirm the recent temporary appointments made under the 1941 act and that appointments so affirmed shall thereafter be regarded as having been made under title III of the Officer Personnel Act. This amendment would not have been necessary if Congress had not considered that, without it, promotions under the 1941 act would be disregarded for the purposes of title III.

AMENDMENTS

1968—Subsec. (g). Pub. L. 90–386 increased from 9 to 11, 5 to 7, and 5 to 12 the maximum percent of officers serving on active duty in the combined grades of captain, commander, and lieutenant commander that may be designated for engineering duty, aeronautical engineering duty, and special duty, respectively.

OPERATION OF PROVISIONS OF OFFICER PERSONNEL ACT OF 1947

Section 437 of act Aug. 7, 1947, ch. 512, title IV, as added Aug. 10, 1956, ch. 1041, § 48 (e), 70A Stat. 639, provided that:

"(a) Except when suspended under section 426 (c), this Act [Officer Personnel Act of 1947] is operative only when the number of male officers serving on active duty in the grade of ensign or above in the line of the Navy does not exceed the number of male officers holding permanent appointments in the grade of ensign or above on the active list in the line of the Regular Navy.

"(b) For the purposes of subsection (a), the following officers may not be considered officers serving on active duty:

"(1) Retired officers.

"(2) Officers of the Naval Reserve assigned to active duty for training.

"(3) Officers of the Naval Reserve ordered to active duty in connection with organizing, administering, recruiting, instructing, or drilling the Naval Reserve or the Marine Corps Reserve.

"(4) Officers of the Naval Reserve ordered to temporary active duty for the purpose of prosecuting special work.

"(c) This Act does not apply to women officers appointed in the Regular Navy or the Regular Marine Corps under section 5590 of title 10, United States Code."

See section 49 (a) of act Aug. 10, 1956, set out preceding section 101 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 5231, 5445, 5446, 5451, 5778 of this title.

§ 5443. Marine Corps: officers on active duty.

(a) Of the total number of officers serving on active duty in the Marine Corps in the grade of second lieutenant and above the number of officers who may serve in each of the grades above captain may not, except as provided in subsections (b) and (c), exceed a number appropriate to the total number as set forth in the following table. If the total number of officers serving on active duty in the grade of second lieutenant and above falls between two strengths shown in the first column of the table, the number for each grade is determined by proportionate interpolation between the respective numbers for the two strengths.

Total officers serving on active duty in the grade of second lieutenant and above	Brigadier general and major general	Colonel	Lieutenant colonel	Major
10,000	58	600	1,200	1,800
12,500	62	615	1,250	2,175
15,000	69	630	1,295	2,535
17,500	72	645	1,335	2,880
20,000	75	660	1,370	3,210
22,500	79	670	1,400	3,525
25,000	82	680	1,425	3,825
27,500	84	690	1,445	4,110
30,000	85	700	1,460	4,380
32,500	87	705	1,470	4,635
35,000	89	710	1,475	4,875

(b) The Secretary of the Navy, whenever the needs of the service require but at least once annually, shall compute the number of officers authorized under subsection (a) for the grades of major general and brigadier general. At the time of making this computation, the Secretary shall also determine the number of officers required to meet the needs of the service in each of those grades. The number so determined for each grade is the number of officers on active duty prescribed for that grade. However, the prescribed number for the grade of major general may not exceed 50 percent of the sum of the prescribed numbers for that grade and the grade of brigadier general, and the sum of the prescribed numbers may not exceed the number authorized for brigadier general and major general under subsection (a). If the sum of the prescribed numbers is less than that authorized for brigadier general and major general under subsection (a) the difference may be applied as an increase in the prescribed number computed or determined under subsection (c) for any grade.

(c) The Secretary, whenever the needs of the service require but at least once annually, shall compute the number of officers authorized under subsection (a) for each of the grades of colonel, lieutenant colonel, and major. The number so computed is the number of officers on active duty prescribed for the grade concerned. However, if the Secretary determines at the time of making these computations that the number of officers required to meet the needs of the service in any such grade is less than the prescribed number for that grade as computed, the lesser number becomes the prescribed number for the grade and the reduction may be applied as an increase in the prescribed number for any lower grade.

(d) Of the numbers of officers prescribed for the grades of lieutenant colonel and major, as computed or determined under subsection (c), not more than the following percentages may be officers designated for limited duty:

(1) Lieutenant colonel—$3\frac{64}{100}$ percent.

(2) Major—$8\frac{62}{100}$ percent.

(e) The Secretary, whenever the needs of the service require but at least once annually, shall compute the number of officers designated for limited duty authorized under subsection (d) for the grades of lieutenant colonel and major. The Secretary shall also determine the number of such officers, not to exceed the computed number, that will be required to meet the needs of the service during the ensuing year in each of these grades. The number so determined for each grade is the number of officers designated for limited duty prescribed for the grade concerned.

(f) At the time of making the computations required by subsections (b) and (c), the Secretary shall also determine the number of officers on active duty that will be required to meet the needs of the service during the ensuing year in the grades of captain, first lieutenant, and second lieutenant. The numbers so determined are the prescribed numbers for these grades.

(g) The prescribed numbers of officers computed or determined under this section may not be varied between computations. However, the prescribed number for a grade is temporarily increased during the period between one computation and the next succeeding computation by—

(1) the number of officers originally appointed in that grade during that period;

(2) the number of officers of the Marine Corps Reserve ordered to active duty in that grade during that period; and

(3) the number of officers of that grade for whom vacancies exist in the next higher grade but whose promotion has been delayed for any reason.

(h) For the purpose of this section, each officer is counted in the grade in which he is serving, whether under a permanent or a temporary appointment. However, each officer serving under an appointment in the grade of general or lieutenant general and each officer in a grade to which he was appointed under section 5597 or promoted under section 5787 of this title is counted in the grade he would hold had he not been so appointed or promoted. This section is worded to conform to the language used in § 5442 of this title. The first sentence of § 314 (a) of the Officer Personnel Act of 1947, as amended (34 U. S. C. 626–1 (a)) is not specifically reproduced within subtitle C, but its effect on Marine Corps law is drafted in the numerous sections of this subtitle to which it is cited.

In subsection (a) the words "not restricted in the performance of duty" are omitted since the use of these words would exclude from the basic computation the number of limited duty officers on active duty. This result is clearly not intended as shown by the wording of the fourth sentence of § 314 (a) (34 U.S.C. 626–1 (a)). The only officers excluded in making the basic computation are officers designated for supply duty and these officers are excluded specifically by the words "excluding officers carried as additional numbers in grade". The words "in the Marine Corps" are added for clarity. The words "in the grade of second lieutenant and above" are added to reflect the definition of "officer" in 34 U. S. C. 3c (a) as it pertains to the Marine Corps. The words "at any one time" are omitted since the limitations imposed by the table apply only to the Secretary of the Navy's computation of the prescribed number of officers in each grade under subsections (b) and (c) of this section. The words "expect as provided in subsections (b) and (c)" are substituted for the words "except as otherwise provided by subsection (k) of this Act" since § 303 (k) as it affects officers of the Marine Corps is codified in subsections (b) and (c). The words "number of officers serving on active duty in the grade of second lieutenant and above, excluding officers carried as additional numbers in grade" are substituted for the words "such line officers" for clarity, and the words "in the first column of the table" are substituted for the words "in the above table" for clarity and accuracy.

Subsection (b) is added for clarity. For each strength listed in the table in § 314 (a) of the Officer Personnel Act of 1947, as amended (34 U. S. C. 626–1 (a)), a single figure is given for the combined grades of brigadier general and above. Section 314 (b) (34 U. S. C. 626-1 (b)) provides that, of the number authorized for the combined grades, not more than 50 percent may be major generals and above and the remainder brigadier generals. Subject to this limitation a determination must be made as to how many are required in each grade, but the Act is silent as to how this is to be done. Subsection (b) describes the method used to determine the prescribed numbers for the grades of brigadier general and major general. As to officers in higher grades, see subsection (j) of this section and section 5232 of this title.

In subsection (f) the last sentence is added for clarity.

In subsection (g) the words "Quartermaster General of the Marine Corps" are substituted for the words "the head of the Supply Department". The substituted phrase constitutes the statutory title of the head of the Supply Department.

AMENDMENTS

1966—Subsec. (a). Pub. L. 89–731 changed the permissible number of brigadier and major generals allowed on active duty in the Marine Corps.

1961—Subsecs. (a), (b), (c), and (f). Pub. L. 87–123, § 5(6)(A), eliminated ", excluding officers carried as additional numbers in grade," wherever appearing.

Subsecs. (g) and (h). Pub. L. 87–123, § 5(6)(B), redesignated former subsecs. (i) and (j) as (g) and (h), and eliminated former subsecs. (g) and (h) relating to the percentage of officers designated for supply duty in relation to the number of officers on active duty prescribed for their respective grades.

Subsecs. (i) and (j). Pub. L. 87–123, § 5(6)(B), redesignated former subsecs. (i) and (j) as (g) and (h), respectively.

REASSIGNMENT OF SUPPLY DUTY OFFICERS

Section 1 of Pub. L. 87–123 provided: "That officers on the active list of the Marine Corps designated for supply duty, except the officer serving as Quartermaster General on the date of enactment of this Act [Aug. 3, 1961], are hereby reassigned as officers not restricted in the performance of duty. All provisions of law relating to officers on the active list of the Marine Corps not restricted in the performance of duty apply to officers reassigned by this Act [amending sections 5001, 5204, 5409, 5443, 5448, 5589, 5703, 5706, 5707, 5709, 5751, 5765, 5769, 5775, 5776, 6374, 6376, 6377, and 6378 of this title, and repealing sections 5205, 5588, 5759, 6020 and 6375 of this title], except as otherwise specifically provided herein."

READJUSTMENT OF NUMBERS OF OFFICERS AUTHORIZED TO SERVE IN GRADES ABOVE CAPTAIN

Section 2 of Pub. L. 87–123 provided that: "The numbers of officers authorized to serve in grades above captain in the Marine Corps as set forth in the table in subsection (a) of section 5443 of title 10, United States Code [subsec. (a) of this section], are readjusted to the extent necessary to include the numbers of officers authorized for those grades by subsections (g) and (h) of that section [subsecs. (g) and (h) of this section] as those subsections read before the enactment of this Act [Aug. 3, 1961]."

Section 2 of Pub. L. 87–123 is repealed by section 2 of Pub. L. 89–731 insofar as it applied to the readjustment of the authorized number of brigadier and major generals in the Marine Corps.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 5232, 5445, 5446, 5451, 5778 of this title.

§ 5444. Navy: staff corps officers on active duty.

(a) The number of officers serving on active duty in the grade of rear admiral in the Medical Corps, the Supply Corps, the Chaplain Corps, the Civil Engineer Corps, and the Dental Corps, respectively, excluding any rear admiral serving as a chief

of bureau, may not exceed, in each corps, a number appropriate to the total number of officers in that corps serving on active duty, as set forth in the following tables. If the total number of officers on active duty in any corps falls between two strengths shown in the first column of the appropriate table, the number of rear admirals is determined by proportionate interpolation between the numbers for the two strengths. If the number of officers on active duty in a corps is less than the smallest tabulated number for the corps concerned, the number for the grade of rear admiral in that corps is $\frac{2}{10}$ of 1 percent of the total number of officers serving on active duty in the corps.

(b) Repealed. Pub. L. 90–130, § 1(17)(A), Nov. 8, 1967, 81 Stat. 376.

(c) The Secretary of the Navy, whenever the needs of the service require but at least once annually, shall compute the number of rear admirals authorized under this section for each corps. The number so computed are the numbers of officers serving on active duty prescribed for the grade of rear admiral in the corps concerned. However, if the Secretary determines at the time of making any computation under this section that the number of officers required to meet the needs of the service in the grade of rear admiral in any of these corps is less than the prescribed number as computed, the lesser number becomes the prescribed number for the grade of rear admirals in the corps concerned.

(d) Each officer in a staff corps who serves as a chief of bureau and who, before or during that service, is appointed to the grade of rear admiral under section 5772 or section 5781 of this title shall, upon termination of his appointment as chief of bureau, be carried in excess of the prescribed number until the next vacancy occurs in the grade of rear admiral in his corps.

(e) The prescribed numbers of officers computed or determined under this section may not be varied between computations.

(f) For the purpose of this section, each officer is counted in the grade in which he is serving, whether under a permanent or a temporary appointment. However, each officer serving under an appointment in the grade of admiral or vice admiral and each officer in a grade to which he was appointed under section 5597 or promoted under section 5787 of this title is counted in the grade he would hold had he not been so appointed or promoted. This section is phrased so as to conform as nearly as possible to the language used in §§ 5442 and 5443.

In subsection (a) the part of § 303 (f) of the Officer Personnel Act of 1947, as amended (34 U. S. C. 5a (f)), that precedes the provisos is omitted as surplusage. All specific provisions as to authorized numbers of staff corps officers in various grades are set forth in this section. Distribution of staff corps officers in grade is otherwise automatically controlled by the operation of the running-mate system. The words "in the first column of the appropriate table" are substituted for the words "in the appropriate table above" for clarity.

In subsection (d) the words "Each officer in a staff corps who serves as a chief of bureau and who, before or during such service is appointed to the grade of rear admiral under section 5772 or section 5781 of this title" are substituted for the words "such a rear admiral serving as a chief of bureau" to make it clear that this subsection does not apply to any officer who has the rank of rear admiral by virtue of his appointment as bureau chief, but who has not been appointed to the grade of rear admiral. Such an officer loses the rank when he ceases to serve as bureau chief. The word "appointment" is substituted for the word "tenure" to conform to the terminology used in chapter 513 of this title.

In subsection (e) the second sentence, which is derived from 34 U. S. C. 285a, is phrased so as to conform to the language used in § 5442 (g) (3) of this title, but is stated as applying only to the grade of lieutenant commander in the Nurse Corps. In each staff corps other than the Nurse Corps, there is a prescribed number for only one grade, so that 34 U. S. C. 285a can have no application. In the Nurse Corps there are prescribed numbers for the two highest grades to which nurses may be promoted under the Officer Personnel Act of 1947. Therefore, 34 U. S. C. 285a is applicable to the lower of the two grades, i. e. lieutenant commander.

Subsection (f) is phrased so as to give effect to all three of the cited provisions. See the revision note on § 5442 (i) of this title.

AMENDMENTS

1967—Subsec. (b). Pub. L. 90-130, § 1(17)(A), struck out subsec. (b) which limited the number of officers serving on active duty in the grades of captain and commander in the Nurse Corps to 2/10 of 1 percent and 5 percent respectively of the number of officers serving on active duty in that corps.

Subsec. (c). Pub. L. 90-130, § 1(17)(B), struck out reference to the Secretary's special computations with respect to the numbers of captains and commanders authorized under this section for the Nurse Corps.

1957—Subsec. (b). Pub. L. 85-155, § 201(1), substituted "grades of captain and commander in the Nurse Corps may not exceed, respectively, 2/10 of 1 percent and 5 percent of the number of officers serving on active duty in that corps" for "grade of captain in the Medical Service Corps may not exceed 2 percent of the number of officers serving on active duty in that corps, and the number of officers serving on active duty in the grades of commander and lieutenant commander in the Nurse Corps may not exceed, respectively, 1 75/100 percent and 7 75/100 percent of the number of officers serving on active duty in that corps".

Subsec. (c). Pub. L. 85-155, § 201(2), substituted "captains and commanders authorized under this section for the Nurse Corps" for "captains authorized under this section for the Medical Service Corps" in clause (2), eliminated clause (3) which related to computation of the number of commanders and lieutenant commanders authorized under this section for the Nurse Corps, and substituted "or in the grade of captain or commander in the Nurse Corps" for "in the grade of captain in the Medical Service Corps, or in the grade of commander or lieutenant commander in the Nurse Corps" in the third sentence, and "captain" for "commander" and "commander" for "lieutenant commander" in the last sentence.

Subsec. (e). Pub. L. 85-155, § 201(3), eliminated provisions which related to temporary increase in the prescribed number of officers for the grade of lieutenant commander in the Nurse Corps.

The Women's Armed Services Integration Act of 1948 made Title III of the Officer Personnel Act of 1947 inapplicable to women line and staff corps officers of the Regular Navy and the Naval Reserve other than officers in the Nurse Corps. The act of June 25, 1952, ch. 457 (34 U. S. C. 21e), provides an additional alternative authority for the appointment of women officers in the Regular Navy and the Naval Reserve in the Medical Corps, the Dental Corps, and the Medical Service Corps. The 1952 act states that, with two specific exceptions, all laws applicable to male officers in these corps shall apply to women officers appointed under that act. Title III of the Officer Personnel Act of 1947 is therefore applicable to women so appointed. Clauses (1) and (2) of the subsection (b) are worded accordingly.

§ 5447. Navy: line officers on the active list; permanent grade.

(a) The distribution in permanent grades of officers on the active list in the line of the Navy, excluding fleet admirals and officers carried as additional numbers in grade, shall be based on the following percentages of the number of such officers:

(1) Rear admiral—$^{75}/_{100}$ of 1 percent.

(2) Captain—6 percent.

(3) Commander—12 percent.

(4) Lieutenant commander—18 percent.

(5) Lieutenant—$24^{75}/_{100}$ percent.

(6) Lieutenant (junior grade) and ensign combined—$38^{50}/_{100}$ percent.

(b) The Secretary of the Navy, as of January 1 of each year, shall compute the number of officers authorized under subsection (a) for each grade above lieutenant (junior grade) and for the combined grades of lieutenant (junior grade) and ensign. The number so computed is the number of line officers on the active list, excluding officers carried as additional numbers in grade, prescribed for the grade or grades concerned. However, if the number of officers prescribed for the grade of captain as computed cannot be attained because of the minimum total commissioned service required for promotion to that grade by section 5780 of this title, the Secretary shall determine an appropriate lesser number. The lesser number then becomes the prescribed number for the grade of captain and the Secretary shall make a corresponding increase in the prescribed number for one or more of the lower grades.

(c) Notwithstanding the provisions of subsection (a), the number of officers not restricted in the performance of duty who may hold permanent appointments on the active list in the line of the Navy in the grade of rear admiral may not exceed 150, except in time of war or national emergency.

(d) Of the numbers of officers prescribed for grades below captain, as computed or determined under subsection (b), not more than the following percentages may be officers designated for limited duty:

(1) Commander—$3^{64}/_{100}$ percent.

(2) Lieutenant commander—$8^{62}/_{100}$ percent.

(3) Lieutenant—$7^{72}/_{100}$ percent.

(4) Lieutenant (junior grade) and ensign combined—$6^{4}/_{100}$ percent.

(e) The Secretary, as of January 1 of each year, shall compute the number of officers designated for limited duty authorized under subsection (d) for each grade above lieutenant (junior grade) and for the combined grades of lieutenant (junior grade) and ensign. The Secretary shall also determine the number of such officers, not to exceed the computed number, that will be required to meet the needs of the service during the ensuing year in each grade above lieutenant (junior grade) and in the combined grades of lieutenant (junior grade) and ensign. The number so determined is the prescribed number for the grade or grades concerned.

(f) The number of officers on the active list designated for engineering duty, aeronautical engineering duty, and special duty holding permanent appointments in the grade of rear admiral may not exceed 13 percent of the number of officers prescribed for the grade of rear admiral as computed under subsection (b). The Secretary, as of January 1 of each year, shall compute the number of officers authorized by this subsection to hold permanent appointments in the grade of rear admiral. The number so computed is the number of officers on the active list, restricted in the performance of duty, prescribed for the permanent grade of rear admiral. However, except in time of war or national emergency, the total number of officers on the active list, restricted in the performance of duty, holding permanent appointments in the grade of rear admiral may not exceed 19.

(g) The numbers of officers on the active list designated for engineering duty, aeronautical engineering duty, and special duty, respectively, holding permanent appointments in the combined grades of captain, commander, and lieutenant commander may not exceed the following percentages of the sum of the numbers of officers prescribed for those grades as computed or determined under subsection (b):

(1) Engineering duty—11 percent.

(2) Aeronautical engineering duty—7 percent.

(3) Special duty—12 percent.

The Secretary, as of January 1 of each year, shall compute the number of officers designated for engineering duty, aeronautical engineering duty, and special duty, respectively, authorized under this section to hold permanent appointments in these combined grades. The number so computed for each designation is the number of officers of that designation on the active list prescribed for these combined permanent grades.

(h) The prescribed numbers of officers computed or determined under this section may not be varied

between computations. However, the prescribed number for a grade is temporarily increased during the period between one annual computation and the next succeeding computation by—

(1) the number of officers originally appointed in that grade during that period; and

(2) the number of officers of that grade for whom vacancies exist in the next higher grade but whose promotion has been delayed for any reason.

(i) For the purpose of this section—

(1) each officer is counted in his permanent grade; and

(2) women officers are not counted.

In subsection (a) the distribution of officers in grade is stated in terms of percentages, rather than in terms of proportions, for uniformity and clarity. The words "The distribution * * * shall be based on" are substituted for the words "The total number * * * shall be distributed in" because the distribution prescribed in this section is not inflexible but is subject to variations under the conditions set forth in subsection (b).

In subsection (e) the word "authorized" is substituted for the word "maximum" for clarity and uniformity of expression. No change in meaning is effected. Although this subsection makes it mandatory that the Secretary determine the number required to meet the needs of the service after making his computations, the number so determined may be equal to the "maximum" number as computed, and, if this is true, the maximum number is the authorized number. The number determined by the Secretary does not become the authorized number unless it is lower than the maximum.

For an explanation of the changes in language in subsection (h), see the revision note on § 5442 (g) of this title.

AMENDMENTS

1968—Subsec. (g). Pub. L. 90-386 increased from 9 to 11, 5 to 7, and 5 to 12 the maximum percent of officers on the active list holding permanent appointments in the combined grades of captain, commander, and lieutenant commander that may be designated for engineering duty, aeronautical engineering duty, and special duty, respectively.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 5231, 5780 of this title.

§ 5448. Marine Corps: officers on the active list; permanent grade.

(a) The distribution in permanent grades of officers on the active list of the Marine Corps shall be based on the following percentages of the number of such officers:

(1) Major general and brigadier general combined—$^{75}/_{100}$ of 1 percent.

(2) Colonel—6 percent.

(3) Lieutenant colonel—12 percent.

(4) Major—18 percent.

(5) Captain—24 $^{75}/_{100}$ percent.

(6) First lieutenant and second lieutenant combined—38 $^{50}/_{100}$ percent.

However, the number of officers who may have permanent appointments on the active list of the Marine Corps in the grades of major general and brigadier general may not exceed 36, except in time of war or national emergency.

(b) The Secretary of the Navy, as of January 1 of each year, shall compute the number of officers authorized under subsection (a) for the grades of major general and brigadier general. At the time of making this computation, the Secretary shall also determine the number of officers required to meet the needs of the service in each of those grades. The number so determined for each grade is the number of officers on the active list prescribed for that grade. However, the prescribed number for the grade of major general may not exceed 50 percent of the sum of the prescribed numbers for that grade and the grade of brigadier general, and the sum of the prescribed numbers must equal the number authorized for general officer grades under subsection (a).

(c) The Secretary, as of January 1 of each year, shall compute the number of officers authorized under subsection (a) for each of the grades of colonel, lieutenant colonel, major, and captain and for the combined grades of first lieutenant and second lieutenant. The number so computed is the number of officers on the active list prescribed for the grade or grades concerned. However, if the number of officers prescribed for the grade of

colonel as computed cannot be attained because of the minimum total commissioned service required for promotion to that grade by section 5780 of this title, the Secretary shall determine an appropriate lesser number. The lesser number then becomes the prescribed number for the grade of colonel and the Secretary shall make a corresponding increase in the prescribed number for one or more of the lower grades.

(d) Of the numbers of officers prescribed for grades below colonel, as computed or determined under subsection (c), not more than the following percentages may be officers designated for limited duty:

(1) Lieutenant colonel—$3\frac{64}{100}$ percent.

(2) Major—$8\frac{62}{100}$ percent.

(3) Captain—$7\frac{72}{100}$ percent.

(4) First lieutenant and second lieutenant combined—$6\frac{4}{100}$ percent.

(e) The Secretary, as of January 1 of each year, shall compute the number of officers designated for limited duty authorized under subsection (d) for each grade above first lieutenant and for the combined grades of first lieutenant and second lieutenant. The Secretary shall also determine the number of such officers, not to exceed the computed number, that will be required to meet the needs of the service during the ensuing year in each grade above first lieutenant and in the combined grades of first lieutenant and second lieutenant. The number so determined is the prescribed number for the grade or grades concerned.

(f) The prescribed numbers of officers computed or determined under this section may not be varied between computations. However, the prescribed number for a grade is temporarily increased during the period between one annual computation and the next succeeding computation by—

(1) the number of officers originally appointed in that grade during that period; and

(2) the number of officers of that grade for whom vacancies exist in the next higher grade but whose promotion has been delayed for any reason.

(g) For the purpose of this section—

(1) each officer is counted in his permanent grade; and

(2) women officers are not counted.

This section is worded to conform to the language used in § 5447 of this title. Subsection (b) is inserted, however, to clarify the manner in which the determination is made as to the numbers of major generals and brigadier generals that are required. This insertion is made for the reasons stated in the revision note on § 5443 of this title.

In subsection (f) the words "Quartermaster General of the Marine Corps" are substituted for the words "the head of the Supply Department." The substituted phrase constitutes the statutory title of the head of the Supply Department.

AMENDMENTS

1961—Subsec. (a). Pub. L. 87-123, § 5(7) (A), (B), substituted "may not exceed 36" for "may not exceed 32" and eliminated provisions which authorized exclusion of officers carried as additional numbers in grade.

Subsecs. (f) and (g). Pub. 87-123, § 5(7)(C), redesignated former subsecs. (h) and (i) as (f) and (g), and eliminated former subsecs. (f) and (g) relating to the percentage of officers designated for supply duty in relation to the number of officers on active duty prescribed for their respective grades.

Subsecs. (h) and (i). Pub. L. 87-123, § 5(7)(C), redesignated former subsecs. (h) and (i) as (f) and (g), respectively.

§ 5449. Navy: staff corps officers on the active list; permanent grade.

(a) The number of officers on the active list of the Navy holding permanent appointments in the grade of rear admiral in the Medical Corps, the Supply Corps, the Chaplain Corps, the Civil Engineer Corps, and the Dental Corps, respectively, excluding any rear admiral serving as a chief of bureau, may not exceed, in any of those corps, 5/10 of 1 percent of the number of officers on the active list of the Navy in the corps concerned. The Secretary of the Navy, as of January 1 of each year, shall compute the number of officers authorized under this section to hold permanent appointments in the grade of rear admiral in each corps. The number so computed for each corps is the number of officers on the active list in that corps prescribed for the permanent grade of rear admiral. However, except in time of war or national emergency, the numbers of officers who may hold permanent appointments on the active list of the Navy in the grade of rear admiral in these corps may not exceed—

(1) 15 in the Medical Corps;

(2) 13 in the Supply Corps;

(3) 2 in the Chaplain Corps;

(4) 4 in the Civil Engineer Corps; and

(5) 4 in the Dental Corps.

(b) Each officer who holds a permanent appointment on the active list of the Navy in the grade of rear admiral in a staff corps, and who serves as a chief of bureau, shall, upon the termination of his appointment as chief of bureau, be carried in excess of the prescribed number until the next vacancy occurs in the permanent grade of rear admiral in his corps.

This section is phrased so as to conform as nearly as possible to the language used in §§ 5447 and 5448 of this title.

In subsection (a) the part of 34 U. S. C. 5 (a) that precedes the provisos is omitted as surplusage. All specific provisions as to authorized numbers of staff corps officers in permanent grades are set forth in this section. Distribution of staff corps officers in permanent grade is otherwise automatically controlled by the running-mate system.

In subsection (b) the word "appointment" is substituted for the word "tenure" to conform to the terminology used in chapter 513 of this title.

For an explanation of the changes in language in subsection (e) (second sentence), see the revision note on § 5444 (e) of this title.

In subsection (f) (2) the words "appointed under section 5590 of this title" are inserted to limit application of the clause to women officers appointed under the Women's Armed Services Integration Act of 1948 and under other laws made applicable to women by that act. Section 206 (p) of the 1948 act (34 U. S. C. 307 (p)) provided that women staff corps officers of the Regular Navy should be excluded from computations under § 203 of the Officer Personnel Act of 1947 (34 U. S. C. 5). The act of June 24, 1952 (34 U. S. C. 21e), provided an additional alternative authority for the appointment of women in the Medical Corps, the Dental Corps, and the Medical Service Corps and stated that all laws applicable to male officers in those corps, with two specific exceptions, are applicable to women officers appointed under the 1952 act. Women so ap-

pointed are therefore included in computations under this section.

AMENDMENTS

1967—Subsec. (c). Pub. L. 90–130, § 1(17)(C), struck out subsec. (c) which placed an upper limit, stated in terms of percentages of the number of officers on the active list of the Navy in the Nurse Corps, on the number of officers on the active list of the Navy in the Nurse Corps holding permanent appointments in the grades of captain and commander.

Subsec. (d). Pub. L. 90–130, § 1(17)(D), struck out provision for a temporary increase in the number for the grade of commander in the Nurse Corps between one annual computation and the next succeeding computation by the number of officers of that grade for whom vacancies exist in the grade of captain but whose promotion to the grade of captain has been delayed for any reason.

1957—Subsec. (c). Pub. L. 85–155, § 201(4)(A), redesignated former subsec. (d) as (c), and Pub. L. 85–155, § 201(4)(B), substituted "grades of captain and commander may not exceed, respectively, 2/10 of 1 percent and 5 percent of the number" for "grades of commander and lieutenant commander may not exceed 7/10 of 1 percent and 1 6/10 percent, respectively, of the number". Former subsec. (c), which related to the number of officers holding permanent appointments in the grade of captain in the Medical Service Corps, was repealed by Pub. L. 85–155, § 201(4)(A).

Subsec. (d). Pub. L. 85–155, § 201(4)(A), redesignated former subsec. (e) as (d), and Pub. L. 85–155, § 201(4)(C), substituted "commander" for "lieutenant commander", and "captain" "for commander" in two instances. Former subsec. (d) redesignated (c).

Subsec. (e). Pub. L. 85–155, § 201(4(A), redesignated former subsec. (f) as (e). Former subsec. (e) redesignated (d).

In subsection (a) the words "In addition * * * to the number of rear admirals and above authorized by titles I, II, and III and by section 413 of this Act, a total of" are omitted as surplusage. Titles I, II, and III, and section 413 of the Officer Personnel Act of 1947 prescribe the number of officers on the lineal list who may have the grade of rear admiral. Retired officers are excluded from the lineal lists and are not counted for any purpose in the computations under the cited titles and section. The source text does not affect the authorized numbers so computed; it sets up an authorized number for a category of officers not previously covered.

The limitation on reserve flag officers on active duty contained in section 430 of the Officer Personnel Act of 1947 was repealed by section 702 (a) of the Reserve Officer Personnel Act of 1954.

§ 5451. Suspension: preceding sections.

(a) Except as provided in subsection (b), the President, during a war or national emergency, may suspend any provision of the preceding sections of this chapter. Such a suspension may not continue beyond June 30 of the fiscal year following that in which the war or national emergency ends.

(b) The President may suspend provisions of sections 5442, 5443, and 5444 of this title relating to officers serving in grades above lieutenant in the Navy or captain in the Marine Corps only during a war or national emergency declared by Congress or the President after May 5, 1954. AMENDMENTS

1967—Pub. L. 90–130 authorized the Secretary of the Navy to prescribe the number of women officers serving on active duty in the line of the Navy who may hold appointments in each grade above lieutenant (junior grade) and the number of women officers serving on active duty in the Marine Corps who may hold appointments in each grade above first lieutenant and struck out provisions placing a fixed limit on the number of women officers on the active list in the line of the Navy holding permanent appointments in the grades of commander and lieutenant commander and requiring the Secretary to make computations, at least once annually, of the number of women officers authorized to hold permanent appointments in such grades, with authority to make prescribed temporary increases.

1958—Pub. L. 85–861 substituted "whenever the needs of the service require but at least once annually" for "as of January 1 of each year", and added provisions permitting the Secretary, if he determines a lesser number for the grade of commander, to determine a number for grade of lieutenant commander that exceeds the computed number of that grade by the amount of the difference between the computed and determined numbers for the grade of commander.

The act of July 24, 1941, ch. 320, as amended (34 U. S. C. 350 et seq.), and § 413 of the Officer Personnel Act of 1947 (34 U. S. C. 211d) provide for the temporary appointment of officers to grades up to and including admiral. Staff corps officers, women officers, and reserve officers are not excluded from the operation of the provisions of the 1941 act. Since authority exists for the appointment of officers of any category in any grade in the Navy, the existence of every grade in the several staff corps and in the Naval Reserve is recognized, and the restriction of these grades to the active list of the line is removed.

The grade of Fleet Admiral is omitted inasmuch as the law authorizing appointments in this grade was limited.

In subsection (a) the words "above the grade of chief warrant officer, W-4" are inserted for clarity.

Subsection (c) is added to make clear the fact that an officer serving in a position, such as chief of bureau, which entitles him to the rank, pay, and allowances of a rear admiral of the upper half ranks rear admirals receiving the pay and allowances of the lower half even though he has not been appointed to the grade of rear admiral or, if so appointed, is in the lower half. A statement of this fact is necessary to give full effect to 5 U. S. C. 441 which provides that chiefs of bureaus of the Navy Department and the Judge Advocate General of the Navy, while so serving, shall have "corresponding rank and shall receive the same pay and allowances * * * as * * * chiefs of bureaus of the War Department and the Judge Advocate General of the Army". The rank so conferred, corresponding to the Army rank of major general, is rear admiral of the upper half. In §§ 5133 and 5148 of this title, based on 5 U. S. C. 441, the reference to the Army rank is eliminated and the corresponding Navy rank is substituted. The substitution is made because, as stated in the revision notes on those sections, the creation of the Department of the Air Force and the reorganization of the Department of the Army make it impracticable to continue to relate Navy Department positions to former War Department positions. This treatment of 5 U. S. C. 441 does not, however, completely cover the question of the rank, in relation to other officers in the Navy and other services, of a captain or rear admiral of the lower half who by virtue of his position becomes entitled to the rank, pay, and allowances of a rear admiral of the upper half. Under 34 U. S. C. 241a officers holding *commissions* in the grade of rear admiral rank with major generals if entitled to the pay of the upper half and with brigadier generals if entitled to the pay of the lower half. Under 5 U. S. C. 441 bureau chiefs and the Judge Advocate General rank with major generals regardless of the grade in which they hold commissions and, therefore, also rank all officers of the Navy who are ranked by major generals. This fact, obscured by the substitution of Navy rank in the codification of 5 U. S. C. 441, is set out in subsection (c).

§ 5502. Marine Corps: grades above chief warrant officer, W-4.

The commissioned grades in the Marine Corps above the grade of chief warrant officer, W-4, are:

(1) General.
(2) Lieutenant general.
(3) Major general.
(4) Brigadier general.
(5) Colonel.
(6) Lieutenant colonel.
(7) Major.
(8) Captain.
(9) First lieutenant.
(10) Second lieutenant.

Jan. 20, 1942, ch. 10, § 1, 56 Stat. 10; Aug. 7, 1947, ch. 512, § 429 (as applicable to grade of general), 61 Stat. 880.

R. S. 1603 provides that officers of the Marine Corps shall be on the same footing as officers of similar grades in the Army. Recognition is made of the grades existing in the Army for the purpose of listing the grades authorized for the Marine Corps.

The provisions of the act of July 1, 1918, ch. 114, 40 Stat. 715 (1st par.), pertaining to the appointment of a major general in addition to the Major General Commandant and a temporary major general were superseded by the act of May 29, 1934, ch. 367, § 2, 48 Stat. 812, which in turn was repealed by § 436 (e) of the Officer Personnel Act of 1947, 61 Stat. 882.

§ 5503. Navy and Marine Corps: warrant officer grades.

The warrant officer grades in the Navy and the Marine Corps are:

(1) Chief warrant officer, W-4.
(2) Chief warrant officer, W-3.
(3) Chief warrant officer, W-2.
(4) Warrant officer, W-1.

This section is included in subtitle C for completeness and clarity. In duplicates, in part, §§ 555 and 597 of this title, which cover, respectively, the "permanent regular warrant officer grades" and the "permanent reserve warrant officer grades" in the armed forces. The concept that regular grades differ from reserve grades and that a grade held under a permanent appointment differs from the grade of the same name held under a temporary appointment is foreign to the naval service. In the Navy and the Marine Corps, all officers serving, for example, in the grade of chief warrant officer, W-4, are considered to be serving in the same grade regardless of whether they are Regulars or Reserves and regardless of whether they are temporary or permanent officers holding temporary or permanent appointments in that grade. This section, therefore, lists the four warrant officer grades as applicable to all warrant officers of the naval service.

Reference to the pay grades corresponding to the military grades is omitted as unnecessary for the purpose of this section.

§ 5504. Lineal lists: maintenance.

(a) The Secretary of the Navy shall maintain a single lineal list of officers in the line of the Navy on active duty in the grade of ensign and above. Line officers shall be carried on this list in the order of seniority of the grades in which they are serving. Officers serving in the same grade shall be carried in the order of their dates of rank in that grade. Officers serving in the same grade and having the same date of rank in that grade shall be carried in the order of their seniority.

(b) The Secretary shall maintain a single lineal list of officers of the Marine Corps on active duty in the grade of second lieutenant and above. Officers of the Marine Corps shall be carried on this list in the order of seniority of the grades in which they are serving. Officers serving in the same grade shall be carried in the order of their dates of rank in that grade. Officers serving in the same grade and having the same date of rank in that grade shall be carried in the order of their seniority.

(c) The Secretary shall maintain for each staff corps a single lineal list of officers in that corps on active duty. Staff corps officers serving in the grade of lieutenant (junior grade) or above shall be carried on the lineal lists for their respective corps in the order in which their running mates are carried on the lineal list for officers in the line. Staff corps officers serving in the grade of ensign shall be carried on the lineal lists for their respective corps in the order of their dates of rank in that grade. Staff corps officers serving in the grade of ensign and having the same date of rank in that grade shall be carried on the lineal lists for their respective corps in the order of their seniority.

(d) For the purpose of this section, each officer serving in a grade to which he was appointed under section 5597 or promoted under section 5787 of this title is considered as serving in the grade he would hold if he had not been so appointed or promoted.

(e) Each officer serving in the grade of admiral, vice admiral, general, or lieutenant general has, upon the termination of his appointment in that grade, the grade and position on the lineal list that he would hold if he had not received such an appointment.

(f) Except as provided in subsection (g), an officer's rank among officers on the same lineal list is determined by his position on that list.

(g) An officer who is appointed to an office the incumbent of which, regardless of his grade and date of rank in grade, is entitled to the rank of rear admiral with pay of the upper half or to the rank of major general shall be carried on the appropriate lineal list in the position he would have if he had not been so appointed. However, his rank among other officers holding the grade or serving with the rank of rear admiral or major general is determined by the date of his appointment to the office to which the rank of rear admiral with pay of the upper half or major general is attached, rather than by his position on the lineal list, unless his position on the list entitles him to higher rank.

(h) Persons appointed in the grade of ensign in the Navy or second lieutenant in the Marine Corps under section 2106, 2107, 5573, or 6909 of this title shall be placed on the appropriate lineal lists. The initial position on a lineal list of officers having the same date of rank shall be determined by the Secretary in accordance with their demonstrated performance regardless of the source from which procured, giving consideration to whatever differences exist in the methods of assigning grades among the various educational institutions at which the officers have been educated.

(i) Each officer appointed under section 5584, or 5586 of this title shall be placed on the appropriate lineal list after the junior officer of the same grade.

(j) Officers of the Naval Reserve and the Marine Corps Reserve when ordered to active duty, shall be placed on the appropriate lineal list among officers in the same grade in accordance with their dates of rank. The position of each such reserve officer among officers having the same date of rank as himself is as determined by the Secretary.

(k) There shall be excluded from the lineal lists under this section the following:

(1) Retired officers.

(2) Retired enlisted members and members of the Fleet Reserve and the Fleet Marine Corps Reserve on active duty serving under temporary appointments under section 5597 of this title.

(3) Each temporary officer whose only appointment to a grade above chief warrant officer, W-4, is an appointment under section 5597 of this title for a period of limited duration.

(4) Officers of the Naval Reserve and the Marine Corps Reserve assigned to active duty for training, ordered to active duty in connection with organizing, administering, recruiting, instructing, training, or drilling the Naval Reserve or the Marine Corps Reserve, or ordered to temporary active duty to prosecute special work.

(5) Women officers appointed under section 5590 of this title.

(6) Women reserve officers, other than reserve officers in the Nurse Corps and other than reserve officers appointed under section 5581 of this title.

In subsection (a) the word "maintain" is substituted for the word "establish". Since the Secretary is required to add officers to the lineal list after its original establishment, it is apparent that Congress intended the list to be continually maintained.

Subsection (d) is added to make it clear that promotions or appointments under the act of July 24, 1941, ch. 320, 55 Stat. 603 (34 U. S. C. 350–350k), do not affect an officer's position on the lineal list established under title III of the Officer Personnel Act of 1947. (See discussion in the revision note on § 5442 (1) of this title.)

Subsections (f) and (g) are expanded in the interest of clarity and completeness. Section 304 of the Officer Personnel Act of 1947, as amended (34 U. S. C. 211a), provides that each lineal list shall constitute the order of seniority of officers on the list as of the date of establishment of the list. By military usage the order in which officers' names appear on such a list determines the order in which they take precedence, i. e., their relative rank. Subsection (f) so states. The principal purpose of the establishment of the lineal lists, however, was not to determine relative rank but to provide a starting point for the operation of the promotion and elimination systems established by the Officer Personnel Act of 1947. For the purpose of these systems officers who rank with rear admirals of the upper half or major generals by virtue of their appointment to such offices as chief of bureau or Judge Advocate General, and who have not been regularly promoted to the grade of rear admiral or major general, are necessarily placed on the lineal lists in accordance with their actual grades, dates of rank in grade, and seniority in grade, without regard to the higher rank accorded them. The rank of such officers, unlike that of other officers, is independent of their position on the list, because it is otherwise provided for by law. Similarly any officer who holds the grade of rear admiral or major general, but who was promoted to that grade after his appointment to such an office as chief of bureau, ranks among other rear admirals or major generals according to the date of his appointment as bureau chief or similar official instead of in accordance with his date of rank in grade. (See Melling, Laws Relating to the Navy, Annotated (1921), p. 370.) Subsection (g) states this exception to the general rule stated in subsection (f).

In subsection (h) the provisions of R. S. 1483 and R. S. 1521 relating to the determination of precedence of Naval Academy graduates upon commissioning are not separately stated, inasmuch as they are included within the broader provisions of section 6 (d) of the act of Aug. 13, 1946, ch. 962 (34 U. S. C. 1020e (d)). Under the 1946 Act the precedence of both Naval Academy graduates and officers appointed from other educational institutions is determined in the same manner as that prescribed by the Revised Statutes for Naval Academy graduates only.

In subsection (k) (4) the words "assigned to active duty for training" are inserted because § 302 (a) of the Officer Personnel Act of 1947 (34 U. S. C. 3c (a)) makes title III of that act inapplicable to reserve officers on training duty. In clause (5) the words "appointed under section 5590 of this title" and in clause (6) the words "and other than reserve officers appointed under section 5581 of this title" are added to avoid excluding from the lineal lists women officers appointed under authority of the Act of June 24, 1952, ch. 457 (34 U. S. C. 21e). The Women's Armed Services Integration Act of 1948 provided that title III of the Officer Personnel Act of 1947 should not be applicable to women officers of the Regular Navy or the Naval Reserve other than officers in the Nurse Corps. However, the 1952 act, which provides an additional alternative authority for the appointment of women officers in the Regular Navy and the Naval Reserve in the Medical Corps, the Dental Corps, and the Medical Service Corps, makes applicable to women so appointed all laws (with two specific exceptions) applicable to male officers in those corps.

AMENDMENTS

1964—Subsec. (h). Pub. L. 88–647 substituted "2106, 2107, 5573" for "5573, 6904, 6906."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 5891 of this title.

§ 5505. Reserve officers: change of lineal position.

(a) Notwithstanding any other provision of law, the Secretary of the Navy may change the position on the lineal list of any officer of the Naval Reserve or the Marine Corps Reserve to equalize his opportunities for promotion with officers of the Regular Navy or the Regular Marine Corps.

(b) Any officer whose lineal position is changed under this section may be appointed in the same or the next higher grade but not above that of captain in the Navy or colonel in the Marine Corps, and his date of rank may be changed to conform with his new lineal position. The authorized number of officers in any grade may be temporarily exceeded, until the next succeeding computation, by

the number of officers advanced to that grade under this section.

(c) Repealed. Pub. L. 87-649, § 14c(25), Sept. 7, 1962, 76 Stat. 501.

(d) Any officer of the Naval Reserve or Marine Corps Reserve who is selected for participation in a personnel procurement program under which he will be ordered to active duty for at least one academic year at a civilian school or college may, upon his request, be ordered to that duty in a temporary grade that is lower than his permanent or temporary grade, without affecting his permanent or temporary grade. In subsection (b) the word "annual" is omitted before the word "computation" to reflect the change made to § 303 of the Officer Personnel Act of 1947, as amended (34 U. S. C. 5a) by the Act of June 30, 1951, ch. 196, § 1, 65 Stat. 108. Originally § 303 permitted only an annual computation by the Secretary of the Navy to determine the authorized number of officers in each grade. As amended, the section authorizes computations by the Secretary "at such times that the needs of the service require but not less than once annually".

AMENDMENTS

1962—Subsec. (c). Pub. L. 87-649 repealed subsec. (c), which provided that an officer appointed in a higher grade is entitled to the pay and allowances of the higher grade from the date of his appointment in that grade. See section 905 of Title 37, Pay and Allowances of the Uniformed Services.

1960—Subsec. (d). Pub. L. 86-559 added subsec. (d).

SUSPENSION OF SECTION; EXCEPTION

Subsecs. (a) and (b) of section 48 of act Aug. 10, 1956, provided that:

"(a) Except as they may apply to women officers of the Regular Navy or the Regular Marine Corps appointed under section 5590 of title 10, United States Code, enacted by section 1, of this Act, the following sections of title 10 cease to operate whenever the number of male officers serving on active duty in the grade of ensign or above in the line of the Navy does not exceed the number of male officers holding permanent appointments in the grade of ensign or above on the active list in the line of the Regular Navy: Sections 5505, 5508, 5596, 5651—5663, 5701—5703, 5705—5711, 5751, 5753—5759, 5761, 5762, 5764—5770, 5785, 5786, 5791, 6371—6384, 6386, 6407.

"(b) For the purposes of subsection (a) [of this section], the following officers may not be considered officers serving on active duty:

"(1) Retired officers.

"(2) Officers of the Naval Reserve assigned to active duty for training.

"(3) Officers of the Naval Reserve ordered to active duty in connection with organizing, administering, recruiting, instructing, or drilling the Naval Reserve or the Marine Corps Reserve.

"(4) Officers of the Naval Reserve ordered to temporary active duty for the purpose of prosecuting special work."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in title 37 section 905.

§ 5506. Naval Reserve and Marine Corps Reserve; officers: precedence.

Officers in an active status in the Naval Reserve in each grade and officers in an active status in the Marine Corps Reserve in each grade rank among themselves and among officers of the same grade in the Regular Navy and the Regular Marine Corps, respectively, in accordance with the dates of rank stated in their commissions. Section, act Aug. 10, 1956, ch. 1041, 70A Stat. 316, related to pay and allowances of rear admirals, and is now covered by section 202 of Title 37, Pay and Allowances of the Uniformed Services.

EFFECTIVE DATE OF REPEAL

Section repealed effective Nov. 1, 1962, see section 15 of Pub. L. 87-649, set out as a note preceding section 101 of Title 37, Pay and Allowances of the Uniformed Services.

§ 5508. Rank of line and staff corps officers of the Navy and officers of the Marine Corps.

(a) Except for an officer entitled to a rank higher than his grade, line and staff corps officers of the Navy serving in the same grade and officers of the Marine Corps serving in the corresponding grade rank among themselves according to their respective dates of rank in grade, whether or not they are on a lineal list. A staff corps officer with the same date of rank as his running mate ranks above all line and staff corps officers junior to his running mate.

(b) Except as provided in subsection (a), officers of the Navy on active duty serving in the same grade and having the same date of rank in that grade rank in the following order:

(1) Officers in the line.

(2) Officers in the Medical Corps.

(3) Officers in the Supply Corps.

(4) Officers in the Chaplain Corps.

(5) Officers in the Civil Engineer Corps.

(6) Officers in the Judge Advocate General's Corps.

The word "rank" is substituted for the words "take precedence" throughout the section for uniformity of expression.

In subsection (a) the first sentence is broadened to include officers of the Marine Corps and officers not on a lineal list. Inclusion of the Marine Corps is possible because the sentence reflects the rule referred to by the Attorney General (25 Op. Atty. Gen. 517) as "an unwritten law of the Army and Navy" as to relative rank between officers in different services. Officers not on a lineal list may properly be included since the statement is consistent with the provisions for assigning lineal position to such officers when they become entitled to be placed on a list.

AMENDMENTS

1967—Subsec. (b). Pub. L. 90-179 added par. (6) and renumbered former pars. (6), (7) and (8) as pars. (7), (8) and (9), respectively.

SUSPENSION OF SECTION

(a) and (b) of section 48 of act Aug. 10, 1956, set out as a note under section 5505 of this title.

(1) shall be discharged not later than 30 days after his arrival in the United States; and

(2) except in time of war is entitled to an increase in basic pay of 25 percent.

5540	34 U. S. C. 201; 34 U. S. C. 201a; 34 U. S. C. 201b.	R. S. 1422; Mar. 3, 1875, ch. 155, 18 Stat. 484. Aug. 18, 1941, ch. 364, § 4, 55 Stat. 630. Dec. 13, 1941, ch. 570, § 2, 55 Stat. 799.

In subsection (a) the words "the senior officer present afloat" are substituted for the words "the commanding officer of any fleet, squadron, or vessel acting singly" to modernize the terminology. At the time of the enactment of the Revised Statutes the word "squadron" meant an organization of any number of vessels more than one, so that all cases were covered by R. S. 1422. The concept of "senior officer present afloat", today, covers as nearly as possible the current equivalent of the concept in the original section. The words "in foreign waters" are inserted to conform to the interpretation of the Supreme Court in *Wilkes* v. *Dinsman*, 7 How. 89 (1849). The words "on service" are omitted, as they have no current ascertainable meaning. The words "by Government or other transportation" are substituted for the words "in some public or other vessel", since this provision is interpreted as directing transportation by either ship or aircraft. The words "to the United States" are substituted for the words "to an Atlantic or to a Pacific port of the United

States, as their enlistment may have occurred on either the Atlantic or Pacific coast of the United States" because aircraft now land at inland airports as well as coastal airports and the duty to return an enlisted member to the United States under this provision is considered complete upon the member's arrival in the United States. The extensive transportation system in the United States presently obviates the necessity of returning a member to a particular area. Furthermore, under 37 U. S. C. 253, the Government bears the cost of transporting the discharged member to his home or to the place from which he was called to active duty. The words "enlisted member of the naval service" are substituted for the words "all petty officers and persons of inferior ratings" in accordance with present terminology. Members of the Marine Corps are included because of interpretations of the Comptroller General, in construing the language of the statute. (14 Comp. Gen. 807, 808, May 1, 1935.) The reference to persons enlisted without the limits of the United States is omitted as unnecessary, since return to the United States is optional with the member and the basic rule applies irrespective of place of enlistment. The language requiring that persons who are detained or sent home be subject to the laws and regulations for the Government of the Navy is omitted as unnecessary in view of the Uniform Code of Military Justice. The provision referring to reentry to serve until the vessel returns to the United States is omitted because no law authorizes entry or reentry into the service for this restricted purpose.

In subsection (b) the words "an increase in basic pay of 25 percent" are substituted for the words "an addition of one-fourth of their former pay" in conformity with the Career Compensation Act of 1949. 34 U. S. C. 201b permanently suspended the detention pay increase in time of war and this effect is expressed in subsection (b)(2) by the words "except in time of war". 34 U. S. C. 201a, declaring that the pay addition authorized by this section does not apply to enlistments extended under other provisions of law, is omitted as unnecessary, since the increased pay provision is specifically limited to detentions under this section.

In subsection (c) the term "enlistment contract" is substituted for the term "shipping-articles" to conform to present terminology.

§ 5571. Regular Navy and Regular Marine Corps: citizenship of officers.

To be eligible to hold an appointment as an officer in the Regular Navy or the Regular Marine Corps a person must be a citizen of the United States. (Aug. 10, 1956, ch. 1041, 70A Stat. 321.)

HISTORICAL AND REVISION NOTES

This section is based on R. S. 1428 (34 U. S. C. 211), which provides that the officers of vessels of the United States shall in all cases be citizens of the United States. The Department of the Navy has consistently regarded R. S. 1428 as requiring that all officers of the Navy be citizens of the United States and has held that citizenship is not only a condition precedent to appointment in the Navy but also a qualification necessary in order to continue holding office therein. (See Melling, Laws Relating to the Navy, Annotated, 1921 ed., pp. 571–572.) Early laws relating to appointments in the line, Medical Corps, Supply Corps, Chaplain Corps, and Civil Engineer Corps do not specify that citizenship is a prerequisite, whereas in more recent legislation relating to appointments in the Dental Corps, Medical Service Corps, and Nurse Corps, and to the appointment of women in the line and staff corps, the citizenship requirement is spelled out. The simultaneous enactment of restatements of these provisions of law, some sections including the citizenship requirement and others omitting it, could give rise to the erroneous implication that noncitizens were eligible for appointment under the sections that did not specifically exclude them. R. S. 1428 is reproduced in § 6019 of this title, and its effect will be retained, but in order to avoid possible confusion, its accepted meaning with relation to all appointments of officers in the Regular Navy is set out here and the citizenship requirement is not spelled out in any of the other sections of this chapter.

R. S. 1428 was formerly interpreted as requiring that reserve as well as regular officers be citizens. However, § 217 of the Armed Forces Reserve Act of 1952 (50 U. S. C. 941), codified in § 591 of this title, authorizes the appointment in the reserve components not only of citizens

[1] Section 5601 repealed and analysis was not amended to reflect such repeal.

but also of non-citizens who have had prior service or who have declared their intent to become citizens. Thus R. S. 1428 no longer precludes the appointment of non-citizens as reserve officers, although it does prohibit their serving on vessels of the United States. It also prohibits the employment of aliens as officers on any public or private vessel of the United States. There is an identical citizenship requirement for officers of vessels of United States registry in R. S. 4131 (46 U. S. C. 221). R. S. 1428, however, covers all United States vessels, including those also covered by R. S. 4131.

AMENDMENTS

1958—Pub. L. 85-861 substituted "Except as provided in section 5573a of this title, each" for "Each".

§ 5573. Regular Navy and Regular Marine Corps: from graduates of the Naval Academy.

(a) Upon graduation from the Naval Academy, a midshipman may be appointed—

(1) an ensign on the active list of the Navy in the line or in an appropriate staff corps; or

(2) a second lieutenant on the active list of the Marine Corps.

An appointment under this section is effective from the date of graduation of the appointee.

(b) Appointments may be made in the line of the Navy under this section irrespective of vacancies, and the authorized strength of the active list of the Navy in line officers may be temporarily exceeded by the number of these appointees in excess. The number of officers in excess shall be excluded from any computation made for the purpose of determining the number of line officers prescribed for any grade. Appointments in the Marine Corps or in a staff corps under this section may be made only to fill vacancies. (Aug. 10, 1956, ch. 1041, 70A Stat. 321.)

HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
5573	34 U. S. C. 1057 (less 3d sentence); 34 U. S. C. 12 (less statement of appointing authority).	July 9, 1913, ch. 5, 38 Stat. 103 (proviso); July 1, 1918, ch. 114, 40 Stat. 716 (5th proviso). May 6, 1932, ch. 170, § 1, 47 Stat. 149; May 29, 1934, ch. 368, § 5, 48 Stat. 814; Aug. 29, 1935, ch. 803, 49 Stat. 959 (less statement of appointing authority).

Subsection (a) is written as authority to appoint graduates of the Naval Academy in the line or in a staff corps of the Navy or in the Marine Corps, in accordance with the combined effect of 34 U. S. C. 1057 and 34 U. S. C. 12. The words "ensign in * * * an appropriate staff corps" are substituted, in 34 U. S. C. 1057, for the words "lowest commissioned grades of the * * * staff corps" because of the effect of § 405 of the Officer Personnel Act of 1947 (34 U. S. C. 10a) which established grades in the various staff corps corresponding to those of the line and abolished the old staff corps grades; because appointments in certain corps in the grade of ensign are not authorized; and because the appointment of recent Naval Academy graduates in the grade of lieutenant (junior grade) in any staff corps in which initial appointments cannot be made in the grade of ensign has never been contemplated. Similarly, the grade of "second lieutenant" in the Marine Corps is spelled out as the proper statement of the words "lowest commissioned grade of the Marine Corps". There were no commissioned warrant officers in the Marine Corps when the statutes upon which 34 U. S. C. 1057 is based were enacted.

Subsection (b) states the authority, contained in 34 U. S. C. 12, to make appointments in the line irrespective of vacancies. Authority to make appointments in the staff corps and the Marine Corps exists only where there are vacancies, in accordance with 34 U. S. C. 1057. The first proviso of 34 U. S. C. 12 is omitted as executed. The statement in the second proviso that appointees in excess of total vacancies in the line shall also be considered in excess of the authorized number in the grade of ensign and shall be excluded from computations to determine authorized numbers in grades above lieutenant (junior grade) is rendered as excluding these officers from computations for all grades in view of the Officer Personnel Act of 1947 under which there is a single figure for the combined grades of lieutenant (junior grade) and ensign.

§ 5573a. Regular Navy and Regular Marine Corps: from reserve and temporary officers.

(a) Appointments to the active list of the Navy in permanent grades not above lieutenant and to the active list of the Marine Corps in permanent grades not above captain may be made from officers of the Naval Reserve or the Marine Corps Reserve and from officers of the Regular Navy or the Regular Marine Corps who do not hold permanent commissioned appointments therein.

(b) Appointments under subsection (a) shall be made by the President alone under regulations to be prescribed by him for the administration of this section. The regulations shall include provisions—

(1) establishing standards and qualifications for appointments in each grade in which appointments are authorized by subsection (a);

(2) for determining the lineal position of appointees; and

(3) for assigning running mates to officers appointed in a staff corps.

(c) To be eligible for an appointment under this section, an officer must have such qualifications as the Secretary of the Navy may prescribe.

(d) An officer may not be appointed to the active list of the Navy or the Marine Corps under this section in a permanent grade higher than the grade in which he is serving at the time of that appointment. However, an officer appointed in a permanent grade under this section may also be temporarily appointed to a higher grade appropriate to the lineal position assigned to him. Such a temporary appointment shall be considered to have been made under the provisions of law under which officers having a comparable lineal position on the active list of the Navy or the Marine Corps, as the case may be, were temporarily promoted to that higher grade.

(e) An officer who, at the time of his appointment under this section, has to his credit leave accrued but not taken does not lose that accrued leave because of that appointment. (Added Pub. L. 85-861, § 1(118)(A), Sept. 2, 1958, 72 Stat. 1493.)

In subsection (a), the words "active list of the Navy" and "active list of the Marine Corps" are substituted for the words "Regular Navy" and "Regular Marine Corps", in the first place in which they occur in 34 App.: 17 (a), to conform to the definitions in section 5001 (a) (9) and (10) of this title. The word "commissioned" is omitted as unnecessary in view of these definitions. The words "subject to the conditions and limitations in the following subsections of this section" are omitted as surplusage.

In subsection (b), the words "among other provisions", in 34 App.: 17 (b), are omitted as unnecessary in view of the definition in section 101 (30) of this title. The words "in each grade in which appointments are authorized under subsection (a)" are substituted for the words "to the grades specified herein" for clarity. The words "and precedence" are omitted as surplusage, since lineal position determines precedence. The words "of the Regular Navy" are omitted as unnecessary because all appointments of staff corps officers under this section are in the Regular Navy. The words "notwithstanding the provisions of other laws" are omitted from this section, and a new section 5652c is inserted in chapter 541, Running Mates, of this title to provide that officers appointed under this section shall have running mates assigned to them under regulations to be prescribed by the President.

In subsection (c), the words "To be eligible for an appointment under this section, an officer must" are substituted for the words "Persons appointed under this section shall". The words "be citizens of the United States" are omitted because they are covered by section 5571 of this title.

In subsections (c), (d), and (e), the word "officer" is substituted for the word "persons" or "person" because only officers are eligible for appointment under this section.

In subsection (e), the words "permanently appointed to the Regular Navy or the Regular Marine Corps pursuant to sections 17—17c of this title" are omitted as unnecessary. The words "under this section" are substituted for the word "such".

(1) doctors of medicine who have such qualifications as the Secretary may prescribe; and

(2) doctors of osteopathy who are qualified under subsection (c) and who have such other qualifications as the Secretary may prescribe.

Appointments under this subsection may be in the grades of lieutenant (junior grade) through captain.

(1) be a graduate of a college of osteopathy whose graduates are eligible to be licensed to practice medicine or surgery in a majority of the States;

(2) be licensed to practice medicine, surgery, or osteopathy in a State or Territory or in the District of Columbia;

(3) under regulations to be prescribed by the Secretary of Defense, have completed a number of years of osteophathic and preosteopathic education equal to the number of years of medical and premedical education prescribed for persons entering recognized schools of medicine who become doctors of medicine and who would be qualified for appointment under this section in the grade for which that person is applying; and

(4) have such other qualifications as the Secretary of the Navy prescribes after considering the recommendation, if any, of the Chief of the Bureau of Medicine and Surgery.

(d) For the purposes of determining lineal position, permanent grade, seniority in permanent grade, and eligibility for promotion, an officer appointed under subsection (b) shall be credited with the amount of service prescribed by the Secretary, but not less than four years. However, an officer who has completed an internship of one year, or the equivalent, may not be credited with less than five years. (Aug. 10, 1956, ch. 1041, 70A Stat. 321; Sept. 2, 1958, Pub. June 24, 1952, ch. 457 (as applicable to Medical Corps, Regular Navy, less provisos), 66 Stat. 155. Aug. 2, 1946, ch. 756, § 41, 60 Stat. 858.

The effect of 34 U. S. C. 22 and 23 is not only to prescribe the qualifications for appointment to the grade of assistant surgeon in the Medical Corps but also to authorize appointments in that corps and to restrict original appointments to the grade specified. Subsection (a) is worded accordingly. The words "lieutenant (junior grade)" are substituted for the words "assistant surgeon" as required by § 405 of the Officer Personnel Act of 1947 (34 U. S. C. 10a), which abolished the former staff corps grades and established, in each staff corps, grades corresponding to those in the line. The words "officers in the Medical Corps" are substituted for the words "naval surgeons" to modernize the terminology. Although "surgeon" was formerly a grade in the Medical Corps, the word was also used to denote all officers in the corps and it is so interpreted in this section. The words "at least 21 and under 32 years of age" are substituted for the words "between the ages of 21 and 32" for clarity and uniformity of expression. The subsection is limited in application to appointments in the Regular Navy, as the source text has been so construed (*Taylor* v. *U. S.* (1903), 38 Ct. Cl. 155, 161). The words "or by his authority as provided by section 233" are omitted since that section is being repealed with the enactment of this title. This phrase appears only in the U. S. Code section; it is not in the statute.

Subsection (b) is also restricted to appointments in the Regular Navy, since it was intended as a supplement to subsection (a). Independent authority to make appointments in any grade in the Naval Reserve is contained in the Armed Forces Reserve Act of 1952. The provision that officers appointed under this subsection shall be carried as additional numbers in rank is omitted because, under the Officer Personnel Act of 1947, there is no "authorized number" of Medical Corps officers in any grade below rear admiral. The words "Subject to any limitation of the commissioned strength of the Navy prescribed by law" and the provision that officers appointed under this subsection "shall not increase the authorized numbers of commissioned officers of the Medical Corps of the Regular Navy" are omitted as surplusage, since prescribed strengths and authorized numbers may not be exceeded in the absence of positive authority to make appointments in excess. The citizenship requirement is omitted because it is covered in § 5571 of this title.

Subsection (c) is restricted to appointments in the Regular Navy, as the source is so interpreted. Independent authority to make appointments in the Naval Reserve in any staff corps is contained in the Armed Forces Reserve Act of 1952.

The act of June 24, 1952, ch. 457 (34 U. S. C. 21e), is cited as source for subsections (a), (b), and (c) because it makes the laws codified in these subsections applicable, in their entirety, to women. Sections 201 and 204 of the Women's Armed Services Integration Act of 1948 (34 U. S. C. 105, 105c) also authorize the appointment of women in the Medical Corps but limit original appointments from civilian life to the grade of lieutenant (junior grade) and require qualifications different from those stated in this section. (See § 5590 of this title.)

AMENDMENTS

1958—Subsec. (b). Pub. L. 85-861, § 1(119)(A), permitted original appointments from doctors of osteopathy.

Subsec. (c). Pub. L. 85-861, § 1(119)(B), substituted provisions prescribing qualifications of doctors of osteopathy for provisions which permitted original appointments in the Medical Corps to be made from graduates of reputable schools of osteopathy.

Subsec. (d). Pub. L. 85-861, § 1(119)(C), added subsec. (d).

ADJUSTMENT OF SERVICE CREDIT FOR MEDICAL AND DENTAL OFFICERS APPOINTED BEFORE MAY 1, 1956

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 5763 of this title.

§ 5575. Regular Navy: Supply Corps.

Original appointments to the active list of the Navy in the Supply Corps may be made from male persons who—

(1) are at least 21 years of age on July 1 of the calendar year in which appointed; and

(2) have physical, mental, and moral qualifications satisfactory to the Secretary of the Navy.

HISTORICAL AND REVISION NOTES

Revised section	Source (U. S. Code)	Source (Statutes at Large)
5575	34 U. S. C. 61.	Aug. 13, 1946, ch. 962, § 19, 60 Stat. 1061; May 16, 1947, ch. 77, § 1 (p) 61 Stat. 100; Mar. 12, 1949, ch. 18, 63 Stat. 12.

This section is phrased so as to be uniform with other sections, derived from the Revised Statutes, relating to

original appointments in the staff corps. The predecessor of the source statute was R. S. 1379 which originally constituted the only authority to appoint officers in the Supply Corps. R. S. 1379 was repealed by the Act of August 13, 1946, ch. 962, § 20 (f), 60 Stat. 1062, but it was substantially reenacted in § 19 of the act of Aug. 13, 1946, ch. 962, as amended (34 U. S. C. 61).

The source statute could be considered as merely imposing additional conditions on appointments under 34 U. S. C. 1057 and 34 U. S. C. 1020e (restated in §§ 5573 and 6909 of this title), and not as providing independent substantive authority to make such appointments. In view of its history, however, and in the interests of uniformity, completeness, and clarity, the latter view is adopted. Authority to make appointments in the Supply Corps existed before it was granted in the cited sections.

The word "male" is inserted because authority to appoint women in the Supply Corps is covered in § 5590 of this title.

§ 5576. Regular Navy: Chaplain Corps.

Original appointments to the active list of the Navy in the Chaplain Corps may be made from male persons who—

(1) are at least 21 and under 35 years of age; and

(2) have physical, mental, moral, and professional qualifications satisfactory to the Secretary of the Navy.

Appointments under this section shall be in the grade of lieutenant (junior grade). (Aug. 10, 1956, ch. 1041, 70A Stat. 322.)

HISTORICAL AND REVISION NOTES

The words "at least 21 and under 35" are substituted for the words "not less than twenty-one nor more than thirty-five" for uniformity in stating age limitations and to avoid varying interpretations. The Judge Advocate General of the Navy has held that a person becomes ineligible on his 35th birthday (JAG file 15 721-7). Application of the first sentence of 34 U. S. C. 93a to 34 U. S. C. 91 results in the substitution of "lieutenant (junior grade)" for "acting chaplain". The first proviso of 34 U. S. C. 93a is omitted as executed. The second proviso, which states that the section is not to be construed as prohibiting appointments in grades above lieutenant (junior grade) under § 5 of the act of April 18, 1946, ch. 141, 60 Stat. 92, is omitted because the appointing authority in § 5 of that act expired on July 1, 1955.

The word "male" is inserted because authority to appoint women in the Chaplain Corps is covered in § 5590 of this title.

§ 5577. Regular Navy: Civil Engineer Corps.

Original appointments to the active list of the Navy in the Civil Engineer Corps may be made from male persons. Appointments under this section may be either in the grade of ensign or in the grade of lieutenant (junior grade) in accordance with such regulations as the Secretary of the Navy prescribes. (Aug. 10, 1956, ch. 1041, 70A Stat. 322.)

5577	34 U. S. C. 256.	June 8, 1946, ch. 284, § 1, 60 Stat. 235.

Reference to the grade of assistant civil engineer is omitted because § 405 of the Officer Personnel Act of 1947 (34 U. S. C. 10a) abolished that grade and established in lieu thereof the corresponding line grades of lieutenant (junior grade) and ensign. The words "from male persons" are inserted because authority to appoint women in the Civil Engineer Corps is covered in § 5590 of this title.

§ 5578. Regular Navy: Dental Corps.

(a) Original appointments to the active list of the Navy in the Dental Corps may be made from persons who—

(1) are at least 21 and under 32 years of age;

(2) are graduates of accredited medical or dental schools and are trained in the several branches of dentistry; and

(3) have passed physical, mental, moral, and professional examinations before boards convened by the Secretary of the Navy and have been recommended for appointment by those boards.

Appointments under this subsection shall be in the grade of lieutenant (junior grade).

(b) Under such regulations as the Secretary may prescribe, original appointments to the active list of the Navy in the Dental Corps may also be made, as the needs of the service require, from doctors of dentistry who have such qualifications as the Secretary may prescribe. Appointments under this subsection may be in the grades of lieutenant (junior grade) through captain.

(c) For the purposes of determining lineal position, permanent grade, seniority in permanent grade, and eligibility for promotion, an officer appointed in the Dental Corps under subsection (b) shall be credited with the amount of service prescribed by the Secretary, but not less than four years. (Aug. 10, 1956, ch. 1041, 70A Stat. 322; Sept. 2, 1958, Pub. L. 85-861, § 1 (120), 72 Stat. 1494.)

In subsection (a) the part of 34 U. S. C. 51 that lists the grades in the Dental Corps is omitted as obsolete. Section 405 of the Officer Personnel Act of 1947 (34 U. S. C. 10a) abolished these grades and established in lieu thereof grades corresponding to those in the line. It is unnecessary to list these grades since specific provisions exist for the promotion of dental officers to grades above lieutenant (junior grade). The words "lieutenant (junior grade)" are substituted for the words "assistant dental surgeon", as required by 34 U. S. C. 10a. The words "citizens of the United States" are omitted, since the citizenship requirement is covered in § 5571 of this title. The words "at least 21 and under 32" are substituted for the words "between twenty-one and thirty-two" for uniformity of expression and to avoid conflicting interpretations. The word "accredited" is substituted for the word "standard", since accreditation is the criterion applied in determining which schools are acceptable. The word "successfully" is omitted as surplusage. Although 34 U. S. C. 51 does not appear to contain substantive authority to make appointments in the Dental Corps, the authority exists in the source statute and subsection (a) is worded accordingly. The words "or by his authority as provided by section 233" are omitted since that section is being repealed with the enactment of this title. This phrase appears only in the U. S. Code section; it is not in the statute.

Subsection (b) is based on the same statute as subsection (b) of § 5574 of this title. The same changes are made in this subsection and for the same reasons.

The act of June 24, 1952, ch. 457 (34 U. S. C. 21e), is cited to both subsections for the reasons stated in the revision note on § 5574 of this title.

AMENDMENTS

1958—Subsec. (b). Pub. L. 85–861, § 1(120)(A), substituted "Under such regulations as the Secretary may prescribe" for "Under regulations prescribed by the Secretary" and "from doctors of dentistry" for "from civilian dentists".

Subsec. (c). Pub. L. 85–861, § 1(120)(B), added subsec. (c).

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 5763 of this title.

§ 5578a. Regular Navy; Judge Advocate General's Corps.

(a) Original appointments to the active list of the Navy in the Judge Advocate General's Corps may be made from persons who—

(1) are at least twenty-one and under thirty-five years of age;

(2) are graduates of an accredited law school or are members of the bar of a Federal court or the highest court of a State; and

(3) have physical, mental, and moral qualifications satisfactory to the Secretary of the Navy.

For the purposes of determining lineal position, permanent grade, seniority in permanent grade, and eligibility for promotion, an officer appointed in the Judge Advocate General's Corps shall be credited with the amount of service prescribed by the Secretary of the Navy, but not less than three years.

(b) Under such regulations as the Secretary of the Navy may prescribe, appointments to the active list of the Navy in the Judge Advocate General's Corps may be made from officers of the Navy, including the Naval Reserve, in the line or in another staff corps. Notwithstanding any other law, an officer appointed under this subsection shall have a running mate assigned to him under regulations to be prescribed by the Secretary of the Navy. (Added Pub. L. 90–179, § 5(1), Dec. 8, 1967, 81 Stat. 547.)

§ 5579. Regular Navy: Medical Service Corps.

(a) Under such regulations as the Secretary of the Navy prescribes, original appointments to the active list of the Navy in the Medical Service Corps may be made from persons who—

(1) are at least 21 and under 32 years of age; and

(2) have physical, mental, moral, and professional qualifications satisfactory to the Secretary.

(b) Appointments under this section from persons other than members of the Regular Navy shall be made from graduates of accredited schools of pharmacy, optometry, or other schools or colleges with degrees in sciences allied to medicine or degrees approved by the Surgeon General of the Navy.

(c) Appointments under this section shall be in the grade of ensign, except that persons holding doctoral degrees at the time of appointment in sciences allied to medicine approved by the Surgeon General may be appointed in the grade of lieutenant (junior grade).

(d) An officer appointed under this section from the Regular Navy may not suffer any reduction in the pay and allowances to which he was entitled at the time of his appointment because of his former permanent status. (Aug. 10, 1956, ch. 1041, 70A Stat. 323.)

June 24, 1952, ch. 457 (as authorizes appointments in Medical Service Corps, Regular Navy, less provisos), 66 Stat. 155.

In subsection (a) the words "commissioned warrant officers and warrant officers of the Hospital Corps" are omitted to avoid the erroneous implication that members of the Regular Navy holding other grades and designations may not be appointed under this section without meeting the educational requirements prescribed in subsection (b). The citizenship requirement is omitted, as it is covered in § 5571 of this title. The words "at least 21 and under 32 years of age" are substituted for the words "between the ages of twenty-one and thirty-two years" for uniformity of expression and to avoid varying interpretations.

The act of June 24, 1952, ch. 457 (34 U. S. C. 21e), is cited as source for this section because that act makes 34 U. S. C. 30e, h, and j applicable, in their entirety, to women. Women may also be appointed in the Medical Service Corps under the Women's Armed Services Integration Act of 1948, but the upper age limit and the consequences of appointment under that act are different. The appointing authority in the 1948 act is covered in § 5590 of this title.

REAPPOINTMENT OF CERTAIN WOMEN OFFICERS IN THE MEDICAL SERVICE CORPS

Section 203 of Pub. L. 85–155, title II, Aug. 21, 1957, 71 Stat. 385, provided that:

"(a) A woman officer appointed in the Medical Service Corps of the Navy before the effective date of this Act [August 21, 1957] may, upon her application, made not later than January 30, 1958, be reappointed in that corps under section 5579 of title 10, United States Code [this section], notwithstanding the limitations specified therein with regard to age or grade. The provisions of law applicable to male officers appointed under that section are applicable to a woman officer so reappointed.

"(b) A woman officer reappointed in the Medical Service Corps of the Navy under subsection (a) shall be reappointed in her permanent grade with date of rank held by her at the time of reappointment. The running mate of a woman officer so reappointed shall be an eligible male line officer of the Navy of appropriate precedence assigned by the Secretary of the Navy. Officers so reappointed who at time of reappointment had to their credit leave accrued, but not taken, shall not, by reason of reappointment lose such accrued leave.

"(c) A woman officer appointed in the Medical Service Corps of the Naval Reserve before the effective date of this Act [August 21, 1957] is considered for all purposes to have been appointed under section 5581 of title 10, United States Code. Such an officer shall be assigned a running mate in the same manner as is provided for a male officer appointed in the Medical Service Corps of the Naval Reserve."

TRANSFERS OF OFFICERS OF NURSE CORPS TO MEDICAL SERVICE CORPS

Act June 21, 1956, ch. 421, 70 Stat. 326, provided:

"During a period of not more than twelve months after enactment of this Act [June 21, 1956] any officer on the active list of the Nurse Corps of the Regular Navy or any officer of the Nurse Corps of the Naval Reserve in a permanent grade not above lieutenant who is qualified in one or more of the specialties of dietetics, physical therapy, or occupational therapy, may be, upon her application, transferred to and appointed in the Medical Service Corps of the Regular Navy subject to regulations to be prescribed by the Secretary of the Navy. An officer so transferred shall be appointed in her permanent grade with the precedence held by her at the time of transfer and upon transfer she may be reappointed to a higher permanent or temporary grade which corresponds to a higher temporary grade in which she was serving at the time of transfer. The reappointment in a higher temporary grade of an officer so transferred shall be regarded for all purposes as having been effected under the same authority of law pursuant to which she was serving in a higher temporary grade at time of such transfer. The running mate of an officer transferred in accordance with this authority shall be, upon transfer, a woman line officer or a male officer, as the case may be, of the Regular Navy of appropriate precedence assigned by the Secretary of the Navy. Officers so transferred who at the time of transfer had to their credit leave accrued, but not taken, shall not, by reason of such transfer, lose such accrued leave.

"SEC. 2. All provisions of law now existing or hereafter enacted relating to authorized grades, distribution in grade, selection for promotion, promotion and retirement of women staff officers of the Regular Navy appointed pursuant to the Act of June 12, 1948 (62 Stat. 356, ch. 449), as amended, or the Act of June 24, 1952 (66 Stat. 155, ch. 457) shall be construed to apply in like manner to officers transferred and appointed to the Medical Service Corps under the authority of this Act; however, officers transferred and reappointed pursuant to this Act shall not be subject to existing provisions of law relating to age limitations for appointments.

"SEC. 3. All provisions of law relating to pay, leave, money allowances for subsistence and rental of quarters, mileage and other travel allowances, or other allowances, benefits, and emoluments of women staff officers of the Regular Navy shall apply to officers transferred and appointed to the Medical Service Corps under the authority of this Act."

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 5763, 6392 of this title.

§ 5580. Regular Navy: Nurse Corps.

(a) Original appointments to the active list of the Navy in the Nurse Corps may be made from persons who are at least 21 years of age on July 1 of the calendar year in which appointed and who have physical, mental, moral, educational, and professional qualifications satisfactory to the Secretary of the Navy.

(b) A person appointed under this section shall be appointed in the grade of—

(1) ensign, if the person has not reached the age of 27 on the date of nomination by the President and is not qualified for appointment as a lieutenant (junior grade) under clause (2); or

(2) lieutenant (junior grade), if the person is qualified under regulations prescribed by the Secretary and has not reached the age of 30 on the date of nomination by the President.

(c) The maximum ages specified in subsection (b) are increased by the period of active commissioned service performed after December 31, 1947. However, a maximum age is not so increased by more than five years. (Aug. 10, 1956, ch. 1041, 70A Stat. 323; Sept. 30, 1966, Pub. L. 89–609, § 1(7)–(9), 80 Stat. 853.)

The words "Except as provided in sections 203 (34 U. S. C. 43b) and 211 (34 U. S. C. 43j) of this title" are omitted. Section 203 is executed. Section 211 makes members of the Nurse Corps Reserve eligible for transfer to the Regular Navy under the act of April 18, 1946, ch. 141, § 5 (34 U. S. C. 15), but that provision is temporary law which expired on July 1, 1955; hence the exception is also temporary. The citizenship requirement is omitted, as it is covered in § 5571 of this title. Section 405 of the Officer Personnel Act of 1947 (34 U. S. C. 10a) abolished the grade of nurse and replaced it by grades corresponding to those in the line. Grades and ranks now have the same titles; hence the section is worded accordingly.

AMENDMENTS

1966—Subsec. (a). Pub. L. 89–609, § 1(7), struck out "female" preceding "persons".

Subsec. (b). Pub. L. 89–609, § 1 (8), (9), substituted "the person has not reached the age of 27" for "she has not passed her twenty-seventh birthday" in clause (1) and "the person" and "reached the age of 30" for "she" and "passed her thirtieth birthday" in clause (2), respectively.

§ 5581. Naval Reserve: Medical Corps, Dental Corps, Medical Service Corps: women.

Women may be appointed in the Naval Reserve in the Medical Corps, the Judge Advocate General's Corps, the Dental Corps, and the Medical Service Corps. Except as otherwise specifically provided,

provisions of this title relating to male officers of the Naval Reserve in these corps apply to women appointed under this section. (Aug. 10, 1956, ch. 1041, 70A Stat. 323; Dec. 8, 1967, Pub. L. 90–179, § 12, 81 Stat. 549.)

Such appointments are effected under the general authority to make appointments in reserve components contained in § 217 (a) of the Armed Forces Reserve Act of 1952 (50 U. S. C. 941) codified in § 591 of this title. Section 217 (b) of the same act, which authorizes the appointment of women in the Naval Reserve, also codified in § 591 of this title, would appear at first glance to make the source text superfluous, but it does not. Women appointed under the Reserve Act are subject to the restrictions contained in the Women's Armed Services Integration Act of 1948. Specifically, they may not be placed on a lineal list when on active duty and may not be considered for promotion with their contemporaries in the regular Navy. Women appointed under 34 U. S. C. 21e, on the other hand, when on active duty, are on the appropriate lineal list with male officers, have male line officers as running mates, and are considered for promotion with their male contemporaries in the Regular Navy and Naval Reserve. Since women may be appointed in the Reserve in the three named corps under either the Armed Forces Reserve Act of 1952 or the source statute, and since the choice of appointing authority has such different consequences, it is necessary to codify the source text as separate and distinct from the Reserve Act provisions.

AMENDMENTS

1967—Pub. L. 90–179 inserted the reference to the Judge Advocate General's Corps.

APPOINTMENT OF WOMEN OFFICERS IN THE MEDICAL SERVICE CORPS BEFORE AUGUST 21, 1957

Women officers appointed in the Medical Service Corps before August 21, 1957, considered for all purposes to have been appointed under this section, see section 203 (c) of Pub. L. 85–155, set out as a note under section 5579 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 5446, 5504, 5663, 5665, 5711, 5763, 5896, 5897, 5898, 5899, 6389, 6403 of this title.

§ 5582. Regular Navy: transfers, line and staff corps.

(a) Any male officer on the active list of the Navy in a staff corps in a grade not above lieutenant commander may be appointed to the active list in the line of the Navy in the same grade. An officer so appointed holds the lineal position he would have held if he had originally been appointed in and had remained in the line, and he is an additional number in the grade in which he is serving and in each grade to which he is later promoted.

(b) Any male officer on the active list in the line of the Navy in a grade not above lieutenant commander may be appointed to the active list of the Navy in the Supply Corps or the Civil Engineer Corps, in the same grade, without regard to his age. (Aug. 10, 1956, ch. 1041, 70A Stat. 324.)

The words "active list" are inserted so that this section will apply only to officers of the Regular Navy holding permanent appointments in grades above commissioned warrant officer, as this was the intent of the source statute. The words "same grade" are substituted for the words "corresponding rank and grade" in subsection (a) and for the words "corresponding grade" in subsection (b), since, under § 405 of the Officer Personnel Act of 1947 (34 U. S. C. 10a), the grades in the staff corps are the same as those in the line. The words "transfer and" and "transferred and" are omitted as surplusage.

In subsection (a) the words "and precedence in the line" are omitted as surplusage.

In subsection (b) reference to the Construction Corps is omitted because that corps was abolished by the Act of June 25, 1940, ch. 420, § 1, 54 Stat. 528.

The word "male" is inserted in both subsections to limit their application to men. Authority to appoint women is covered in § 5590 of this title.

§ 5583. Regular Marine Corps: from noncommissioned officers.

Original appointments to the active list of the Marine Corps may be made from meritorious male noncommissioned officers of the Regular Marine Corps who are at least 20 and under 30 years of age. Appointments under this section shall be in the grade of second lieutenant. (Aug. 10, 1956, ch. 1041, 70A Stat. 324.)

Mar. 3, 1899, ch. 413, § 20 (1st sentence), 30 Stat. 1009.

The section is written as authority to appoint noncommissioned officers as second lieutenants in the Regular Marine Corps, as the source text has been uniformly so interpreted. The age limitations are derived from 34 U. S. C. 637, in conformance with the opinion of the Judge Advocate General of the Navy in JAG file 13261–426, May 29, 1913.

The word "male" is inserted to limit the application of the section to men. Authority to appoint women in the Marine Corps is covered in § 5590 of this title.

§ 5584. Regular Marine Corps: from former officers.

(a) Original appointments to the active list of the Marine Corps in the grade of second lieutenant may be made from male former officers of the Marine Corps who resigned from the naval service in good standing.

(b) To be eligible for an appointment under this section a person must—

(1) establish his physical, mental, moral, and professional qualifications to perform the duties of the grade of second lieutenant, to the satisfaction of the Secretary of the Navy; and

(2) be of such an age that he can complete a total of 30 years of active service before he becomes 62 years of age.

In subsection (b) the words "age of retirement" are changed to "62 years of age" because present law directs retirement for age in grade at a number of different ages. The general rule, in the absence of age-in-grade factors, is that officers retire at age 62, and this subsection is worded accordingly.

The word "male" is inserted to limit the application of the section to men. Authority to appoint women in the Marine Corps is covered in § 5590 of this title.

§ 5585. Regular Marine Corps: order of filling vacancies in grade of second lieutenant.

Vacancies on the active list of the Marine Corps in the grade of second lieutenant shall be filled, so far as practicable, first, from members of the graduating class of the Naval Academy; second, from meritorious noncommissioned officers of the Regular Marine Corps; and third, from other persons. (Aug. 10, 1956, ch. 1041, 70A Stat. 324.)

The words "from other persons" are substituted for the words "from civil life" because 34 U. S. C. 1020e authorizes the appointment of graduates of the NROTC program as well as of other persons in civil life. Such graduates are, properly, persons in "civil life", since they are members of the Naval Reserve who are not on active duty. However, since the status of members of the NROTC is not always clear, the statement of the class is expanded.

§ 5586. Regular Navy and Regular Marine Corps: from warrant officers and enlisted members.

(a) Original appointments may be made—

(1) to the active list of the Navy in the line or in any staff corps, except the Medical Service Corps and the Nurse Corps, in grades not above lieutenant from male warrant officers and chief petty officers of the Regular Navy who, by June 30 of the calendar year in which appointed, will have completed at least three years of service in the Regular Navy in the grade of chief petty officer or above; and

(2) to the active list of the Marine Corps in grades not above captain from male warrant officers of the Regular Marine Corps who, by June 30 of the calendar year in which appointed, will have completed at least three years of service in the Regular Marine Corps in the grade of warrant officer, W–1, or above.

To be eligible for appointment under this subsection to the grade of lieutenant, lieutenant (junior grade), or ensign on the active list of the Navy or captain, first lieutenant, or second lieutenant on the active list of the Marine Corps, members must be under 40, 35, and 32 years of age, respectively, on June 29 of the calendar year in which they are to be appointed.

(b) Original appointments to the active list of the Navy in the line and in any appropriate staff corps in the grade of ensign may be made from male enlisted members of the Regular Navy. To be eligible for such an appointment a member must be under 33 years of age on the date of appointment and must have had at least four years of continuous service, immediately preceding the date of his appointment, in the Regular Navy.

(c) Before he may be appointed under this section, a member must apply for appointment, must be recommended by a commanding officer under whom he has served in the grade he holds at the time he applies, and, under regulations prescribed by the Secretary of the Navy, must establish his qualifications by—

(1) recommendation of a naval examining board that he is mentally, morally, and professionally qualified; and

(2) finding of a board of medical examiners that he is physically qualified.

A member who twice fails to establish his qualifications is ineligible for appointment under this section.

(d) Each appointment under subsection (a) shall be in the grade for which the member applies and for which he is found qualified.

(e) Each officer appointed under this section in the grade of lieutenant in the line of the Navy or in the grade of captain in the Marine Corps is an additional number in that grade only and, while in that grade, becomes eligible for consideration for promotion when the officer next senior to him becomes eligible.

(f) An officer appointed under this section may not suffer any reduction in the pay and allowances to which he was entitled at the time of his appointment because of his former status. (Aug. 10, 1956, ch. 1041, 70A Stat. 324.)

In subsection (a) the application to the Marine Corps is set out and § 4 (a) of the act of Aug. 10, 1946, ch. 952, 60 Stat. 994, is integrated in the subsection. The act of Aug. 10, 1946, has not been considered applicable to the Marine Corps; consequently the authority to appoint master sergeants as officers has not been included. The words "annually" and "rank" are omitted as surplusage. The three-year service requirement is written so as to authorize service in any of the grades to be counted. While this may seem ambiguous in the statute, it is the reasonable interpretation. Otherwise, as an example, a warrant officer with less than three years as such, but with service as a chief petty officer, would be ineligible. The words "must be under 40, 35, and 32 years of age" are substituted for the words "be not more than 40, 35, or 32 years of age" in 34 U. S. C. 338a to conform to interpretation and for uniformity.

In subsection (b) the proviso of 34 U. S. C. 339b is omitted as unnecessary, as the authority to appoint does not contain the authority to increase the "authorized number" or to carry appointees as "extra numbers in grade". Since the 1946 act is considered in applicable to the Marine Corps, the subsection is written only in Navy terms.

In subsection (c) the words "apply for appointment" are inserted for clarity. The fact that an application must be made is indicated by 34 U. S. C. 338 (see subsection (d) of this section). The words "in the grade he holds at the time he applies" are substituted for the words "as a commissioned warrant or warrant officer" because § 4 of the act of Aug. 10, 1946, ch. 952, 60 Stat. 994, makes enlisted members eligible for appointment under the same conditions as warrant and commissioned warrant officers. The requirement now means that the man must be recommended by a commanding officer who has observed him in his current grade.

In subsection (f) the words "was entitled at the time of his appointment because of his former status" are substituted for the words "he would have been entitled had he not been so appointed" for uniformity with similar statements in this subtitle.

The word "male" is inserted to limit the application of the section to men. Auhority to appoint women is covered in § 5590 of this title.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in section 5504 of this title.

§ 5587. Regular Navy: officers designated for engineering duty, aeronautical engineering duty, and special duty.

(a) Male persons may be originally appointed to the active list in the line of the Navy as officers designated for engineering duty, aeronautical engineering duty, or special duty. Each person so appointed shall be appointed in the grade of—

(1) ensign, if designated for engineering duty, aeronautical engineering duty, or any type of special duty for which a graduate degree is not required; or

(2) lieutenant (junior grade), if designated for a type of special duty for which a graduate degree is required.

The number of appointments in each of these grades and designations may not exceed, in any fiscal year, the number of vacancies that the Secretary of the Navy estimates will occur in the fiscal year for officers of the grade and designation concerned.

(b) With the approval of the Secretary, any officer on the active list in the line of the Navy may, upon his application, be designated for engineering duty, aeronautical engineering duty, or special duty.

(c) The types of engineering duty for which officers may be designated include ship engineering and ordnance engineering. The types of aeronautical engineering duty for which officers may be designated include aeronautical engineering and aviation maintenance. The types of special duty for which officers may be designated include communications, law, naval intelligence, photography, public information, psychology, and hydrography.

(d) Officers designated for engineering duty, aeronautical engineering duty, or special duty are additional numbers in grade. They shall perform sea or shore duty appropriate to their special qualifications but may not succeed to command except on shore and then only as authorized by the Secretary. (Aug. 10, 1956, ch. 1041, 70A Stat. 325; Dec. 8, 1967, Pub. L. 90–179, § 5(2), 81 Stat. 547; July 5, 1968, Pub. L. 90–386, § 1(5), 82 Stat. 293.)

In subsection (a) the word "annually" and the words "and regularly commission" are omitted as surplusage. The word "male" is inserted in subsection (a) to limit the application of the appointing authority in this subsection to men. Authority to appoint women is covered in § 5590 of this title.

In subsection (b) the words "on the active list" are inserted in order to exclude reserve and temporary officers, which is the intention of Congress determined from the

use of the words "additional numbers in grade" and "percentage of officers on the active list" which apply only to regular officers holding permanent appointments. In the same subsection and in subsections (c) and (d) the provisions of the law that these officers are assigned to a certain duty and then "described and known as officers designated" for that duty have been written simply as providing that these officers may be "designated" for that duty. This is done as there is no apparent reason for any distinction between these officers and those appointed under subsection (a). In subsection (c) the words "specialized duties in the fields of" are omitted as surplusage.

AMENDMENTS

1968—Subsec. (c). Pub. L. 90-386 enumerated the types of engineering duty and aeronautical engineering duty for which officers may be designated.

1967—Subsec. (c). Pub. L. 90-179 struck out "law," following "communications,".

§ 5587a. Regular Marine Corps: judge advocates.

(a) With the approval of the Secretary of the Navy, any officer on the active list of the Marine Corps who is qualified under section 827(b) of this title may, upon his application, be designated as a judge advocate.

(b) For the purposes of determining lineal position, permanent grade, seniority in permanent grade, and eligibility for promotion, a person appointed to the active list of the Marine Corps with a view to designation as a judge advocate may be credited with the amount of service prescribed by the Secretary of the Navy, but not more than three years. § 5589. Regular Navy and Regular Marine Corps: officers designated for limited duty.

(a) Original appointments to the active list of the Navy in the grade of ensign in the line, in the Supply Corps, and in the Civil Engineer Corps may be made from male—

(1) warrant officers;

(2) chief petty officers; and

(3) first-class petty officers;

in the Regular Navy, for the performance of duty in the technical fields indicated by their warrants or ratings.

(b) Original appointments to the active list of the Marine Corps in the grade of second lieutenant may be made from male—

(1) warrant officers;

(2) master sergeants; and

(3) technical sergeants;

in the Regular Marine Corps, for the performance of duty in the technical fields in which they are proficient.

(c) To be eligible for an appointment under this section a member must have completed at least 10 years of active naval service, excluding active duty for training in a reserve component.

(d) Each officer appointed under this section is known as an officer designated for limited duty. He may not suffer any reduction in the pay and allowances to which he was entitled at the time of his appointment because of his former permanent status.

(e) Any officer designated for limited duty, upon his application and upon determination by the Secretary of the Navy that he is qualified, may—

(1) if he is in the line of the Navy, be designated for engineering duty, aeronautical engineering duty, or special duty, or be assigned to unrestricted performance of duty;

(2) if he is in a staff corps of the Navy, be assigned to unrestricted performance of duty in that corps; or

(3) if he is in the Marine Corps, be assigned to unrestricted performance of duty.

When an officer is so designated or assigned, his status as an officer designated for limited duty terminates.

(f) The Secretary shall prescribe regulations for the appointment, designation, and assignment of officers under this section. (Aug. 10, 1956, ch. 1041, 70A Stat. 326; Aug. 3, 1961, Pub. L. 87-123, § 5(10), 75 Stat. 265.)

In subsections (a) and (b) the authority to make appointments under this section is confined to appointments in the grades of ensign and second lieutenant, since the authority in the source statute to make appointments in higher grades was limited and has been completely executed. The words "commissioned warrant officers" are omitted as surplusage, since the term "warrant officers" includes commissioned warrant officers.

The word "male" is inserted to limit the application of the section to men. Authority to appoint women is covered in § 5590 of this title.

AMENDMENTS

1961—Subsec. (e)(3). Pub. L. 87-123 eliminated "be designated for supply duty or" which preceded "be assigned to."

§ 5590. Regular Navy and Regular Marine Corps: women.

(a) Women may be appointed to the active list of the Navy in the line or in any staff corps or to the active list of the Marine Corps. Except as provided in subsection (b), original appointments under this section shall be made under the same conditions as prescribed in other sections of this title for appointments under those sections.

(b) Original appointments to the active list of the Navy under this section shall be either in the grade of ensign or in the grade of lieutenant (junior grade) in the discretion of the President, and original appointments to the active list of the Marine Corps shall be either in the grade of second lieutenant or in the grade of first lieutenant in the discretion of the President. To be eligible for such an appointment a woman must—

(1) be at least 21 and under 30 years of age on July 1 of the year in which appointed; and

(2) have mental, moral, educational, professional, and physical qualifications satisfactory to the Secretary of the Navy.

(c) This section does not authorize the appointment of officers in the Nurse Corps. (Aug. 10, 1956, ch. 1041, 70A Stat. 327.)

Subsection (a) combines the provisions of §§ 201, 204, and 213 (a) of the Women's Armed Services Integration Act of 1948 (34 U. S. C. 105, 105c, 625h (a)) and restates them as an affirmative authority to appoint women in grades above chief warrant officer, W-4, in the line and staff corps of the Regular Navy and in the Marine Corps. This is the effect of the cited sections, although they are not stated in those terms. Sections 201 and 213 (a) of the 1948 act make applicable to women all laws authorizing the appointment of male officers, except as otherwise specifically provided in the act. Sections 204 and 213 (a) provide that women appointed in the Regular Navy and Regular Marine Corps, other than those appointed under the act of April 18, 1946, ch. 141, 60 Stat. 92, shall be between 21 and 30 years of age and shall be appointed in the grade of ensign or lieutenant (junior grade) in the Navy or in corresponding grades in the Marine Corps. Thus, the sections, taken together, are substantive authority for the appointment of women officers under the same conditions as male officers except for the age and grade limitations stated in § 204.

In subsection (b) the exception as to appointments effected pursuant to the act of April 18, 1946, ch. 141 (34 U. S. C. 15), is omitted because the authority to make appointments under that act expired on July 1, 1955. The 1946 act authorized the appointment of reserve officers in the Regular Navy and the Regular Marine Corps in the grades they held in the reserve components. It was made applicable to women officers by § 201 of the Women's Armed Services Integration Act of 1948 (34 U. S. C. 105), and pursuant thereto, women have been appointed in the Regular Navy and Regular Marine Corps in grades up to lieutenant commander and major and at ages up to 50. Women officers who have been so appointed have already had the benefit of the exception in § 204 of the Women's Armed Services Integration Act of 1948, so that, as to them it is executed. For the purposes of this subtitle women officers appointed under the 1946 act, as made applicable to women by § 201 of the Women's Armed Services Integration Act of 1948, are considered as having been appointed under the 1948 act rather than under the 1946 act. Thus, by the savings provision of the act enacting this title, they will be considered as appointed under the instant section of this title, and they may be distinguished by reference to this section from women officers appointed in the Medical Corps, Dental Corps, and Medical Service Corps under laws authorizing the appointment of male officers in those corps (including the act of April 18, 1946, supra) as made applicable to women by the act of June 24, 1952, ch. 457 (34 U. S. C. 21e). The distinction is essential because the provisions of the Women's Armed Services Integration Act of 1948 relating to the authorized strength, distribution in grade, promotion, retirement, and discharge of women officers apply only to women whose appointment was authorized by that act, whereas women appointed under laws made applicable to them by the 1952 act are promoted and retired under the laws applicable to male officers in their respective corps. It will be noted that women may be appointed in the Medical Corps, Dental Corps, and Medical Service Corps under either the 1948 act or the 1952 act; hence the line of demarcation cannot be drawn on the basis of the corps but must be drawn on the basis of the laws under which the appointments are made.

§ 5591. Regular Navy: Supply Corps: maximum number of ensigns appointed annually.

(a) Subject to subsection (b), the maximum number of appointments that may be made in any year to the active list of the Navy in the Supply Corps in the grade of ensign is equal to 12 percent of the number of appointments made that year to the active list in the line in the grade of ensign.

(b) If, in any year, the number of officers on the active list in the Supply Corps is less than 12 percent of the number of officers on the active list in the line, the number of appointments in that year to the active list in the Supply Corps in the grade of ensign may be increased as the President determines necessary, so long as that percentage is not exceeded. Subsection (a) is written in terms of the "maximum number of appointments that may be made in any year" to show that the section is a limitation on the authority to make original appointments in the grade of ensign in the Supply Corps.

Since the authorized number of officers on the active list of the Navy in the Supply Corps is fixed at 12 percent of the authorized number of officers on the active list in the line of the Navy, both subsections (a) and (b) are expressed in terms of this percentage rather than in terms of a proportion or ratio between the authorized number of officers in the Supply Corps and in the line.

§ 5592. Regular Navy: Civil Engineer Corps: maximum number of ensigns appointed annually.

(a) Subject to subsection (b), the maximum number of appointments that may be made in any year to the active list of the Navy in the Civil Engineer Corps in the grade of ensign is equal to 3 percent of the number of appointments made that year to the active list in the line in the grade of ensign.

(b) If, in any year, the number of officers on the active list in the Civil Engineer Corps is less than 3 percent of the number of officers on the active list in the line, the number of appointments in that year to the active list in the Civil Engineer Corps in the grade of ensign may be increased as the President determines necessary, so long as that percentage is not exceeded. § 5593. Regular Navy: Medical Service Corps: maximum number of ensigns appointed annually.

(a) Subject to subsection (b), the maximum number of appointments that may be made in any year to the active list of the Navy in the Medical Service Corps in the grade of ensign is the same percentage of the number of appointments made in that year to the active list in the line in the grade of ensign as the authorized number of officers on the active list in the Medical Service Corps in that year is of the authorized number of officers on the active list in the line.

(b) If, in any year, the ratio of the number of officers on the active list in the Medical Service Corps to the number of officers on the active list in the line is less than the ratio of the number of officers authorized to be on the active list in the Medical Service Corps in that year to the number of officers authorized to be on the active list in the line, the number of appointments in that year to the active list in the Medical Service Corps in the grade of ensign may be increased as the President determines necessary to meet the needs of the service, not to exceed the number required to equalize these ratios. Subsection (a) is written in terms of the "maximum number of appointments that may be made in any year" to show that the section is a limitation on the authority to make original appointments in the grade of ensign in the Medical Service Corps.

Since the authorized number of officers on the active list of the Navy in the Medical Service Corps is not a fixed number but varies from year to year according to the actual number of members on active duty in certain grades, such as midshipmen and warrant officers, it is necessary in both subsections (a) and (b) to insert the words "in that year".

§ 5594. Regular Navy: Nurse Corps: maximum number of ensigns appointed annually.

(a) Subject to subsection (b), the maximum number of appointments that may be made in any year to the active list of the Navy in the Nurse Corps in the grade of ensign is the same percentage of the number of appointments made in that year to the active list in the line in the grade of ensign as the authorized number of officers on the active list in the Nurse Corps in that year is of the authorized number of officers on the active list in the line.

(b) If, in any year, the ratio of the number of officers on the active list in the Nurse Corps to the number of officers on the active list in the line is less than the ratio of the number of officers authorized to be on the active list in the Nurse Corps in that year to the number of officers authorized to be on the active list in the line, the number of appointments in that year to the active list in the Nurse Corps in the grade of ensign may be increased as the President determines necessary to meet the needs of the service, not to exceed the number required to equalize these ratios. Subsection (a) is written in terms of the "maximum number of appointments that may be made in any year" to show that the section is a limitation on the authority to make original appointments in the grade of ensign in the Nurse Corps.

5595	34 U. S. C. 635.	Aug. 29, 1916, ch. 417, 39 Stat. 611 (4th proviso).

The word "Regular" is inserted before the words "Marine Corps" to conform to the long-standing interpretation that this provision applies only to the Regular Marine Corps. This interpretation is based on the fact that the act of Aug. 29, 1916, of which this provision is a part, established the Marine Corps Reserve, and a distinction between members of the Reserve and members of the "Marine Corps" is apparent throughout the act. The words "No person who was a midshipman * * * or who was a cadet" are substituted for the words "No midshipman * * * or cadet" for clarity and the words "who fails to graduate therefrom" are omitted as surplusage. The words "in a commissioned grade" are substituted for the words "as a commissioned officer" for uniformity of expression.

§ 5596. Navy and Marine Corps: temporary appointments.

(a) Temporary appointments may be made under this section only when the number of male officers serving on active duty in the grade of ensign and above in the line of the Navy exceeds the number of male officers on the active list in the line of the Navy. Officers in a category covered by subsection (g) are not considered as officers on active duty for the purpose of this section.

(b) Temporary appointments in the Regular Navy, except in the Nurse Corps, in grades not above lieutenant and in the Regular Marine Corps in grades not above captain may be made from—

(1) warrant officers of the Regular Navy and the Regular Marine Corps, respectively; and

(2) chief and first-class petty officers of the Regular Navy and master, technical, and staff sergeants of the Regular Marine Corps, respectively.

(c) Temporary appointments in the Naval Reserve, except in the Nurse Corps, in grades not above lieutenant and in the Marine Corps Reserve in grades not above captain may be made from—

(1) warrant officers of the Naval Reserve and the Marine Corps Reserve, respectively, on active duty; and

(2) chief and first-class petty officers of the Naval Reserve and master, technical, and staff sergeants of the Marine Corps Reserve, respectively, on active duty.

(d) Temporary appointments in warrant officer grades under this section shall be made by the Secretary of the Navy under such regulations as he prescribes. Such appointments shall be made by warrant if in the grade of warrant officer, W-1, or by commission if in a higher warrant officer grade.

(e) The number of persons appointed in the Regular Navy under this section in grades above chief warrant officer, W-4, may not exceed the difference between the actual number of officers on the active list of the Navy in the line or in the staff corps concerned and the authorized number of such officers. The number of persons so appointed in the Regular Marine Corps under this section in grades above chief warrant officer, W-4, may not exceed the difference between the actual number of officers on the active list of the Marine Corps and the authorized number of such officers.

(f) Temporary appointments under this section do not change the permanent, probationary, or acting status of members so appointed, prejudice them in regard to promotion or appointment, or abridge their rights or benefits. A person receiving a temporary appointment under this section may not suffer any reduction in the pay and allowances to which he was entitled because of his permanent status at the time of his temporary appointment, or any reduction in the pay and allowances to which he was entitled under a prior temporary appointment in a lower grade.

(g) The following members of the naval service are ineligible for temporary appointments under this section:

(1) Women members.

(2) Retired members.

(3) Members of the Naval Reserve and the Marine Corps Reserve ordered to active duty for training.

(4) Members of the Naval Reserve and the Marine Corps Reserve ordered to active duty in connection with organizing, administering, recruiting, instructing, training, or drilling the Naval Reserve or the Marine Corps Reserve.

(5) Members of the Naval Reserve and the Marine Corps Reserve ordered to temporary active duty to prosecute special work.

(h) The President may terminate any appointment made under this section. (Aug. 10, 1956, ch. 1041, 70A Stat. 328.)

Since appointments under this section are either made, or not made, in the discretion of the President, the proviso of 34 U. S. C. 3d, authorizing the President to suspend the operation of this section with respect to lieutenants (junior grade) and lieutenants in the Navy and first lieutenants and captains in the Marine Corps, is omitted from subsection (a) as unnecessary.

In subsections (b) and (c) the words "and above" have been executed by naming the grades they imply, to wit, chief petty officers and master and technical sergeants. In the statement of the grades to which appointments may be made, the words "including the grades of warrant officer and commissioned warrant officer" are omitted as surplusage. In the list of persons who may be appointed, reference to commissioned warrant officers is omitted because they are included within the term "warrant officers."

In subsection (f) the words "do not change the * * * status" are substituted for the words "appointments * * * shall not be vacated." The word "advancement", the words "in accordance with laws relating to the Regular Navy or Marine Corps", and the words "privileges and gratuities" are omitted as surplusage. The first proviso is omitted as unnecessary in view of the Career Compensation Act of 1949.

In subsection (g) (2) that portion of 34 U. S. C. 3c (a) which excludes officers on the retired list from the definition of the word "officers" is treated as precluding the appointment of such officers under this section. There is no express statement of law making retired enlisted members ineligible for such appointments; however, the context indicates this to be the intent of Congress. In subsection (g) (3) that portion of 34 U. S. C. 3c (a) which excludes officers on active duty for training from the definition of the word "officers" is treated as precluding the appointment of persons on training duty under this section. While there is no statement of law making enlisted members of the Naval Reserve and the Marine Corps Reserve on active duty for training ineligible for appointments under this section, the context indicates this to be the intent of Congress and clause (3) is thus written. The exception as to the Fleet Reserve is omitted as unnecessary inasmuch as, pursuant to the Armed Forces Reserve Act of 1952, the Fleet Reserve is no longer a part of the Naval Reserve but is a separate and distinct component of the Navy.

SUSPENSION OF SECTION

Section as inoperative whenever the number of male officers serving on active duty in the grade of ensign or above in the line of the Navy does not exceed the number of male officers holding permanent appointments in the grade of ensign or above on the active list in the line of the Regular Navy, see subsecs. (a) and (b) of section 48 of act Aug. 10, 1956, set out as a note under section 5505 of this title.

HISTORICAL AND REVISION NOTES—Continued

The act of July 24, 1941, ch. 320, as amended (34 U. S. C. 350 et seq.), is codified in this section only to the extent that it authorizes original temporary appointments. The temporary promotion aspects of the law are codified in Chapter 545.

In subsection (a) the first five words of 34 U. S. C. 350 are omitted as unnecessary. The words "authority granted * * * shall be exercised only" have been executed by identifying the authority to be exercised. The provisions of 34 U. S. C. 211a (n) are omitted as being no longer necessary. They were included in the Officer Personnel Act of 1947 in order to prevent exercise of the authority granted in 34 U. S. C. 350—350j during the period between Aug. 7, 1947, and the declaration of a subsequent war or emergency. That purpose has been served. The 1951 amendment, authorizing the President to suspend the operation of the subsection, was enacted after the declaration of a new emergency to remove any possible doubt as to the President's authority to make appointments under 34 U. S. C. 350—350j during that emergency. Since the prohibition as to such appointments was temporary and its period of operation has expired, there is no need to codify either the prohibition or the President's power to suspend it.

In subsection (b) the words "in such manner", in 34 U. S. C. 350d (a), are omitted as unnecessary. The proviso in 34 U. S. C. 350d (a) is omitted because it is construed to apply only to temporary promotions and not to original temporary appointments. The words "rank or", in 34 U. S. C. 350e, are omitted as surplusage. The words "under subsections (e) and (f)" are inserted for clarity.

In subsection (b) reference to commissioned warrant officers is omitted because they are included within the term warrant officers. The words "chief and first-class petty officers" are substituted for the words "First-class petty officers and above" and the words "master, technical, and staff sergeants" are substituted for the words "platoon or staff sergeants and above" for clarity. The grade of platoon sergeant was abolished by administrative action. The second sentence of 34 U. S. C. 350c (a) is omitted as unnecessary, since it is covered by the Career Compensation Act of 1949.

Subsection (c) is a restatement of the substance of subsection (b) in terms of the Naval Reserve and the Marine

Corps Reserve as authorized by 34 U. S. C. 350j (a). The words "except the Fleet Reserve" and "except the Fleet Marine Corps Reserve" in 34 U. S. C. 350j (a) are omitted as unnecessary, since the effect of the Armed Forces Reserve Act of 1952 is to remove these organizations from the Naval Reserve and the Marine Corps Reserve.

In subsection (h) the words "do not change the * * * status" are substituted for the words "appointments * * * shall not be vacated". The word "advancement", the words "in accordance with laws relating to the Regular Navy and Marine Corps", and the words "privileges and gratuities" are omitted as surplusage.

34 U. S. C. 350i (a) states that personnel of the regular components, other than retired personnel, shall resume their permanent status when their temporary appointments terminate. It is silent as to reserve and retired personnel remaining on active duty after the termination date. However, 34 U. S. C. 350f (a) provides that these temporary appointments shall not affect the prior permanent, probationary, or acting appointments of appointees. Read together, these sections indicate that all personnel, if on active duty when their temporary appointments terminate, revert to whatever status they had before. Subsection (k) is worded accordingly.

AMENDMENTS

1962—Subsec. (h). Pub. L. 87-649, 14c(28), repealed sentence which prohibited a person receiving a temporary appointment under this section from suffering any reduction in the pay and allowances to which he was entitled because of his permanent status at the time of his temporary appointment, or any reduction in the pay and allowances to which he was entitled under a prior temporary appointment in a lower grade. See section 905 of Title 37, Pay and Allowances of the Uniformed Services.

Subsec. (i). Pub. L. 87-649, § 5(a), eliminated provisions which related to pay and allowances of members receiving temporary appointments. See section 905(g) of Title 37, Pay and Allowances of the Uniformed Services.

EFFECTIVE DATE OF 1962 AMENDMENT

Amendment of section by Pub. L. 87-649 effective on Nov. 1, 1962, see section 15 of Pub. L. 87-649, set out as a note preceding section 101 of Title 37, Pay and Allowances of the Uniformed Services.

§ 5598. Naval Reserve and Marine Corps Reserve: temporary appointments in time of war or national emergency.

(a) In time of national emergency declared by the President or by Congress, and in time of war, temporary appointments may be made in any commissioned grade in the Naval Reserve or the Marine Corps Reserve from qualified persons.

(b) Appointments under this section in the grades of chief warrant officer, W-2, chief warrant officer, W-3, and chief warrant officer, W-4, shall be made by the Secretary of the Navy, by commission, under such regulations as he prescribes.

(c) An officer appointed under this section may be ordered to active duty for such period as the President prescribes.

(d) An appointment under this section may be vacated by the President at any time. Unless sooner vacated, the appointment is effective during the war or emergency in which it is made and for six months thereafter.

(e) The appointment of a permanent warrant officer to a higher grade under this section does not vacate his permanent grade or prejudice any right, privilege, benefit, or promotion status to which he was entitled because of his permanent grade. (Aug. 10, 1956, ch. 1041, 70A Stat. 331.)

The last sentence of 50 U. S. C. 1050 is omitted as unnecessary.

§ 5599. Medical Corps: acting appointments for temporary service.

(a) Appointments for temporary service in the Medical Corps in the grade of lieutenant (junior grade) may be made by the President alone.

(b) Appointees under this section may not be placed on the lineal list, may not be assigned running mates, and are ineligible for promotion. The number of such appointees may not be more than 250 at any time, except that in time of war or declared national emergency the number may be increased by the President as he considers necessary to meet the needs of the naval service. The pay provisions are omitted as they are now covered by the Career Compensation Act of 1949.

The words "without the advice and consent of the Senate" are omitted and the word "alone" is inserted after the word "President" to conform to the appointment language used in the Constitution. The words "In addition to the number of officers of the Medical Corps of the Navy authorized by other provisions of law" are omitted as unnecessary. The only statutory limitation affecting the strength of the Medical Corps is a limitation on the total number of officers authorized to be on the active list in that corps. Since appointees under this section do not hold permanent appointments, they are not on the active list as defined in this title.

§ 5600. Naval Reserve and Marine Corps Reserve: service credit upon original appointment.

(a) For the purpose of determining his grade and lineal position, a person may be credited, at the time of his original appointment as an officer of the Naval Reserve or the Marine Corps Reserve, with an amount of service in an active status that will reflect his combined years of experience and education and such other qualifications as the Secretary of the Navy prescribes by regulations. The Secretary shall report to the Committees on Armed Services of the Senate and House of Representatives by March 1 of each year on the number, categories, and grades of reserve officers (other than in the Medical Corps or Dental Corps) originally appointed in the reserve grade of lieutenant in the Naval Reserve, or captain in the Marine Corps Reserve, or above, during the preceding calendar year.

(b) For the purposes of this section—

(1) a person appointed in the Naval Reserve in any of the following corps shall be credited with at least the following amounts of service in an active status:

(A) Medical Corps—4 years;

(B) Dental Corps—3 years;

(C) Chaplain Corps—3 years;

(D) Judge Advocate General's Corps—3 years;

(2) a person who is appointed in the Naval Reserve in the Medical Service Corps, and who holds a degree of doctor of philosophy or a comparable degree in a science allied to medicine as determined by the Secretary, may be credited with at least 3 years of service in an active status.

This section is phrased in terms of the eligibility of line officers to be running mates in order to permit reference back to this basic rule by the insertion of the word "eligible" before the words "line officer" in subsequent sections.

SUSPENSION OF SECTION

Section as inoperative whenever the number of male officers serving on active duty in the grade of ensign or above in the line of the Navy does not exceed the number of male officers holding permanent appointments in the grade of ensign or above on the active list in the line of the Regular Navy, see subsecs. (a) and (b) of section 48 of act Aug. 10, 1956, set out as a note under section 5505 of this title.

§ 5652. Regular Navy: lieutenants (junior grade).

(a) Except as provided in sections 5652a, 5652b, 5652c, 5653, and 5654 of this title, officers serving in the grade of lieutenant (junior grade) on the active list of the Navy in each staff corps who have dates of rank in the same calendar year shall, after the end of that calendar year, have assigned to them, in the order of their lineal rank, running mates from among eligible line officers who are serving on active duty in the grade of lieutenant (junior grade) and who have dates of rank in the same calendar year as the staff corps officers.

(b) The officer to be assigned as the running mate of a staff corps officer under this section is the eligible line officer whose numerical position in the order of lineal rank, among the line lieutenants (junior grade) on active duty having dates of rank in the same calendar year as the staff corps officer, most nearly equals the product of—

(1) the numerical position of the staff corps officer in his order of lineal rank as determined under subsection (c) or (d); and

(2) a fraction, of which—

(A) the numerator is the number of line lieutenants (junior grade) on active duty having dates of rank in the same calendar year as the staff corps officer; and

(B) the denominator is the number of lieutenants (junior grade) in the staff corps concerned who have dates of rank in the same calendar year as such staff corps officer and who are to have running mates assigned to them under this section.

However, if in any year there is only one lieutenant (junior grade) in any corps to have a running mate assigned to him under this section, the officer to be so assigned is the eligible line officer whose numerical position is nearest the middle of the line lieutenants (junior grade) on active duty having dates of rank in the same calendar year as the staff corps officer.

(c) In each staff corps in which officers may be originally appointed either in the grade of ensign or in that of lieutenant (junior grade), all the lieutenants (junior grade) who are to have running mates assigned to them under this section at any one time are regarded, for the purpose of this section, as having lineal rank among themselves in the order recommended in the approved report of a board of officers of the corps concerned. Such boards shall be convened as soon as practicable after the end of each calendar year, and their recommendations, when approved by the Secretary of the Navy, are conclusive.

(d) In each staff corps in which appointments in the grade of ensign are not authorized, all the lieutenants (junior grade) who are to have running mates assigned to them under this section at any one time are regarded, for the purposes of this section, as having lineal rank among themselves in the chronological order of their dates of rank. **(Aug. 10, 1956, ch. 1041, 70A Stat. 332; Sept. 2, 1958, Pub. Officers of the Naval Reserve are excepted from this section inasmuch as the method for the assignment of their running mates is provided in § 5655 of this title.

Officers appointed to a staff corps by transfer from the line are excepted from subsection (a) because a different method of assigning running mates to such officers is provided in § 5654 of this title.

Subsection (d) is inserted for completeness. Authority for this statement is supplied by § 311 (d) (2) of the Officer Personnel Act of 1947, as amended (34 U. S. C. 306f (d) (2)).

AMENDMENTS

1958—Subsec. (a). Pub. L. 85–861, § 1(133)(A), eliminated provisions which excepted lieutenants (junior grade) appointed to the staff corps by transfer from the line, and which related to assignment of running mates for lieutenants (junior grade) in the Medical Corps.

Subsec. (b). Pub. L. 85–861, § 1(122)(B), substituted "same calendar year as the staff corps officer" for "calendar year prescribed in subsection (a)", and for "prescribed calendar year" in two instances.

SECTION REFERRED TO IN OTHER SECTIONS

This section is referred to in sections 5652, 5653 of this title.

§ 5653. Regular Navy: lieutenants and above.

The Secretary of the Navy shall assign a running mate to each officer whose original appointment to the active list of the Navy in a staff corps is in the grade of lieutenant or above. Except as provided in sections 5652c and 5654 of this title, the officer to be assigned as the running mate may be any eligible line officer on active duty having the same date of rank as the staff corps officer concerned in the highest grade, permanent or temporary, to which the staff corps officer is appointed. If no eligible line officer serving on active duty in that grade has the same date of rank as the staff corps officer, the officer to be assigned as his running mate is the junior eligible line officer on active duty having the next earlier date of rank in that grade. (Aug. 10, 1956, ch. 1041, 70A Stat. 333; Sept. 2, 1958, Pub. L. 85–861, § 1 (124), 72 Stat. 1496.)

The exception is inserted for clarity. Reference to the act of April 18, 1946, ch. 141, 60 Stat. 92, is omitted since authority to appoint officers in the Regular Navy and the Regular Marine Corps under that Act terminated on July 1, 1955. Officers of the Naval Reserve are excepted from this section inasmuch as the method for the assignment of their running mates is provided in § 5655 of this title.

The suspension authority given in the source for subsection (b) permits suspension of provisions relating to "the distribution in grades, promotion by selection, involuntary retirement and discharge of officers." The assignment and reassignment of running mates is not specifically mentioned. However, the running mate system largely determines the distribution of staff corps officers in grades, governs their eligibility for promotion, and determines their attrition rate. It is therefore considered to be covered by the suspension provision.

Reference to women officers appointed under the act of April 18, 1946, ch. 141, 60 Stat. 92, is omitted since the authority to appoint officers in the Regular Navy and the Regular Marine Corps under that act terminated on July 1, 1955.

This section codifies § 206 (e), as modified by § 217, of the Women's Armed Services Integration Act of 1948. Section 206 (e) provides that running mates shall be assigned to women staff corps officers appointed in the Regular Navy under the 1948 act "in the manner prescribed by law now existing or hereafter enacted relating to the assignment of running mates to male staff officers of the Regular Navy". Section 215 of the 1948 act provides that title III of the Officer Personnel Act of 1947 shall not be applicable to women officers and that certain provisions of titles I and II, currently inoperative as to male officers, shall be operative as to women. The provisions of title III that are codified in this chapter are identical with their counterparts in title II except for the provisions codified in §§ 5653, 5655, and 5657. Sections 5653 and 5655 are not incorporated by (junior grade); and (2) this section covers regular officers reference in this section because (1) women officers cannot be initially appointed in grades above lieutenan. only. The difference between the source for § 5657 and its title II counterpart was immaterial and has been eliminated in the codification.

§ 5665. Naval Reserve and Marine Corps Reserve: active status officers in permanent grades above chief warrant officer, W-4.

(a) While in the grade of lieutenant (junior grade) or in a higher grade in which initially appointed, each officer in an active status in the Naval Reserve shall have a running mate of the same grade. Except as provided in subsection (d), the running mate shall be the officer not restricted in the performance of duty on the lineal list of line officers of the Navy who is next junior to the reserve officer.

(b) While in the grade of first lieutenant or in a higher grade in which initially appointed, each officer in an active status in the Marine Corps Reserve shall have a running mate of the same grade. Except as provided in subsection (d), the running mate shall be the officer not restricted in the performance of duty on the active list of the Marine Corps who is next junior to the reserve officer.

(c) An officer in an active status in the Naval Reserve or the Marine Corps Reserve who is assigned a running mate after the initial assignment under subsection (a) or (b) shall be assigned a running mate in accordance with the principles prescribed by this chapter for the assignment of running mates to staff corps officers on the active list of the Navy. However, except as provided in subsection (d), the running mate shall, whenever possible, be the officer not restricted in the performance of duty on the lineal list of line officers of the Navy or on the active list of the Marine Corps, as appropriate, who is next junior to the reserve officer.

(d) The running mate of a woman officer of the Naval Reserve, except an officer in the Nurse Corps or an officer appointed under section 5581 of this title, shall be the woman officer on the active list in the line of the Navy who is next junior to her. The running mate of a woman officer of the Marine Corps Reserve shall be the woman officer on the active list of the Marine Corps who is next junior to her.

(e) A reserve officer who was assigned a running mate under laws in effect before July 1, 1955, continues to have that running mate unless assigned a new one under subsection (c). (Added Pub. L. 85-861, § 1 (125) (A), Sept. 2, 1958, 72 Stat. 1496.)

5665	50: 1304. 50: 1307.	Sept. 3, 1954, ch. 1257, §§ 404, 407 (a) (1st sentence), 68 Stat. 1167, 1169.

In subsection (d), the words "except an officer in the Nurse Corps or an officer appointed under section 5581 of this title" are inserted because these officers, although of the female sex, are not "women officers" within the meaning of the Reserve Officer Personnel Act of 1954. Several sections of the source statute contain separate provisions for women officers and for officers of the Nurse Corps Reserve, and section 405 (a) recognizes the fact that the latter, like Regular Navy nurses, have lineal list line officers (all of whom are male) as running mates. The legislative history of the source statute and its amendments shows clearly that "women officers" and "officers of the Nurse Corps Reserve" were considered as two distinct categories. "Officers appointed under section 5581 of this title" constitute an additional category. There is no indication in the legislative history of the source statute that Congress had any intention to supersede, as to Reserves, the act of June 24, 1952, ch. 457 (66 Stat. 155; 34 U. S. C. 21e) (codified in section 5581 of this title). That act made applicable to women all laws authorizing

the appointment of men as officers in the Medical, Dental, and Medical Service Corps, and provided that all laws relating to male officers in these corps should also apply to women. Accordingly, women appointed in the Regular Navy pursuant to that act have male line officers as running mates and are considered for promotion with their male contemporaries. To provide the same treatment for women appointed in the Naval Reserve in these corps, it is necessary to exclude them from the provisions of the Reserve Officer Personnel Act of 1954 relating to "women officers". Throughout the latter act, it is apparent that Congress intended reserve officers in each category to be administered in a manner as similar as possible to the administration of regular officers in the same category.

CHAPTER REFERRED TO IN OTHER SECTIONS

This chapter is referred to in sections 5450, 5751, 5753, 5754, 5756, 5757, 5758, 5760, 5761, 5762, 5763, 5764, 5765, 5769, 5771, 5772, 5776, 5891, 5906, 6384, 6407 of this title.

§ 5701. Navy; line officers: promotion and continuation on the active list.

(a) At least once each year the Secretary of the Navy shall convene the following selection boards to recommend male officers in the line of the Navy for promotion and continuation on the active list:

(1) A board to recommend rear admirals not restricted in the performance of duty for continuation on the active list, consisting of five officers of the Regular Navy on the active list or the retired list senior in permanent rank to all officers under consideration.

(2) A board to recommend captains restricted in the performance of duty for continuation on the active list, consisting of nine officers serving in the grade of rear admiral or above.

(3) A board to recommend captains for promotion to the grade of rear admiral and a board to recommend commanders for promotion to the grade of captain, each consisting of not less than nine officers serving in the grade of rear admiral or above.

(4) A board to recommend lieutenant commanders for promotion to the grade of commander, consisting of three officers serving in the grade of rear admiral and six officers serving in the grade of captain.

(5) A board to recommend lieutenants for promotion to the grade of lieutenant commander and a board to recommend lieutenants (junior grade) for promotion to the grade of lieutenant, each consisting of nine officers serving in the grade of captain or above.

(b) Except as provided in subsections (c) and (d), selection boards convened under clauses (2) through (5) of subsection (a) shall be composed of officers on the active list in the line of the Navy not restricted in the performance of duty.

(c) When officers designated for engineering duty, aeronautical engineering duty, or special duty are eligible for consideration by a selection board convened under subsection (a), the Secretary shall appoint, as alternate members of the board, three officers on the active list of the Navy of the same designation and classification as any such eligible officer. If three such officers are not available, he shall appoint as many as are available. Junior members of the board who are not restricted in the performance of duty, in like number, may not act upon the case of any officer designated for engineering duty, aeronautical engineering duty, or special duty. No alternate member may act upon the case of any officer who is not of the same designation as himself. When a board convened under subsection (a)(3) consists of more than nine members, only nine officers may act upon the case of any officer designated for engineering duty, aeronautical engineering duty, or special duty; namely, the three alternate members of the same designation as the officer under consideration (or the lesser available number of such officers) plus the number of the most senior members not restricted in the performance of duty necessary to make a total of nine.

(d) When officers of the Naval Reserve are eligible for consideration by a selection board convened under subsection (a), the Secretary shall appoint an appropriate number of reserve officers, otherwise qualified under this section, as members of the board and shall appoint officers on the active list of the Navy, qualified under this section, to complete the prescribed membership.

(e) No officer may be a member of two successive boards for the consideration of officers for promotion to the same grade. (Aug. 10, 1956, ch. 1041, 70A Stat. 336; Feb. 26, 1970, Pub. L. 91-199, § 1, 84 Stat. 16.)

In subsection (a) the words "these boards shall be appointed by the Secretary of the Navy" and the words "and at such other times as the Secretary of the Navy may direct" are omitted as surplusage. In subsection (a) (1) the words "or officers of higher grades" are omitted as surplusage. The words "not restricted in the performance of duty" are inserted in subsection (a) (1) because rear admirals in the line restricted in the performance of duty are not eligible to be considered by such a board.

In subsection (c) the last sentence of 34 U. S. C. 306 (a) (1) is omitted as surplusage.

Subsection (d) is inserted to reflect the effect on this section of § 254 of the Armed Forces Reserve Act of 1952 (50 U. S. C. 1005), which is codified in § 266 of this title.

AMENDMENTS

1970—Subsec. (a) (3). Pub. L. 91–199, § 1(1), substituted "not less than nine officers" for "nine officers".

Subsec. (c). Pub. L. 91–199, § 1(2), added provision that when the composition of the board exceeds nine, only nine officers could act upon the case of any officer designated for engineering duty, aeronautical engineering duty or special duty and set out the method of determining which nine officers would act.

SUSPENSION OF SECTION

Section as inoperative whenever the number of male officers serving on active duty in the grade of ensign or above in the line of the Navy does not exceed the number of male officers holding permanent appointments in the grade of ensign or above on the active list in the line of the Regular Navy, see subsecs. (a) and (b) of section 48 of act Aug. 10, 1956, set out as a note under section 5505 of this title.

SUSPENSION OF CERTAIN PROVISIONS RELATING TO LINE REAR ADMIRALS.

For suspension of provisions under subsection (a) (1) of this section relating to continuation on active list of line rear admirals not restricted in performance of duty, see Ex. Ord. No. 11284, May 27, 1966, 31 F.R. 7669, set out as a note under section 6371 of this title.

OFFICER PERSONNEL ACT OF 1947

Titles I and II of the Officer Personnel Act of 1947, act Aug. 7, 1947, ch. 512, 61 Stat. 798, as amended by acts June 23, 1950, ch. 344, §§ 1(a) 2, 64 Stat. 250, 253; Apr. 30, 1956 ch. 223 § 4(1) 70 Stat. 121; Sept. 2, 1958, Pub. "TITLE I—PERMANENT PROVISIONS RELATING TO OFFICERS OF THE LINE OF THE NAVY

"PERMANENT STATUS OF TITLE I

"SEC. 101. The provisions of this title shall constitute permanent, as distinguished from terminable, provisions of law relating to the distribution of commissioned officers in the various grades of the line of the Regular Navy, to the promotion of such officers to the grades above that of lieutenant (junior grade), and to the involuntary separation from the active list.

"DEFINITIONS

"SEC. 102. (a) As used in this title, the word 'officers' shall be held to mean commissioned officers holding permanent appointments as such on the active list in the line of the Regular Navy. Unless otherwise qualified, it shall be held to include officers designated for engineering duty, aeronautical engineering duty, special duty, and limited duty, and to exclude commissioned warrant officers. [See §§ 5447, 5448 of this title.]

"(b) As used in this tile, military titles shall be held to describe an officer or officers, as the case may be, holding permanent appointment on the active list in the line of the Regular Navy in the grade concerned. [See §§ 5447, 5448 of this title.]

"(c) As used in this title, the words 'not restricted in the performance of duty' shall be held to describe officers not designated for engineering duty, aeronautical engineering duty, special duty, or limited duty, or officers of the Marine Corps not designated for supply duty or limited duty.

"(d) For the purposes of this title in respect to eligibility for continuation on the active list and in respect to separation from the active list, the total commissioned service of an officer who shall have served continuously in the Regular Navy following appointment therein in the grade or rank of ensign upon graduation from the Naval Academy or pursuant to the Act of August 13, 1946 (Public Law 729, Seventy-ninth Congress), shall be computed from June 30 of the fiscal year in which he accepted such appointment. Each other officer shall be deemed to have for these purposes as much total commissioned service as any officer described above in this subsection who shall not have lost numbers or precedence and who is, or shall have been, junior to such other officer for the purpose of eligibility for promotion or selection for promotion since the date of the latter's first appointment to permanent commissioned rank in the Regular Navy above the grade of commissioned warrant officer, following which he shall have served continuously on the active list of the Regular Navy. [See § 6387 of this title.]

"(e) The words 'active-duty pay' as used in sections 112 and 113 of this title shall be construed to mean the base and longevity pay the retired officer concerned would receive if serving on active duty in his grade.

"DISTRIBUTION OF OFFICERS

"SEC. 103. (a) The total number of officers on the active list at any one time, exclusive of officers carried by law as additional numbers in grade and of fleet admirals, shall be distributed in the proportion of seventy-five one-hundredths of one in the grade of rear admiral, to six in the grade of captain, to twelve in the grade of commander, to eighteen in the grade of lieutenant commander, to twenty-four and seventy-five one-hundredths in the grade of lieutenant, to thirty-eight and fifty one-hundredths in the combined grades of lieutenant (junior grade) and ensign: *Provided,* That of the number of officers so authorized in each grade below captain, not to exceed the following percentages may be officers designated for limited duty: In the grade of commander three and sixty-four one hundredths; in the grade of lieutenant commander eight and sixty-two one hundredths; in the grade of lieutenant seven and seventy-two one-hundredths; and in the combined grades of lieutenant (junior grade) and ensign, six and four one-hundredths: *And provided further,* That, except in time of war or national emergency declared after the effective date of this Act, the number of rear admirals not restricted in the performance of duty shall not exceed one hundred and fifty. [Repealed. See §§ 5447, 5448 of this title.]

"(b) The total number of rear admirals designated for engineering duty, aeronautical engineering duty, and special duty shall not exceed at any one time a number equal to 13 per centum of the authorized number of officers, not restricted in the performance of duty, of the grade of rear admiral at that time: *Provided,* That, except in time of war or national emergency declared after the effective date of this Act, the number of such rear admirals shall not exceed nineteen. [Repealed. See § 5447 of this title.]

"(c) The total number of officers designated for engineering duty, in the combined grades of captain, commander, and lieutenant commander, shall not exceed at any one time a number equal to 9 per centum of the total number of officers, not restricted in the performance of duty, authorized in those grades at that time. [Repealed. See § 5447 of this title.]

"(d) The total number of officers designated for aeronautical engineering duty, in the combined grades of captain, commander, and lieutenant commander, shall not exceed at any one time a number equal to 5 per centum of the total number of officers, not restricted in the performance of duty, authorized in those grades at that time. [Repealed. See § 5447 of this title.]

"(e) The total number of officers designated for special duty, in the combined grades of captain, commander, and lieutenant commander, shall not exceed at any one time a number equal to 5 percentum of the total number of officers, not restricted in the performance of duty, authorized in those grades at that time. [Repealed. See § 5447 of this title.]

"(f) To determine the authorized number of officers in each of the various grades above lieutenant (junior grade), and in the combined grades of lieutenant (junior grade) and ensign, as provided in this section, computations shall be made by the Secretary of the Navy as of the date of approval of this Act and thereafter as of January 1 of each year, and the resulting number in each of such various grades, and in the combined grades of lieutenant (junior grade) and ensign, as so computed, shall be held and considered for all purposes as the authorized number of officers in each of such various grades and in the combined grades of lieutenant (junior grade) and ensign, and shall not be varied between such computations: *Provided,* That should it be found at the time of making any such computation that the authorized number which would result in the grade of captain could not be attained because of the minimum total commissioned service requirement prescribed by subsection 107 (c) of this title, the Secretary of the Navy shall determine such lesser number as may be appropriate and such lesser number shall be regarded as the authorized number, and the authorized number in any lower grade or grades shall be increased accordingly as may be determined by the Secretary of the Navy: *Provided further,* That to determine the authorized number of officers designated for limited duty in each of the various grades above lieutenant (junior grade) and in the combined grades of lieutenant (junior grade) and ensign, the Secretary of the Navy, as of the date of the approval of this Act and thereafter as of January 1 of each year, shall compute the maximum number of such officers who may serve in each of such various grades, and in the combined grades of lieutenant (junior grade) and ensign, as provided in subsection (a) of this section, and shall determine the number of such officers in each of such various grades, and in the combined grades of lieutenant (junior grade) and ensign, not to exceed such maximum number, required to meet the needs of the service during the ensuing year, and the resulting number of each of such various grades, and in the combined grades of lieutenant (junior grade) and ensign, as so determined, shall be held and considered for all purposes as the authorized number of such officers in each of such various grades, and in the combined grades of lieutenant (junior grade) and ensign, and shall not be varied between such determinations: *Provided further,* That no officer shall be reduced in grade or pay or separated from the active list of the Navy as a result of any such computation or determination: *And provided further,* That notwithstanding the provisions of this subsection relating to the authorized number of officers in grade, in order to make adjustment for the number of officers originally appointed each year in any grade pursuant to titles I through IV of this Act or to other provisions of law, the authorized number of officers in each grade concerned may be temporarily exceeded by such number of original appointments in such grade until the next succeeding annual computation authorized by this subsection shall be made. [Repealed. See §§ 5447, 5448, 5455 of this title.]

"(g) Whenever a final fraction occurs in any computation made pursuant to this title, the nearest whole number shall be taken, and if such fraction be one-half the next higher whole number shall be taken. [Repealed. See § 5454 of this title.]

"PROMOTION BY SELECTION; RETENTION OF REAR ADMIRALS

"SEC. 104. (a) Subject to the provisions of section 1508 of the Revised Statutes, all promotions to grades above that of lieutenant (junior grade), including the promotion of those officers who are, or may be, carried on the Navy list as additional numbers in grade, shall be only upon the recommendation of a board of naval officers as herein prescribed.

"(b) Rear admirals, not restricted in the performance of duty, who complete four years of service in that grade and thirty-four years of total commissioned service shall, subject to the provisions of subsection 107 (a) of this title, be continued on the active list only upon the recommendation of a board of naval officers as prescribed by titles I through IV of this Act.

"SELECTION BOARDS

"SEC. 105. (a) A board for the recommendation of rear admirals for continuation on the active list shall consist of five rear admirals, or officers of higher rank, senior to any officer under consideration. Boards for the recommendation of officers for promotion to the grades of rear admiral and captain, and for the recommendation of captains for continuation on the active list, shall consist of nine rear admirals; a board for the recommendation of officers for promotion to the grade of commander shall consist of three rear admirals and six captains; and boards for the recommendation of officers for promotion to the grades of lieutenant commander and lieutenant shall consist of nine officers above the grade of commander. Whenever officers designated for engineering duty, areonautical engineering duty, or special duty are eligible for consideration by a selection board for promotion or for continuation on the active list, the Secretary of the Navy shall appoint, as alternate members of the appropriate selection board, three officers of the same designation and classification as any such eligible officer, and if there be not three available he shall so appoint such lesser number as shall be available, and the junior members who are not restricted in the performance of duty, in like numbers, shall not act upon the cases of officers designated for engineering duty, aeronautical engineering duty, or special duty. No such alternate member shall act upon the cases of officers other than those of the same designation as himself. No officer designated for engineering duty, aeronautical engineering duty, or special duty shall act upon the cases of officers not restricted in the performance of duty.

"(b) The officers composing these boards shall be officers on the active list of the Navy. No officer may be a member of two successive selection boards for the consideration of officers for promotion to the same grade, or for the consideration of officers for continuation on the active list in the same grade.

"(c) These boards shall be appointed by the Secretary of the Navy and convened at least once each year and at such times as the Secretary of the Navy may direct.

"OATH FOR MEMBERS OF SELECTION BOARDS

"SEC. 106. Each member of a board provided for in section 105 of this title shall swear or affirm, that he will, without prejudice or partiality, and having in view both the special fitness of officers and the efficiency of the naval service, perform the duties imposed upon him as herein provided.

"ELIGIBILITY OF OFFICERS FOR CONSIDERATION BY SELECTION BOARDS

"SEC. 107. (a) Rear admirals, not restricted in the performance of duty, who, at any time during the fiscal year in which this title becomes effective or at any time during any subsequent fiscal year, first attain the status of having completed four years of service in grade and thirty-four years of total commissioned service shall become eligible for consideration by a selection board convened in such fiscal year for recommendation for continuation on the active list: *Provided,* That such a rear admiral who at any time shall have lost numbers or precedence shall become eligible for such consideration in the fiscal year in which the most senior rear admiral junior to him who shall not have lost numbers or precedence becomes eligible therefor: *Provided further,* That such eligibility shall continue until the officer concerned shall have been selected for continuation on the active list or until he shall have twice failed of such selection, whichever shall occur earlier: *Provided further,* That a rear admiral who shall have been selected for continuation on the active list pursuant to title III of this Act shall not be considered for selection for continuation pursuant to this subsection.

"(b) Captains designated for engineering duty, aeronautical engineering duty, or special duty, within the following categories shall be eligible for consideration by a selection board for recommendation for continuation on the active list: (1) Those who have twice failed of selection for promotion to rear admiral, and (2) those who have failed of selection for promotion to rear admiral

in the immediately preceding year and who are not recommended for promotion by the selection board concerned: *Provided,* That such captains who will complete thirty-five years' total commissioned service or who will attain the age of sixty-two years in the fiscal year in which such board is convened will not be eligible for consideration for continuation on the active list.

"(c) Officers shall be eligible for consideration by a selection board for promotion to the next higher grade when they will have completed, on June 30 of the fiscal year of the convening of the appropriate board, the following periods of service in the grades in which they are serving: Captains, three years; commanders, five years; lieutenant commanders and lieutenants, four years; lieutenants (junior grade), two years: *Provided,* That no officer of the grade of commander shall be eligible for consideration by a selection board for promotion to captain who, on June 30 of the fiscal year of the convening of the board, will have completed less than eighteen years commissioned service as defined in subsection 102 (d) of this title, nor shall any such officer be so eligible until all officers senior to him in his grade are likewise eligible. An officer in any grade who shall become eligible for such consideration shall, regardless of failure or failures of selection for such promotion, remain so eligible while on the active list: *Provided,* That officers whose names are on the promotion list for any grade on the date of the convening of the board shall not be considered for the same grade by the board.

"(d) Of the officers, in any grade, designated for limited duty, who would otherwise be eligible for consideration for promotion pursuant to the provisions of subsection (c) of this section, only the junior officer in the promotion zone and officers senior to him in the grade concerned shall be eligible for such consideration.

"INFORMATION TO BE FURNISHED SELECTION BOARDS

"SEC. 108. (a) The Secretary of the Navy shall furnish the appropriate selection board with (1) the number of officers not restricted in the performance of duty, the number of officers designated for engineering duty, the number of officers designated for aeronautical engineering duty, the number of officers designated for special duty, and the number of officers designated for limited duty, which the board may recommend for promotion to the next higher grade; (2) the names of all officers eligible for consideration for promotion to each grade or grades to which the board will recommend officers for promotion; (3) the number of rear admirals not restricted in the performance of duty which the board may recommend for continuation on the active list; (4) the names of all rear admirals eligible for consideration for continuation on the active list; (5) the number of captains designated for engineering duty, the number of captains designated for aeronautical engineering duty, and the number of captains designated for special duty, which the board may recommend for continuation on the active list; (6) the names of captains eligible for consideration for continuation on the active list; (7) the records of all officers whose names are furnished to a board; and (8) the names of officers in the respective promotion zones in the grade or grades under consideration for promotion.

"(b) The number to be furnished the board in respect to the promotion of officers not restricted in the performance of duty shall be determined by the Secretary of the Navy as of the date of the convening of the board and shall be equal to the number of vacancies existing among such officers in each grade for promotion to which the board will recommend such officers plus the estimated number of such vacancies which will occur during the ensuing twelve-month period and minus the number of such officers then on the promotion list.

"(c) The number to be furnished the board in respect to the promotion of officers designated for limited duty shall be determined by the Secretary of the Navy as of the date of the convening of the board and shall be equal to the number of vacancies existing among such officers in each grade for promotion to which the board will recommend such officers plus the estimated number of such vacancies which will occur during the ensuing twelve-month period and minus the number of such officers then on the promotion list.

"(d) The numbers to be furnished the board in respect to the promotion of officers designated for engineering duty, aeronautical engineering duty, or special duty to the grade of rear admiral shall be determined by the Secretary of the Navy as of the date of the convening of the board. Their total shall be equal to the number of vacancies existing among such officers in the grade of rear admiral plus the estimated number of such vacancies which will occur during the ensuing twelve-month period and minus the number of such officers then on the promotion list. Within and to such total the Secretary of the Navy shall allocate such numbers to any or all of the named categories as he shall determine to be necessary to meet the requirements of the Navy.

"(e) The number to be furnished the board in respect to the promotion of officers designated for engineering duty from a grade below captain shall be determined by the Secretary of the Navy as of the date of the convening of the board as necessary to meet the needs of the service. Such number shall not exceed the number of such officers in the promotion zone in the grade concerned, nor be less than the product of that number and a fraction which for each such grade shall have as its numerator a number equal to the number of line officers in the same grade, not restricted in the performance of duty, which may be recommended for promotion to the next higher grade in the same fiscal year, and as its denominator a number equal to the number of line officers, not restricted in the performance of duty, in the promotion zone of the grade concerned in such year.

"(f) The number to be furnished the board in respect to the promotion of officers designated for aeronautical engineering duty from a grade below captain shall be determined by the Secretary of the Navy as of the date of the convening of the board as necessary to meet the needs of the service. Such number shall not exceed the number of such officers in the promotion zone in the grade concerned, nor be less than the product of that number and a fraction which for each such grade shall have as its numerator a number equal to the number of line officers in the same grade, not restricted in the performance of duty, which may be recommended for promotion to the next higher grade in the same fiscal year, and as its denominator a number equal to the number of line officers, not restricted in the performance of duty, in the promotion zone of the grade concerned in such year.

"(g) The number to be furnished the board in respect to the promotion of officers designated for special duty from a grade below captain shall be determined by the Secretary of the Navy as of the date of the convening of the board as necessary to meet the needs of the service. Such number shall not exceed the number of such officers in the promotion zone in the grade concerned, nor be less than the product of that number and a fraction which for each such grade shall have as its numerator a number equal to the number of line officers in the same grade, not restricted in the performance of duty, which may be recommended for promotion to the next higher grade in the same fiscal year, and as its denomination a number equal to the number of line officers, not restricted in the performance of duty, in the promotion zone of the grade concerned in such year.

"(h) The number to be furnished the board in respect to rear admirals not restricted in the performance of duty to be continued on the active list shall be determined by the Secretary of the Navy as of the date of the convening of the board and shall be computed by dividing the authorized number of such rear admirals by three and subtracting from the quotient thus obtained the number of such rear admirals, exclusive of those who have once failed of selection for such continuation, who shall have completed prior to the end of the preceding fiscal year four years of service in that grade and thirty-four years of total commissioned sevice, which it is estimated will remain on the active list at the end of the current fiscal year: *Provided,* That the number to be so furnished shall not be less than 50 per centum of the number of such rear admirals, exclusive of those who have once failed of selection for such continuation, eligible for consideration by the board for continuation on the active list.

"(i) The number to be furnished the board in respect to captains designated for engineering duty, aeronautical engineering duty, or special duty to be continued on the

active list shall be such a number in each case not to exceed in each instance the number prescribed in subsection 112 (a) of this title, as the Secretary of the Navy shall determine to be necessary to meet the requirements of the Navy.

"(j) The promotion zone in any grade for officers not restricted in the performance of duty shall be established by the Secretary of the Navy as of the date of the convening of a selection board to consider officers of that grade for recommendation for promotion to the next higher grade. It shall consist of that number of the most senior such officers of the grade under consideration, who are eligible for selection for promotion to the next higher grade and have not previously failed of such selection, which must be either selected for promotion by the particular board or be considered as having failed of such selection, in order to maintain a flow of promotion consistent with the terms of service set out in subsection (m) of this section and to best assure to individuals in succeeding years equality of opportunity for promotion. The number shall be determined by the Secretary of the Navy and shall be based upon a consideration of the estimated number of vacancies which will occur in the next higher grade for each of the ensuing five years, the number of such officers who will be eligible for selection, and the terms of service which they will have completed.

"(k) The promotion zones in any grade, below that of captain, for officers designated for engineering duty, for officers designated for aeronautical engineering duty, and for officers designated for special duty, shall each be composed of all officers of each such designation in the grade who have not previously failed of selection to the next higher grade and who are senior to the junior officer in the promotion zone determined as provided in subsection (j) of this section.

"(*l*) The promotion zone in any grade for officers designated for limited duty shall be established by the Secretary of the Navy as of the date of the convening of a selection board to consider officers of that grade for recommendation for promotion to the next higher grade. The number shall be determined by the Secretary of the Navy and shall be based upon a consideration of the estimated number of vacancies which will occur in the next higher grade for each of the ensuing five years, the number of such officers who will be eligible for selection, and the terms of service which they will have completed.

"(b) From among those rear admirals not restricted in the performance of duty who are eligible for consideration for continuation on the active list, the board shall recommend for such continuation those officers whom it considers best fitted for continued service on the active list, in number equal to the number furnished the board by the Secretary of the Navy as provided in section 108 of this title.

"(c) From among those captains designated for engineering duty, aeronautical engineering duty, or special duty, who are eligible for consideration for continuation on the active list, the board shall recommend for such continuation those officers, of each such category, whom it considers best fitted for continued service on the active list, in number not exceeding the number furnished the board by the Secretary of the Navy, with respect to that category, as provided in section 108 of this title.

The report of a board convened to recommend rear admirals or captains for continuation on the active list shall certify that, in the opinion of at least two-thirds of the acting members, and, if the board has but five acting members, in the opinion of at least a majority of the acting members, the officers therein recommended are selected as the best fitted for continued service on the active list.

"(b) The report of the board shall be submitted to the President for approval or disapproval: *Provided,* That in case any officer or officers recommended by the board for promotion, or, in the case of rear admirals or captains, for continuation on the active list, be not acceptable to the President, the board shall be informed of the name of such officer or officers and shall recommend a number of officers for promotion or for continuation on the active list, as the case may be, equal to the number of those found not acceptable to the President and, if necessary, the board shall be reconvened for this purpose.

"(b) The commission of each officer promoted to a higher grade shall bear such date of rank and precedence number which, upon his promotion, will assure him precedence in accordance with the order in which his name appeared on the promotion list; no increased pay or allowances shall accrue to any officer prior to the date of the occurrence of the vacancy which he is promoted to fill.

"(c) The President may remove the name of any officer from the promotion list. An officer whose name is so removed from the promotion list, or one whose appointment is rejected by the Senate, shall continue to be eligible for consideration for recommendation for promotion: *Provided,* That the next ensuing selection board may recommend the officer concerned for promotion, and thereupon, with the approval of the President, the name of such officer shall be replaced on the promotion list, without prejudice by reason of its having been temporarily removed therefrom, and when promoted such officer shall take the same lineal rank and date of rank that he would have had had his name not been so removed: *And provided further,* That if such officer is not so recommended by such next ensuing selection board or if the President shall again remove his name from the promotion list or if the Senate shall again reject his appointment, he shall be held for all purposes to have twice failed of selection for promotion.

"(w) From among the officers designated for supply duty who are eligible for consideration for continuation on the active list the Board shall recommend for such continuation those officers whom it considers best fitted for continued service on the active list in number equal to the number furnished the board by the Secretary of the Navy.

"(y) The report of a board convened pursuant to the provisions of subsections (*l*), (m), and (t) of this section shall be submitted to the President for approval or disapproval; if the President shall disapprove the recommendations of the board in whole or in part, the board shall then recommend additional appropriate general officers for retirement equal to the number disapproved by the President.

Unless otherwise qualified it shall be held to include officers of the Medical, Supply, Chaplain, Civil Engineer, Dental, Medical Service, and Nurse Corps of the Navy, including officers designated for limited duty in such corps, and to exclude commissioned warrant officers. [See § 5449 of this title.]
